

The background of the book cover is a dramatic, low-angle photograph of a Gothic-style building at night. The building features a dark, steeply pitched roof with ornate dormers and a central spire. The facade is adorned with intricate carvings and statues, including several gargoyle-like figures. A large, full moon is visible in the dark, cloudy sky above the building. The overall mood is mysterious and atmospheric.

Neo-Gothic Narratives Sarah E. Maier, Brenda Ayres, 2020-03-31 Neo Gothic Narratives defines and theorises what exactly qualifies as such a text what mobilises the employment of the Gothic to speak to our own times whether nostalgia plays a role and whether there is room for humour besides the sobriety and horror in these narratives across various media What attracts us to the Gothic that makes us want to resurrect reinvent echo it Why do we let the Gothic redefine us Why do we let it haunt us Does it speak to us through intertextuality self reflectivity metafiction immersion affect Are we reclaiming the history of women and other subalterns in the Gothic that had been denied in other forms of history Are we revisiting the trauma of English colonisation and seeking national identity Or are we simply tourists who enjoy cruising through the otherworld The essays in this volume investigate both the readerly experience of Neo Gothic narratives as well as their writerly pastiche Bodies Out of Bounds Jana Evans Braziel, Kathleen LeBesco, 2001-09-13 This is an exceptional collection the subject is of obvious importance yet terribly undertheorized and unexamined I know of no other work that offers what this collection provides Marcia Millman author of Such a Pretty Face Being Fat in America A valuable contribution to scholarly debates on the place of excessive bodies in contemporary culture This book promises to enrich all areas of inquiry related to the politics of bodies Carole Spitzack author of Confessing Excess Women and the Politics of Body Reduction This anthology includes a wide range of perceptive and original essays which explore and analyze the underlying ideologies that

have made fat incorrect Echoing the spirit of the nineteenth century adage about children who should be neither seen nor heard some of the authors powerfully remind us that we keep bodies out of bound silenced and unseen unless of course we need to peek at the comic or grotesque Raquel Salgado Scherr co author of *Face Value The Politics of Beauty Through textual analyses video film analyses television theory and literary theory* this collection demonstrates the various ways in which dominant representations of fat and corpulence have been both demonized and rendered invisible This volume will be a crucial corollary to work on the tyranny of slenderness a collection of different perspectives on the fat body is sorely missing in women s studies communication and media studies Sarah Banet Weiser author of *The Most Beautiful Girl in the World Beauty Pageants and National Identity* *The Poetry of Dylan Thomas* John Goodby,2013-07-31 An important reappraisal of the poetry of Dylan Thomas in terms of modern critical theory

Rethinking Gothic Transgressions of Gender and Sexuality Sarah Faber,Kerstin-Anja Münsterlein,2024-03-11 From early examples of queer representation in mainstream media to present day dissolutions of the human nature boundary the Gothic is always concerned with delineating and transgressing the norms that regulate society and speak to our collective fears and anxieties This volume examines British and American Gothic texts from four centuries and diverse media including novels films podcasts and games in case studies which outline the central relationship between the Gothic and transgression particularly gender ed and sexual transgression This relationship is both crucial and constantly shifting ever in the process of renegotiation as transgression defines the Gothic and society redefines transgression The case studies draw on a combination of well studied and under studied texts in order to arrive at a more comprehensive picture of transgression in the Gothic Pointing the way forward in Gothic Studies this original and nuanced combination of gendered Ecogothic queer and media critical approaches addresses established and new scholars of the Gothic alike

South African Gothic Rebecca Duncan,2018-06-15 The term Gothic has rarely been brought to bear on contemporary South African fictions appearing too fanciful for the often overtly political writing of apartheid and post apartheid South Africa As the first book length exploration of Gothic impulses in South

African literature this volume accounts for the Gothic currents that run through South African imaginaries from the late nineteenth century onwards South African Gothic identifies an intensification in Gothic production that begins with the nascent decline of the apartheid state and relates this to real anxieties that arise with the unfolding of social and political change In the context of a South Africa unmaking and reshaping itself Gothic emerges as a language for long suppressed histories of violence and for ongoing experiences at odds with utopian images of the new democracy Its function is interrogative and ultimately creative South African Gothic challenges narrow conceptions of the status quo to drive at alternative less exclusionary visions

The Ecogothic Werewolf in Literature Kaja Franck, 2025-08-21 Using an Ecogothic lens this book offers a new conceptual framework for the werewolf in literature recasting the lycanthrope as an emblem for society's fear of untamed wilderness Tracing lycanthropy from a place of liminality to hybridity and to myriad and complex subjectivities The Ecogothic Werewolf in Literature reassesses the Gothic werewolf to show how the relationship between humans and wolves has influenced its representation in literature Starting with Dracula and tracing lycanthropic imaginings through natural histories folk and fairy tales to contemporary iterations in the works of Maggie Stiefvater Whitley Strieber and Glen Duncan Kaja Franck reconsiders the trope of the beast within in the werewolf canon From early conservationist Aldo Leopold's awakening regarding the death of wolves to George Monbiot's call to rewild tensions around humanity's responsibility to the natural world have emerged in lycanthropic literature A challenge to previous anthropocentric analysis of Gothic horror's stock monster Franck considers the changing attitude towards wolves alongside the growing environmentalism movement and reclaims the wolf from the figure of the werewolf
