Coloring Lowers Stress And Anxiety Psychiatrists have long known that coloring relaxes the fear center of the brain and allows your mind to get some rest In fact the founder of analytical psychology Carl Jung is known to have given his patients mandalas to color more than one hundred years ago In today s hectic world the stress reducing properties of coloring are possibly more valuable than ever Coloring Trains Your Brain To Focus Remaining inside the lines as you color needs focus and while you are concentrating on this stress free and relaxing activity you can forget about your worries Coloring is a mind exercise which allows you to put aside everything else for the time you spend coloring and this is very important in our increasingly demanding world Coloring Helps In The Development Of Fine Motor Skills And Vision Coloring forces the two hemispheres of the brain to work together and involves both the use of logic necessary for coloring forms and creativity as we mix and match colors In turn this brings those areas of the brain responsible for fine motor skills and vision into play and helps in keeping these active and in developing them further It is this aspect of coloring which is being seen more and more as especially valuable for older individuals as many in the medical profession believe that it can delay or even prevent the onset of dementia Coloring Provides The Chance To Be Social Although you might feel that coloring should be a solo occupation its rising popularity is quickly turning it into a social one Friends families work colleagues and others are getting together to eat drink and enjoy the chance to socialize through their shared interest in coloring books Without doubt this is a perfect excuse for getting together as coloring needs only a minimum of concentration and can easily be done in a group setting Coloring Lets You Be Yourself There are no rules when it comes to coloring and your coloring book is your coloring book If you mistakenly make the cat s back leg green because you mistook it for part of the grass who cares If you feel like making the sky yellow what does it matter You can be as creative as you wish because this is your coloring book and yours alone When it comes to picking colors remember that the British based but American born artist James Whistler once famously said Mauve is just pink trying to be purple You may already be a convert to adult coloring in which case you will already know and appreciate its value This may however be a new project for you and one which you are considering for any one of several different reasons If this is something new for you then I urge you to give it a try There is a reason why so many
