Flesh And Stone The Body And The City In Western Civilization:

Flesh and Stone: The Body and the City in Western Civilization Richard Sennett, 1996-03-17 This vivid history of the city in Western civilization tells the story of urban life through bodily experience. *Flesh and Stone* is the story of the deepest parts of life: how women and men moved in public and private spaces, what they saw and heard, the smells that assailed them, where they ate, how they dressed, the mores of bathing and of making love, all in the architecture of stone and space from ancient Athens to modern New York. Early in *Flesh and Stone*, Richard Sennett probes the ways in which the ancient Athenians experienced nakedness and the relation of nakedness to the shape of the ancient city, its troubled politics and the inequalities between men and women. The story then moves to Rome in the time of the Emperor Hadrian, exploring Roman beliefs in the geometrical perfection of the body. The second part of the book examines how Christian beliefs about the body related to the Christian city, the Venetian ghetto, cloisters and markets in Paris. The final part of *Flesh and Stone* deals with what happened to urban space as modern scientific understanding of the body cut free from pagan and Christian beliefs. *Flesh and Stone* makes sense of our constantly evolving urban living spaces, helping us to build a common home for the increased diversity of bodies that make up the modern city.

Flesh and Stone: The Body and the City in Western Civilization Richard Sennett, 1996-03-17 This completely unique history tells the story of urban life over 2 500 years through the bodily experience of men and women: what sights, smells and noises they took in, how they dressed, how they made love, when they bathed and more, in great cities from ancient Athens to modern New York.

Terrains of Consciousness Zeno Ackermann, Isabel Karremann, Simi Malhotra, Nishat Zaidi, 2021-10-01 *TERRAINS OF CONSCIOUSNESS* emerges from an Indian German Swiss research collaboration. The book makes a case for a phenomenology of globalization that pays attention to locally situated socioeconomic terrains, everyday practices and cultures of knowledge. This is exemplified in relation to three topics: the tension between terrain and territory in Defoe's *Robinson Crusoe* as a pioneering work of the globalist mentality; chapter 1: the relationship between established conceptions of feminism and the concrete struggles of women in India since the 19th century; chapter 2: the exploration of urban space and urban life in writings on India's capital from Ahmed Ali to Arundhati Roy; chapter 3: *The Palgrave Handbook of Literature and the City* Jeremy Tambling, 2017-02-17 This book is about the impact of literature upon cities world wide and cities upon literature. It examines why the city matters so much to contemporary critical theory and why it has inspired so many forms of writing which have attempted to deal with its challenges: to think about it and to represent it. Gathering together 40 contributors who look at different modes of writing and film making in throughout the world, this handbook asks how the modern city has engendered so much theoretical consideration and looks at cities and their literature from China to Peru, from New York to Paris, from London to Kinshasa. It looks at some of the ways in which modern cities, whether capitals, shanty towns, industrial or rust belt, have forced themselves on people's ways of thinking and writing.
