Mizner's Florida Donald Walter Curl,1987 This is the first complete biography of the inimitable society architect Addison Mizner whose Spanish Revival buildings created a new style of resort architecture for Palm Beach and south Florida during the boom years of the 1920s By 1925 Mizner ranked as one of the country s most prominent architects as important in his own time as Richard Morris Hunt and Stanford White had been in theirs The book s 150 illustrations include plans and historical photographs many published for the first time showing Mizner s handling of space the relation of his houses to the landscape and the many picturesque buildings that combined the comfort and convenience expected by his clients Donald W Curl is Professor of History at Florida Atlantic University The Architectural History Foundation American Monograph Series

Finding Addison Mizner Suzanne B. Kane,2014 Through historic archival research this study focuses on the works of Florida architect Addison Mizner 1872 1933 credited with bringing Spanish Mediterranean Revival architecture to Palm Beach Florida in the early 20th century This thesis is the first to study the works of Mizner through the perspective of his personal scrapbooks In a state of advanced deterioration Mizner s scrapbooks are currently housed in Society of the Four Arts King Library in Palm Beach Florida While a rare and treasured source of their own accord the importance of the scrapbooks is elevated by the fact that many of Mizner s buildings have been demolished severely altered or are inaccessible to the public As a result it is difficult to experience Mizner s works first hand through his remaining buildings The absence of an in depth study on Mizner s personal scrapbooks leaves a gap in Mizner scholarship This research reveals how the Mizner scrapbooks present his mode of thought and design intent and how they serve as a pictorial narration of the workings of an architect in a very primitive Florida with few resources beyond his own innovations In addition this study will show how the

scrapbooks refute long standing views of Mizner's lack of architectural acumen a product of Modernism's mid century coup
Considering the fragile nature of the scrapbooks it is hopeful that this thesis will not only spark a renewed interest in all things Mizner but will advance an awareness and urgency for continued preservation of this treasured primary source and his remaining buildings
