Norfolk Island's Fascinating Flora Peter Coyne, 2011-12-01 Norfolk Island South Pacific has some of the world's rarest plant species. Of the 182 native plant species, 43 are endemic (that is, they occur naturally nowhere else), 47 are listed nationally under Australian law as extinct or threatened, and 30 more are already extinct, threatened or rare on the island. This book provides information with illustrations on each of the native species and some of the most important introduced plants which grow wild on the island. It also contains a chapter on the cultural use of plants from 1856. The book has previously unpublished paintings by John Doody from 1792 and paintings by famous botanical artist Ferdinand Bauer from 1804, in addition to more than 400 photographs. 192 pages, 170 x 227 mm, full colour with references and index. *Flora of Norfolk* Kirby Trimmer, 2014-02-22. This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc., that were either part of the original artifact or were introduced by the scanning process. We believe this work is culturally important and, despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book.
