When Machines Play Chopin Katherine Maree Hirt,2010 The series publishes monographs and edited volumes that showcase significant scholarly work at the various intersections that currently motivate interdisciplinary inquiry in German cultural studies Topics span all periods of German and German speaking lands and cultures from the local to the global with a special focus on demonstrating how various disciplines history musicology art history anthropology religious studies media studies political theory literary and cultural studies among others and new theoretical and methodological paradigms work

across disciplinary boundaries to create knowledge and add to critical understanding in German studies broadly All works are in English Three to four new titles will be published annually *Florentine Nights ... Translated and Illustrated by Frederick Carter* Heinrich Heine, Frederick CARTER, 1933 **Romanticism and Film** Will Kitchen, 2020-11-26 The relationship between Romanticism and film remains one of the most neglected topics in film theory and history with analysis often focusing on the proto cinematic significance of Richard Wagner's music dramas One new and interesting way of examining this relationship is by looking beyond Wagner and developing a concept of audio visual explanation rooted in Romantic philosophical aesthetics and employing it in the analysis of film discourse and representation Using this concept of audio visual explanation the cultural image of the Hungarian pianist and composer Franz Liszt a contemporary of Wagner and another significant practitioner of Romantic audio visual aesthetics is examined in reference to specific case studies including the rarely explored films *Song Without End* 1960 and *Lisztomania* 1975 This multifaceted study of film discourse and representation employs Liszt as a guiding thread structuring a general exploration of the concept of Romanticism and its relationship with film more generally This exploration is supported by new theories of representation based on schematic cognition the philosophy of explanation and the recently developed film theory of Jacques Rancière Individual chapters address the historical background of audio visual explanation in Romantic philosophical aesthetics Liszt's role in the historical discourses of film and film music and various filmic representations of Liszt and his compositions Throughout these investigations Will Kitchen explores the various ways that films explain or make sense of things through a Romantic aesthetic combination of sound and vision **Heinrich Heine and the World Literary Map** Azade Seyhan, 2019-01-14 This text provides a key reassessment of the German author Heinrich Heine's literary status arguing for his inclusion in the Canon of World Literature It examines a cross section of Heine's work in light of this debate highlighting the elusive and ironic tenor of his many faceted prose works from his philosophical and political satire to his reassessment of Romantic idealism in Germany and the unique self reflexivity of his work It notably focuses on the impact of exile belonging exclusion and censorship in Heine's work and analyzes his legacy in a world literary context comparing his poetry and prose with those of major modern writers such as Pablo Neruda Nazım Hikmet or Walter Benjamin who have all been persecuted and exiled yet used their art as resistance against oppression and silencing At a time when a premium is placed on the value of world literatures and transnational writing Heine emerges once again as a writer ahead of his time and of timeless appeal **The Life, Work, and Opinions of Heinrich Heine** William Stigand, 1875 [Inciting Laughter](#) Jefferson S. Chase, 2013-02-06 No detailed description available for [Inciting Laughter](#) [A Bibliography of German Literature in English Translation](#) Bayard Quincy Morgan, 1922 **Musical Meaning** Lawrence Kramer, 2021-06-22 Ranging widely over classical music jazz popular music and film and television music *Musical Meaning* uncovers the historical importance of asking about meaning in the lived experience of musical works styles and performances Lawrence Kramer has been a pivotal figure in the

development of new resources for understanding music In this accessible and eloquently written book he argues boldly that humanistic not just technical meaning is a basic force in music history and an indispensable factor in how where and when music is heard He demonstrates that thinking about music can become a vital means of thinking about general questions of meaning subjectivity and value First published in 2001 *Musical Meaning* anticipates many of the musicological topics of today including race performance embodiment and media In addition Kramer explores music itself as a source of understanding via his composition *Revenants* for piano revised for this edition and available on the UC Press website [Wit, Wisdom, and Pathos](#) Heinrich Heine, 1888 [The Marxism of Manuel Sacristán](#) Manuel Sacristán, 2014-07-31 *The Marxism of Manuel Sacristán* From Communism to the New Social Movements offers a substantial selection of some of the most significant writings on Marx Marxism and radical social theory by Manuel Sacristán Spain's most important Marxist philosopher Whether discussing Marx's intellectual development and philosophical views exploring central issues in Marxist theory or analysing the challenge to contemporary Marxism from feminism pacifism and environmentalism Sacristán emerges in these pages as both a major Marx scholar and a formidable social theorist in his own right *The Marxism of Manuel Sacristán* makes available in English for the first time many of the key texts by a brilliant yet neglected Marxist thinker
