Florence In Transition:

Florence in Transition Marvin Becker, 2019-08-01 Political social and cultural historians will find *Florence in Transition* Volume One a helpful elucidation of the dynamics of historical change and the birth of a state **Florence in Transition** Marvin Becker, 2019-08-01 Originally published in 1968 In the pluralistic society of the medieval commune informal and personal ties of obligation bound men together In trecento Florence this gentle communal structure gradually evolved into the stricter more centralized organization characteristic of the modern state A growing emphasis on law and order transformed the medieval commune of the early fourteenth century into the Renaissance territorial state of the latter half of the century Professor Becker's subject is this metamorphosis Following his study of the declining communal *paideia* in Volume One the author examines in this second volume the growing vigor of public world as well as the attendant depersonalization and repression He is concerned primarily with two factors that he considers the major forces producing the Renaissance territorial state and encouraging the growth of imperial government and constitutionalism the intrusion of new citizens *novi cives* into politics after 1343 and the skyrocketing of communal debt Thus the author disputes Burckhardt's idea of the state as a work of art viewing it instead as a creation of socioeconomic mobility and deficit financing Further in examining art and literature as symptoms of developing public culture and reactions to it Professor Becker interprets them as indications of increased public involvement of the Florentine citizens thus providing a sharp refutation of Burckhardt's egoistic violent Renaissance man The author concludes his study with a detailed description of the territorial state itself pointing out the new relationship between citizen and polis which emerged in the early fifteenth century These two volumes provide a compelling and challenging interpretation of a crucial period in Western history *Florence in Transition...* Marvin B.. Becker, 1967 *Florence in Transition* Marvin B. Becker, 1967 *Florence in Transition* Marvin B. Becker, 1967 *Florence in Transition V.1-2* Marvin B. Banker, Carol Lansing, 2002 A collection of essays on Florentine history by a seasoned and innovative Renaissance scholar **Florence in Transition**, 1967 **Florence in Transition** E. A. Bayne, 1955 **Renaissance Humanism, Volume 1** Albert Rabil, Jr., 2016-11-11 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press's distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas **The City-State in Europe, 1000-1600** Tom Scott, 2012-02-09 In this the first comprehensive study of city states in medieval Europe Tom Scott analyzes reasons for cities' acquisitions of territory and how they were governed He argues that city states did not wither after 1500 but survived by transformation and adaption *THE*

GENERATION OF BRIDGING ANAPHORA IN STREAM-OF-CONSCIOUSNESS DISCOURSE WEI ZHAO,2021-10-22 This study mainly focuses on the revision and extension of two Rules of Standard Centering Theory Pronoun Rule and Transition Rule to develop the constraints on the generation algorithm of bridging anaphora BA in stream of consciousness SOC discourse from a revised Centering perspective by incorporating the revised neo Gricean pragmatic M principle into the standard Centering The Centering Theory combined with the revised neo Gricean pragmatic M principle is supposed to impose some grammatical and pragmatic constraints on backward looking center realization and movement It provides theoretical rationale for an account of constraints on full noun phrase and elliptical zero pronoun bridging anaphora generation in terms of the interaction and the division of labor between syntax and pragmatics As to both one cannot alone handle bridging anaphora without the other Even though syntax and pragmatics operate at distinct levels of linguistic explanation they appear to interact systematically in the case of bridging anaphora generation On the one hand syntax sets certain restrictions on salience and distributions of bridging anaphora and regulates the part of interpretation which is related to grammatical structure On the other hand the choice of bridging anaphoric expressions by writers and their interpretation by readers heavily depends on preference which is regulated by the M principle of language use and communication Hence the bridging anaphora generation algorithm based on the incorporation of the revised neo Gricean pragmatic M principle of communication into Centering provides a neat and reasonable explanation for bridging full noun phrase and elliptical zero pronoun generation **Federal Register** ,1980-01-02 *U.S. Terminal Procedures* ,2014

Compilation of Regulations United States. Federal Aviation Administration,1982 **Perspectives for marine energy in the mediterranean area volume II** Simone Bastianoni,Riccardo Maria Pulselli,Markos Damasiotis,Maria Vittoria Struglia,Hrvoje Mikulcic,2023-02-08 [The Decline of Infant and Child Mortality](#) Carlo A. Corsini,Pier Paolo Viazzo,2023-12-11 Of the many changes that have taken place in Western society during the past two centuries few have been more significant than the steep fall in infant and child mortality However the timing and causes of the decline are still poorly understood While some scholars attribute it to general improvements in living standards others emphasize the role of social intervention and public health reforms Written by specialists from several disciplinary fields the twelve essays in this book break entirely new ground by providing a long term perspective that challenges some deep rooted ideas about the European experience of mortality decline and may help explain the forces and causal relationships behind the still tragic incidence of preventable infant and child deaths in many parts of the world today This book will become a standard work for students and researchers in demography social and economic history population geography and the history of medicine and it will be of interest to anyone concerned with current debates on the policies to be adopted to curb infant and child mortality in both developed and developing countries
