Flodden Field, Its Causes and Consequences: a Study of Anglo-Scottish Relations, 1509-1513 Toby Fondren Coleman,1968 **England and Scotland at War, C.1296-c.1513** Andy King,David Simpkin,2012-06-22 In England and Scotland at War c 1296 c 1513 Andy King and David Simpkin bring together new perspectives on the Anglo Scottish conflict from Dunbar to Flodden The essays focus on the military history of the wars from both sides of the border **The Sinclairs of Scotland** Robert Sinclair,2013-06-12 This book provides us with an accurate historical view of the Sinclair family alongside Scottish history It explores the journey of the Sinclairs from their Normandy routes to Scotland Sinclair is one of the oldest surnames in Europe and its ancestry goes back to William the Conqueror The book identifies the origin and formation of the Sinclair Clan shows the crest and tartans and their Earldoms and Castles From these it guides us to places of interest today The Sinclairs were well respected and throughout the centuries won or were awarded property and lands They were greatly involved in the battles of the Wars of Independence and are first mentioned in the invasion of England with William the Conqueror This book goes on to describe in detail all the battles looking at the first Battle of Dunbar in 1296 effectively ending in an English victory to the first battle for Independence the Battle of Roslin It goes on encountering the Sinclairs in the likes of the Battles of Bannochburn and Culloden to the ill fated Invasion of England in 1648 with King Charles II It then takes us on ending the journey at the Union of Parliaments of Scotland and England in 1707 *Problems and exercises in British history* J. S. Lindsey (History teacher),1906 *Britons and their Battlefields* Ian Atherton,2024-08-19 While much attention has been paid to the commemoration of conflict in the twentieth century this book is the first to consider conflict memory in the long term arguing that modern practices were not created out of the mud of the trenches but evolved from much longer practices From the fourteenth century to the present day this work analyses the changing commemoration and memories of British battlefields at home and overseas from Bannockburn 1314 to Bosworth 1485 to Basra 2003 9 Across these seven centuries there has been a series of recurring post battle rituals that have shaped and continue to shape memories of conflict Three distinct but overlapping periods of memory can be delineated In the later Middle Ages battlefields were consecrated by the burial of the fallen and often by the erection of a battlefield cross or chapel or chantry to pray for the dead The second phase began with the Protestant Reformation in the 1530s when pilgrimage and prayers for the dead were abolished and battlefield chantries were dissolved and many battlefield crosses were demolished Memories shifted from the dead to the living especially the bodies of surviving veterans who commemorated the conflict by their wounds and from soil and stone to print and ink The third phase began in the eighteenth century when antiquaries and

others established new monuments on past battlefields Monuments to survivors and the dead were established on contemporary battlefields such as Waterloo once again hailed as sacred ground hallowed by bloodshed fit destinations for a pilgrimage Not just officers but ordinary soldiers began to be memorialized by name on the battlefield culminating in the cult of the names of the dead enshrined by the creation of the War Graves Commission in 1917 and the idea that battlefields should be preserved unchanged as seen in modern heritage management Drawing on a wide variety of literary and historical sources and taking a uniquely longue dur e approach the book explores and links memory making practices from across the period to reconsider the ways in which battlefields are commemorated and re commemorated In so doing it makes a unique contribution to a wide range of historiographical fields British history since the fourteenth century memory studies heritage studies landscape history conflict archaeology and military history

The Battle of Pinkie, 1547 David Caldwell, Vicky Oleksy, Bess Rhodes, 2023-07-27 The Battle of Pinkie fought between the English and the Scots in 1547 was the last great clash between the two as independent nations. It is a well documented battle with several eyewitness accounts and contemporary illustrations. There is also archaeological evidence of military activities. The maneuvers of the two armies can be placed in the landscape near Edinburgh despite considerable developments since the sixteenth century. Nevertheless the battle and its significance has not been well understood. From a military point of view there is much of interest. The commanders were experienced and had already had battlefield successes. There was an awareness on both sides of contemporary best practice and use of up to date weapons and equipment. The Scots and the English armies however were markedly different in their composition and in the strategy and tactics they employed. There is the added ingredient that the fire from English ships positioned just off the coast helped decide the course of events. Using contemporary records and archaeological evidence David Caldwell, Victoria Oleksy and Bess Rhodes reconsider the events of September 1547. They explore the location of the fighting, the varied forces involved, the aims of the commanders and the close run nature of the battle. Pinkie resulted in a resounding victory for the English but that was by no means an inevitable outcome. After Pinkie it briefly seemed as if the future of Britain had been redefined. The reality proved rather different and the battle has largely slipped from popular consciousness. This book provides a reminder of the uncertainty and high stakes both Scots and English faced in the autumn of 1547.

Uniting the Kingdom? Alexander Grant, Keith Stringer, 2002-11 A group of Britain's most prestigious historians assemble to explore the formation of the UK, its history and its identity. Traditional regional and chronological frontiers are broken down as medievalists, modernists and early modernists debate.
