The Language of Flowers Beverly Seaton,2012-10-10

The author traces the phenomenon of ascribing sentimental meaning to floral imagery from its beginnings in Napoleonic France through its later transformations in England and America At the heart of the book is a depiction of what the three most important flower books from each of the countries divulge about the period and the respective cultures Seaton shows that the language of flowers was not a single and universally understood correlation of flowers to meanings that men and women used to communicate in matters of love and romance The language differs from book to book country to country To place the language of flowers in social and literary perspective the author examines the nineteenth century uses of flowers in everyday life and in ceremonies and rituals and provides a brief history of floral symbolism She also discusses the sentimental flower book a genre especially intended for female readers Two especially valuable features of the book are its table of correlations of flowers and their meanings from different sourcebooks and its complete bibliography of language of flower titles This book will appeal not only to scholars in Victorian studies and women s studies but also to art historians book collectors museum curators historians of horticulture and anyone interested in nineteenth century popular culture

The Subtropical Garden; or, beauty of form in the flower garden W.

Robinson,2019-12-18 W Robinson s *The Subtropical Garden or Beauty of Form in the Flower Garden* is a seminal work that

masterfully explores the aesthetic potential of subtropical plants within garden design Richly illustrated and infused with practical advice the book emphasizes the harmonious interplay of shape color and texture showcasing the author s keen awareness of botanical forms Robinson s prose reflects a poetic sensibility that intertwines personal observation with horticultural expertise making it both a guide for gardeners and a celebration of natural beauty Contextually the work

emerges during a period when Victorian horticulture was beginning to embrace exotic species marking a transition from traditional European gardens to more diverse landscapes W Robinson a pivotal figure in the horticultural world of the late 19th century was deeply influenced by his Irish upbringing amidst lush greenery and varied flora His broad travels and experiences in landscape design inspired his advocacy for subtropical plants which he believed could bring both vibrancy and form to gardens This book not only encapsulates his rich understanding of botany but also communicates his passion for creating gardens that exude warmth and vitality This book is highly recommended for both amateur and seasoned gardeners

designers and landscape architects Its innovative approach to garden aesthetics offers insight into creating inviting dynamic environments that reflect the beauty of nature Robinson s work serves as an enduring resource inviting readers to reimagine their gardens as living portraits of subtropical splendor *Flower Grouping in English, Scotch & Irish Gardens* Margaret H.
