Luigi Morelli, 2015-11-25 At the heart of this book is Rudolf Steiner's culmination in the twentieth century or the convergence of the working of Aristotelians and Platonists for the renewal of culture And questions arise Where is the whole of the School of Michael at present How can we characterize and honor one and the other stream and avoid stereotypes and misunderstandings This work approaches the matter in its historical unfolding in three successive steps in which Steiner, Aristotle, and Plato's incarnations form a thread The first tableau opens up in the previous Age of Michael in Greece when Plato and Aristotle inaugurated the work of the two Michaelic streams The second addresses the Middle Ages and centers around the contrast between Alain de Lille and Thomas Aquinas between the School of Chartres and Scholasticism Steiner's and Schröter's life tasks in the nineteenth century form the prelude to the present The heart of the book and its longest section looks at the present It contrasts the working of Aristotelians and Platonists in the natural sciences in psychology and in the social sciences From the ground of extensive observation and characterization it then turns to pressing questions What can Platonists learn from Aristotelians And how about the reverse Starting from the example of individuals meeting across the streams how can we extend this understanding so that it becomes an ongoing practice and a cultural concern How can Michaelic individuals and institutions work in ways that honor the whole of the Michaelic movement *In Our Element* Lindsay Fauntleroy, 2025-08-05 Immerse Yourself in the Wisdom and Healing Power of the Elements All five elements live within you and experiences like heartache, anxiety, and procrastination are signs that one of them is out of balance This beginner-friendly book introduces you to each of the elements: Water, Wood, Fire, Earth, and Metal, and shows you how to use them to improve your mental, emotional, and spiritual health *In Our Element* weaves together Eastern medicine, Western psychology, Indigenous traditions, and African ancestral principles of spirituality With a practical approach that incorporates journal prompts, flower essences, yoga poses, and music Lindsay Fauntleroy teaches you how to tap into the five elements for a balanced and empowered life that aligns with your soul's calling *Address Delivered Before the Delaware Horticultural Society, at Wilmington, on the 24th of September, 1851* Gouverneur Emerson, 1851 *Assembling Flowers and Cultivating Homes* Greta Friedemann-Sánchez, 2006-03-30 Colombia is a major exporter of fresh-cut flowers As in other global assembly-line industries, women constitute a majority of Colombia's floriculture workforce This ethnographic study explores the links between agro-industrial employment in the context of economic adjustment programs and the individual experience of employment and economic change at the household level Author Greta Friedemann-Sánchez's challenges the current academic consensus that transnational assembly-line industries reinforce patriarchal ideologies of reproduction and the exploitation of women What from a global perspective may be perceived as exploitation can be seen from the local perspective as an opportunity within the community Specifically, the study focuses on how the interrelated factors of formal employment, wage income, property ownership, social capital, and self-esteem articulate with women's resistance to male-dominated households and domestic violence Expertly combining qualitative and quantitative methodologies, *Assembling*
