and observing the suffering of grieving families Stanley Cornils asked himself Isn t there something more I can do for these people As a result he developed his Grief Recovery Seminars and has presented them for the past twenty years Your Healing Journey Through Grief represents the culmination of The New York Times Career Planner Elizabeth M. Woodrow Wilsonic temptations to combine with other nations he remains an Englishman first last and all the time that the British Empire comes before everything with him and that it is on this understanding and this alone that he consents to discuss with foreigners any little matters in which he can oblige them without detriment to the said reserved interests And this attitude seems to us in England so natural so obvious so completely a matter of course that the newspapers discuss the details of Mr Chamberlain s report of his trip without a word about the patriotic exordium which reduces England s membership of the League to absurdity Now your disadvantage in belonging to a league of nations instead of to a nation is that if you belong to New York or Massachusetts and know anything beyond the two mile radius of which you are the centre you probably know much more of England France and Italy than you do of Texas or Arizona though you are expected as an American to know all about America Yet I never met an American who knew anything about America except the bits she had actually set eyes on or felt with her boots and even of that she could hardly see the wood for the trees By comparison I may be said to know almost all about America I am far enough off to get a good general view and never having assumed as the natives do that a knowledge of America is my intuitional birthright I have made enquiries read books availed myself of the fact that I seem to be personally an irresistible magnet for every wandering American and even gathered something from the recklessly confidential letters which every American lady who has done anything unconventional feels obliged to write me as a testimony to the ruinous efficacy of my books and plays I could and should have drawn all the instances in this book from American life were it not that America is such a fool s paradise that no American would have believed a word of them and I should have been held up in exact proportion to my accuracy and actuality as a grossly ignorant and prejudiced Britisher defaming the happy West as ludicrously as the capitalist West defames Russia What I tell you of England you will believe What I could tell you of America might provoke you to call on me with a gun Also it would lead you to class me as a bitter enemy to America whereas I assure you that though I do not adore your country with the passion professed by English visitors at public banquets when you have overwhelmed them with your reckless hospitality I give it a good deal of my best attention as a very interesting if still very doubtful experiment in civilization
