Bilinguale Ausgabe Deutsch Englisch Ideal für ein internationales Publikum und Fachkreise     **Viewing Velocities** Marcus  
Verhagen, 2023-06-13 How have artists responded to our market driven tech enabled culture of speed Viewing Velocities  
explores a contemporary art scene caught in the gears of 24/7 capitalism It looks at artists who embrace the high octane  
experience economy and others who are closer to the slow movement Some of the most compelling artworks addressing the  
cadences of contemporary work and leisure play on distinct even contradictory conceptions of time From Danh Vo's relics to  
Moyra Davey's photographs of dust covered belongings from Roman Ondak's queuing performers and Susan Hiller's outdoor  
sleepers to Maria Eichhorn's art strike and Ruth Ewan's giant reconstruction of the French revolutionary calendar artists  
have drawn out aspects of the present temporal order that are familiar to the point of near invisibility while outlining other  
more liberating ways of conceiving organising and experiencing time Marcus Verhagen builds on the work of theorists  
Jonathan Crary Hartmut Rosa and Jacques Rancière to trace lines of insurgent art that recast struggles over time and history  
in novel and revealing terms

**Made in Germany** Martin Engler, Kestner-Gesellschaft, Kunstverein Hannover, 2007 Made  
in Germany offers a comprehensive survey of contemporary art in Germany At its core are fifty two young artists living and  
working in Germany about half of whom are from abroad and all of whom are among the promising newcomers of the  
international art scene In looking at questions of artistic identity Made in Germany no longer simply considers the birthplace  
and biography of the artists but also the context of where the work itself is produced This is the first time that modern  
German art has been clearly examined to this great an extent as a weave of national particularities and cultural exchange  
This volume provides concise insights into the complete oeuvres of all the artists as well as an informative comparison of the  
individual artists and each of their different regional and biographical contexts

**Monumental Names** Galina Oustanova-Stjepanovic, 2022-12-30

What stands behind the propensity to remember victims of mass atrocities by their personal names Grounded in ethnographic and archival research with Last Address and Memorial one of the oldest independent archives of Soviet political repressions in Moscow and a winner of the Nobel Peace Prize the book examines a version of archival activism that is centred on various practices of documentation and commemoration of many dead victims of historical violence in Russia to understand what kind of historicity is produced when a single name is added to an endless list What do acts of accumulation of names of the dead affirm when they are concretised in monuments and performance events The key premise is that multimodal inscriptions of names of the dead entail a political aesthetic and conceptual movement between singularity and multitude that honours each dead name yet conveys the scale of a mass atrocity without reducing it to a number Drawing on

anthropology history philosophy and aesthetic theory the book yields a new perspective on the politics of archival and historical justice while it critically engages with the debates on relations and distinctions between names and numbers of the dead monumental art and its political effects law and history image and text the specific one and the infinite many
