**The Changing Nature of Instructional Leadership in the 21st Century** Alan R. Shoho, Bruce G. Barnett, Autumn K. Tooms, 2012-12-01 This third book in the Information Age book series *International Research on School Leadership* focuses on the changing nature of instructional leadership in the 21st century Our goal is to examine

instructional leadership from multiple educational and international perspectives Unlike many leadership books that focus on conceptualizations and personal narratives the seven chapters provide empirical evidence of how instructional leadership is evolving in the 21st century From the effective schools research of the 1980s to today's relentless calls for improved student performance attention has focused on the instructional leadership roles and responsibilities of school principals headteachers and educational system leaders The emphasis on student performance has gone global as evidenced by highly publicized international studies such as the Trends in International Math and Science Studies TIMSS and the Program for International Student Assessment PISA comparing student achievement in different countries These developments have had substantial effects on school leaders especially building level principals and headteachers Rather than being the only ones overseeing school improvement aimed at increasing student learning many school administrators are distributing leadership responsibilities to other administrators and teachers on their campuses To fully understand instructional leadership in the 21st century the book examines three important dimensions of instructional leadership 1 the current context for turning around low performing schools increasing teacher effectiveness and providing equitable outcomes for all students 2 international perspectives of instructional leadership development particularly the value of teacher coaching and leadership development for aspiring and practicing school leaders in a developing country and 3 the obstacles instructional leaders confront as they deal with fiscal constraints political pressure diverse student populations and high stakes standards based reforms
