But the political marriage she faces won't let her stop the looming threat she has discovered. Countless cities, towns, and estates ride the winds of The Drift, a hospitable layer in the Venusian atmosphere, but they will eventually fall to ruin. As the tin behemoths that lift precious minerals from the depths grow scarce, conflicts drive the Commonwealth ever faster toward collapse. Willamette is determined to avoid that tragic fate. She manipulates her parents into arranging a marriage that just might let her take action, but then a bloody coup by Colonel Kofi upends everything. In order to consolidate power, Kofi must eliminate the only person alive who can claim the right to rule the Commonwealth. If Willamette has any chance of saving millions of people in The Drift, she must rally a menagerie of misfits to accomplish the unthinkable. Toxic Substances

German mining of the British East Coast the Northern Patrol the sinking of Rawalpindi small ship operations in the North Sea and German Bight the Altmark incident are all covered Further afield the author deals with the German surface raiders and looks at the early stages of the submarine war in the Atlantic As with his previous books Geirr Haarr has researched extensively in German British and other archives and the work is intended to paint a balanced and detailed picture of this significant period of the war when the opposing naval forces were adapting to a form of naval warfare quite different to that experienced in WWI
