Game Magic Jeff Howard, 2014-04-22 Make More Immersive and Engaging Magic Systems in Games Game Magic A Designer's Guide to Magic Systems in Theory and Practice explains how to construct magic systems and presents a compendium of arcane lore encompassing the theory history and structure of magic systems in games and human belief The author combines rigorous scholarly analysis with *Magic for Beginners II* Harry Eilenstein, 2021 This Volume contains the books Astral Projection for Beginners Money Magic for Beginners Love Spells for Beginners Magic Research for Beginners Chakra Magic for Beginners Mandalas for Beginners Magic Chants for Beginners Tales of magic, tales in print Willem De Blecourt, 2018-04-30 Since the beginning of the nineteenth century folklorists and the general public in their wake have assumed the orality of fairy tales Only lately have more and more specialists been arguing in favour of at least an interdependence between oral and printed distribution of stories This book takes an extreme position in that debate as far as Tales of magic is concerned the initial transmission proceeded exclusively through prints From a historical perspective this is the only viable approach the opposite assumption of a vast unrecorded and thus inaccessible reservoir of oral stories presents a horror vacui Only in the course of the nineteenth century when folklorists started collecting in the field and asked their informants for fairy tales was this particular genre incorporated into a then feeble oral tradition Even then story tellers regularly reverted to printed texts Every recorded fairy tale can be shown to be dependent on previous publications or to be a new composition constructed on the basis of fragments of stories already in existence Tales of magic tales in print traces the textual history of a number of fairy tale clusters linking the findings of literary historians on the sixteenth to eighteenth centuries to the material collected by nineteenth and twentieth century field workers While it places fairy tales as a genre firmly in a European context it also follows particular stories in their dispersion over the rest of the world *Dark Revelations - The Role Playing Game - Book of Magic* C.N. Hero Cycle Journey to the Otherworld Magic Invulnerability Soothsayer Transformation Tricksters Adventures In Magic Rebecca Janzen, 2014-10-17 A mystical plague has shifted the balance between magic and nature and puts all of existence in jeopardy Anaman is not her world but Tempest Storm has been summoned to join in a quest to save it magic and the Earth itself With no time to waste and the help of unlikely allies Tempest has to quickly learn the ways of Anaman where monsters dwell and myths are real Political Magic Christopher F. Loar, 2014-06-05 Political Magic examines early modern British fictions of exploration and colonialism arguing that narratives of intercultural contact reimagine ideas of sovereignty and popular power These fictions reveal aspects of political thought in this period that official discourse typically shunted aside particularly the political status of the commoner whose liberty was often proclaimed even as it was undermined both in theory and in practice Like the Hobbesian sovereign the colonist appears to the colonized as a giver of rules who remains unruly At the heart of many texts are moments of savage wonder provoked by European displays of technological prowess In particular the trope of the first gunshot articulates an origin of consent and political legitimacy in colonial showmanship Yet as manifestations of force held in abeyance these technologies also signal the ultimate reliance of sovereigns on extreme violence as the less than mystical foundation of their authority By examining works by Cavendish Defoe Behn Swift and Haywood in conjunction with contemporary political writing and travelogues Political Magic locates a subterranean discourse of sovereignty in the century after Hobbes finding surprising affinities between the government of savages and of Britons
