Congress. House. Committee on Flood Control,1935 *Curbing Catastrophe* Timothy H. Dixon,2017-01-26 What does Japan s 2011 nuclear accident have in common with the 2005 flooding of New Orleans from

Hurricane Katrina This thought provoking book presents a compelling account of recent and historical disasters both natural and human caused drawing out common themes and providing a holistic understanding of hazards disasters and mitigation for anyone interested in this important and topical subject Based on his on the ground experience with several major recent disasters Timothy H Dixon explores the science politics and economics behind a variety of disasters and environmental issues arguing that many of the worst effects are avoidable He describes examples of planning and safety failures provides forecasts of future disasters and proposes solutions for hazard mitigation The book shows how billions of dollars and countless lives could be saved by adopting longer term thinking for infrastructure planning and building and argues that better communication is vital in reducing global risks and preventing future catastrophes Bulletin ,1924 *Flood Control on the Mississippi River* United States. Congress. House. Committee on Flood Control,1930

Public Religion and the Urban Environment Richard Bohannon,2012-04-26 Nature and the city have most often functioned as opposites within Western culture a dichotomy that has been reinforced and sometimes challenged by religious images Bohannon argues here that cities and natural environments however are both connected and continually affected by one another He shows how such connections become overt during natural disasters which disrupt the narratives people use to make sense of the world including especially religious narratives and make them more visible This book offers both a theoretical exploration of the intersection of the city nature and religion as well as a sociological analysis of the 1997 flood in Grand Forks ND USA This case study shows how religious factors have influenced how the relationship between nature and the city is perceived and in particular have helped to justify the urban control of nature The narratives found in Grand Forks also reveal a broader understanding of the nature of Western cities highlighting the potent and ethically rich intersections between religion cities and nature *Strip Mining and the Flooding in Appalachia* United States. Congress. House. Committee on Government Operations. Environment, Energy, and Natural Resources Subcommittee,1977
