Relevance Theory, Figuration, and Continuity in Pragmatics Agnieszka Piskorska, 2020-05-20 The chapters in this volume apply the methodology of relevance theory to develop accounts of various pragmatic phenomena which can be associated with the broadly conceived notion of style Some of them are devoted to central cases of figurative language metaphor metonymy puns irony while others deal with issues not readily associated with figurativeness from multimodal communicative stimuli through strong and weak implicatures to discourse functions of connectives particles and participles Other chapters shed light on the use of specific communicative styles ranging from hate speech to humour and humorous irony Using the relevance theoretic toolkit to analyse a spectrum of style related issues this volume makes a case for the model of pragmatics founded upon inference and continuity understood as the non existence of sharply delineated boundaries between classes of communicative phenomena

Revolutionary Struggles and Girls' Education Thera Mjaaland, 2021-07-27 Revolutionary Struggles and Girls Education At the Frontiers of Gender Norms in North Ethiopia argues that at the base of girls poorer performance than boys at secondary school level when puberty has set in is the symbolic violence entailed in sanctioned femaleness Informed by the modesty of Virgin Mary in Orthodox Christian veneration it instructs girls to internalize a holding back which impinges on her self efficacy and ability to be an active learner Neoliberally informed educational policies and plans which have co opted liberal feminism also in Ethiopia do not address hard lived gender norms and the power and domination dynamics entailed when parity between boys and girls in school continues to be the dominant measure for equity Despite women's courageous contribution at a literal frontier during the Tigrayan liberation struggle 1975-91 where they fought on equal terms with men and despite the tendency that girls outnumber boys at secondary level in the present context sanctioned femaleness constitutes a frontier for

girls educational success and transition to higher education In fact when teaching learning continues to be based on memorization rather than critical thinking the very transformative potential of education is undermined also in a gendered sense
