Museum of Art (New York, N.Y.),1999 Early European art was a consuming interest of both Robert Lehman and his father Philip Lehman an interest reflected in the remarkable number and quality of drawings they owned from the fifteenth and early sixteenth centuries In addition to an important group of early German drawings the collection includes a Saint Paul from a series associated with Jan van Eyck and the famous Scupstoel from the circle of Rogier van der Weyden the only design for a decorative sculpture to survive from the fifteenth century The great artists of the seventeenth century Peter Paul Rubens Jacob Jordaens Claude Lorrain and Rembrandt among them are also represented Rembrandt by seven drawings including the large study of Leonardo's Last Supper that would stay in his mind all through his career Drawings by Antoine Watteau Jean Honor Fragonard Gabriel de Saint Aubin Thomas Gainsborough Paul Sandby and George Romney are among the many from eighteenth century France and England The volume discusses all 153 drawings at length placing each in its art historical setting and complementing the discussion with comparative illustrations of related works This e book on the MetPublications website is also accompanied by links to related works and under the Additional resourcestab are links to Met works of art and Heilbrunn Timeline of Art History essays and timelines viewed May 1 2014 *Drawings from the Age of Bruegel, Rubens, and Rembrandt* William W.
