Baroque Bronzes in the Metropolitan Museum of Art Denise Allen, Linda Borsch, James David Draper, Jeffrey Fraiman, Richard E. Stone, Peter Jonathan Bell, Raymond Carlson, Federico Carò, Paola D'Agostino, Alex Foo, Claudia Kryza-Gersch, Fernando Loffredo, Tommaso Mozzati, 2022-06-15 The revival of the bronze statuette popular in classical antiquity stands out as an enduring achievement of the Italian Renaissance. These small sculptures attest to early modern artists' technical prowess, ingenuity, and desire to emulate or even surpass the ancients. From the studioli or private studies of humanist scholars in fifteenth-century Padua to the Fifth Avenue apartments of Gilded Age collectors, viewers have delighted in the mysteries of these objects: how they were made, what they depicted, who made them, and when. This catalogue is the first systematic study of The Metropolitan Museum of Art's European Sculpture and Decorative Arts collection of Italian bronzes. The collection includes statuettes of single mythological or religious figures, complex figural groups, portrait busts, reliefs, utilitarian objects like lamps and inkwells, and more. Stunning new photography of celebrated masterpieces by leading artists such as Antico Riccio and Giambologna, enigmatic bronzes that continue to perplex, quotidian objects, later casts, replicas, and even forgeries show the importance of each work in this complex field. International scholars provide in-depth discussions of 200 objects included in this volume, revealing new attributions and dating for many bronzes. An Appendix presents some 100 more, complete with provenance and references. An essay by Jeffrey Fraiman provides further insight into Italian bronze statuettes in America, with a focus on the history of The Met's collection. And Richard E. Stone, who pioneered the technical study of bronzes, contributes an indispensable text on how artists created these works and what their process conveys about the object's maker. A personal reminiscence by James David Draper, who oversaw the Italian sculpture collection for decades, rounds out this landmark catalogue that synthesizes decades of research on these beloved and complex works of art.

Portraits John Berger, 2021-12-07 A rich and lovely exploration of art history from the world-renowned art critic behind *Ways of Seeing*. A diverse cast of artists comes to life in this jargon-free study. Zadie Smith hails it as among the greatest books on art I've ever read. One of the world's most celebrated art writers takes us through centuries of drawing and painting, revealing his lifelong fascination with a diverse cast of artists. Berger grounds the artists in their historical milieu in revolutionary ways, whether enlarging on the prehistoric paintings of the Chauvet caves or Cy Twombly's linguistic and pictorial play. In penetrating and singular prose, Berger presents entirely new ways of thinking about artists, both canonized and obscure, from Rembrandt to Henry Moore, Jackson Pollock to Picasso. Throughout, Berger maintains the essential connection between politics, art, and the wider study of culture. The result is an illuminating walk through many centuries of visual culture, featuring 100 black and white images from one of the contemporary world's most incisive critical voices. A wonderful artist and thinker, Susan Sontag.

Il Marmo spirante Joris van Gastel, 2013-06-28 The sculptors of the Roman Baroque, including masters such as Gian Lorenzo Bernini, Alessandro Algardi, and Giuliano Finelli, managed to achieve an unprecedented vivaciousness in their works.
