Universality and Translation Gavin Arnall, Katie Chenoweth, 2025-01-07 Within contemporary theory the concepts of translation and universality have frequently been associated with different and even opposed philosophical and political projects watchwords of either domination or liberation the erasure of difference or the defense of difference The universalizing drives of capitalism colonialism and other systems of oppression have precipitated widespread suspicion of any appeal to universality This has led some in turn to champion the very notion of universality as antithetical to these systems of oppression Similarly recent scholarship has begun to grapple with the fundamental role of translation not only in forging inclusive democratic politics but also by contrast in violence including imperial expansion and global war The present volume advocates neither for nor against translation or universality as such Instead it attends to their insurmountable ambiguity and equivocity the tensions and contradictions that are internal to both concepts and that exist between them Indeed the wager of this volume is that translation universality and their relationship name irreducible yet overlapping sites of struggle for a diverse array of struggles on the Left Drawing from multiple intellectual traditions and orientations with a special emphasis on deconstruction and Marxism this volume both reveals and participates in a subterranean current of thought committed to theorizing the dynamic plural and ultimately inextricable relationship between translation and universality Its contributors approach this problem in ways that challenge and unsettle dominant trends within translation studies and critical and postcolonial theory thereby opening new lines of inquiry within and beyond these fields Contributors Ben Conisbee Baer Barbara Cassin Souleymane Bachir Diagne Cate Reilly Peter Thomas Gavin Walker Naomi Waltham Smith Gary Wilder

A Room of His Own Barbara Black, 2012-04-27 In nineteenth century London a clubbable man was a fortunate man indeed The Reform the Athenaeum the Travellers the Carlton the United Service are just a few of the gentlemen s clubs that formed the exclusive preserve known as clubland in Victorian London the City of Clubs that arose during the Golden Age of Clubs

Why were these associations for men only such a powerful emergent institution in nineteenth century London Distinctly British how did these single sex clubs help fashion men foster a culture of manliness and assist in the project of nation building What can elite male affiliative culture tell us about nineteenth century Britishness A Room of His Own sheds light on the mysterious ways of male associational culture as it examines such topics as fraternity sophistication nostalgia social capital celebrity gossip and male professionalism The story of clubland and the literature it generated begins with Britain's military heroes home from the Napoleonic campaign and quickly turns to Dickens's and Thackeray's acrimonious Garrick Club Affair It takes us to Richard Burton's curious Cannibal Club and Winston Churchill's The Other Club it goes underground to consider Uranian desire and Oscar Wilde's clubbing and resurfaces to examine the problematics of belonging in Trollope's novels The trespass of French socialist Flora Tristan who cross dressed her way into the clubs of Pall Mall provides a brief interlude London's clubland this all important room of his own comes to life as Barbara Black explores the literary representations of clubland and the important social and cultural work that this urban site enacts Our present day culture of connectivity owes much to nineteenth century sociability and Victorian networks clubland reveals to us our own enduring desire to belong to construct imagined communities and to affiliate with like minded comrades

Forty Miles from the Sea Rachel A. Moore, 2022-12-06 While the literature on Atlantic history is vast and flourishing few studies have examined the importance of inland settlements to the survival of Atlantic ports This book explores the symbiotic yet conflicted relationships that bound the Mexican cities of Xalapa and Veracruz to the larger Atlantic world and considers the impact these affiliations had on communication and ultimately the formation of national identity Over the course of the nineteenth century despite its inland location Xalapa became an important Atlantic community as it came to represent both a haven and a place of fortification for residents of Veracruz Yellow fever foreign invasion and domestic discord drove thousands of residents of Veracruz as well as foreign travelers to seek refuge in Xalapa At the same time these adverse circumstances prompted the Mexican government to use Xalapa as a bulwark against threats originating in the Atlantic The influence of the Atlantic world thus stretched far into central Mexico thanks to both the instability of the coastal region and the desire of government officials to protect central Mexico from volatile Atlantic imports The boundaries established at Xalapa however encouraged goods information and people to collect in the city and thereby immerse the population in the developments of the Atlantic sphere Thus in seeking to protect the center of the country government authorities more firmly situated Xalapa in the Atlantic world This connection would be trumped by national affiliation only when native residents of Xalapa became more comfortable with their participation in the Mexican public sphere later in the nineteenth century The

interdisciplinary and comparative nature of this study will make it appeal to those studying Atlantic history including historians of Britain the United States Latin America and Africa as well as those studying communication print culture and postal history more broadly
