Everybody Was Kung Fu Fighting Vijay Prashad, 2002-11-18 Selected as One of the Village Voice's Favorite 25 Books of 2001 In this landmark work historian Vijay Prashad refuses to engage the typical racial discussion that matches people of color against each other while institutionalizing the primacy of the white majority Instead he examines more than five centuries of remarkable historical evidence of cultural and political interaction between Blacks and Asians around the world in which they have exchanged cultural and religious symbols appropriated personas and lifestyles and worked together to achieve political change

Creolization Charles Stewart, 2016-07 Renowned scholars give the term creolization historical and theoretical specificity by examining the very different domains and circumstances in which the process takes place

Mapping the New African Diaspora in China Shanshan Lan, 2017-04-07 When one thinks of African diasporas it is likely that their mind will automatically drift to locations such as Europe and America But how much is known about the African diaspora in East Asia and in particular within China where race is such a politically sensitive topic Based on multi sited ethnographic research in China and Nigeria *Mapping the New African Diaspora in China* explores a new wave of African migration to South China in the context of the expansion of Sino African trade relations and the global circulation of racial knowledge Indeed grassroots perspectives of China Africa trade relations are foregrounded through the examination of daily interactions between Africans and rural to urban Chinese migrants in various informal trade spaces in Guangzhou These Afro Chinese encounters have the potential to not only help reveal the negotiated process of mutual racial learning but also to subvert hegemonic discourses such as Sino African friendship and white supremacy in subtle ways However as Lan demonstrates within this enlightening volume the transformative power of such cross cultural interactions is severely limited by language barrier cultural differences and the Chinese state's stringent immigration control policies This book will appeal to scholars and students in the fields of China Africa relations race and ethnic studies globalization and transnational migration and urban China studies as well as those from other social science disciplines such as political science international relations urban geography Asian Studies African studies sociology development studies and cross cultural communication studies It may also appeal to policymakers and non profit organizations involved in providing services and

assistance to migrant populations **The Oxford Handbook of Chinese Cinemas** Carlos Rojas, Eileen Chow, 2013-03-13

What does it mean for a cinematic work to be Chinese Does it refer specifically to a work's subject or does it also reflect considerations of language ethnicity nationality ideology or political orientation Such questions make any single approach to a vast field like Chinese cinema difficult at best Accordingly *The Oxford Handbook of Chinese Cinemas* situates the term more broadly among various different phases genres and distinct national configurations while taking care to address the consequences of grouping together so many disparate histories under a single banner Offering both a platform for cross disciplinary dialogue and a mapping of Chinese cinema as an expanded field this Handbook presents thirty three essays by leading researchers and scholars intent on yielding new insights and new analyses using three different methodologies Chapters in Part I investigate the historical periodizations of the field through changing notions of national and political identity all the way from the industry's beginnings in the 1920s up to its current forms in contemporary Hong Kong Taiwan and the global diaspora Chapters in Part II feature studies centered on the field's taxonomical formalities including such topics as the role of the Chinese opera in technological innovation the political logic of the Maoist film and the psychoanalytic formula of the kung fu action film Finally in Part III focus is given to the structural elements that comprise a work's production distribution and reception to reveal the broader cinematic apparatuses within which these works are positioned Taken together the multipronged approach supports a wider platform beyond the geopolitical and linguistic limitations in existing scholarship Expertly edited to illustrate a representative set of up to date topics and approaches *The Oxford Handbook of Chinese Cinemas* provides a vital addition to a burgeoning field still in its formative stages **Shaolin Brew**

Troy D. Smith, 2024-05-28 *Shaolin Brew Race Comics and the Evolution of the Superhero* looks at how the comic book industry developed from a white perspective and how minority characters were and are viewed through a stereotypical white gaze Further the book explores how voices of color have launched a shift in the industry taking nonwhite characters who were originally viewed through a white lens and situating them outside the framework of whiteness The financial success of Blaxploitation and Kung Fu films in the early 1970s led to major comics publishers creating for the first time Black and Asian superhero characters who headlined their own comics The introduction of Black and Asian main characters who previously only served as guest stars or sidekicks launched a new kind of engagement between comics companies and minority characters and readers However scripted as they were by white writers these characters were mired in stereotypes Author Troy D Smith focuses on Asian Black and Latinx representation in the comic industry and how it has evolved over the years Smith explores topics that include Orientalism whitewashing Black respectability politics the model minority myth and political controversies facing fandoms In particular Smith examines how fans take the superheroes they grew up with such as Luke Cage Black Lightning and Shang Chi and turn them into the characters they wished they had as children *Shaolin Brew* delves into the efforts of fans of color who urged creators to make these characters more realistic This refining process

increased as more writers and artists of color broke into the industry bringing their own perspectives to the characters. As many of these characters transitioned from page to screen, a new generation of writers, artists, and readers have cooperated to evolve one-dimensional stereotypes into multifaceted dynamic heroes.

Racial Geometries of the Black Atlantic, Asian Pacific and American Theatre Shannon Steen, 2016-04-30 An exciting new work on how black and Asian racial structures were woven together within US theatrical practices in the run up to the Second World War. Steen uses this history to model how we might use performance histories to more carefully assess how racial formation occurs on the boundaries between racial groups in an international context.

The Darker Nations Vijay Prashad, 2022-08-30 The landmark alternative history of the Cold War from the perspective of the Global South, reissued in paperback with a new introduction by the author. In this award-winning investigation into the overlooked history of the Third World with a new preface by the author for its fifteenth anniversary, internationally renowned historian Vijay Prashad conjures what Publishers Weekly calls a vital assertion of an alternative future. *The Darker Nations* praised by critics as a welcome antidote to apologists for empire, has defined for a generation of scholars, activists, and dreamers what it is to imagine a more just international order and continues to offer lessons for the radical political projects of today. With the disastrous US withdrawal from Afghanistan and the rise of India and China on the global scene, this paradigm-shifting book of groundbreaking scholarship helps us envision the future of the Global South by restoring to memory the vibrant though flawed idea of the Third World whose demise Prashad ultimately argues has produced an impoverished and asymmetrical international political arena. No other book on the Third World as a utopian idea and a global movement can speak so effectively and engagingly to our troubled times.

Global Guyana Oneka LaBennett, 2024-04-16 This book makes the bold claim that we must put the small, easily overlooked South American nation of Guyana on the map if we hope to understand the global threat of environmental catastrophe as well as the pernicious forms of erasure that structure Caribbean women's lives.

Sports Plays Eero Laine, Broderick Chow, 2021-08-19 *Sports Plays* is a volume about sports in the theatre and what it means to stage sports. The chapters in this volume examine sports plays through a range of critical and theoretical approaches that highlight central concerns and questions both for sports and for theatre. The plays cut across boundaries and genres from Broadway-style musicals to dramas to experimental and developmental work. The chapters examine and trouble the conventions of staging sports as they open possibilities for considering larger social and cultural issues and debates. This broad range of perspectives makes the volume a compelling resource for students and scholars of sport theatre and performance studies whose interests span feminism, sexuality, politics, and race.

The United States of the United Races Greg Carter, 2013-04-22 This provocative, ambitious, and important book rewrites US history, placing foundational leaders, unheralded prophets, insurgent social movements, pivotal judicial decisions, and central cultural values within an unfolding story of ongoing appeals to interracial mixing as a positive good.
