*Impressions of Arabia* Thierry mauger,2020-10-11 With its awe inspiring landmarks its dense woodlands and the  
 delightful coolness of its mountain tops the region of Asir stands in sharp contrast to the usual patterns of Saudi Arabian  
 landscape This could have been the site of the Garden of Eden wrote St John Philby in the 1930s and as this extraordinary  
 book of photographs demonstrates the claim still holds true today The story of the author s two journeys around the Asir  
 region is told through the architecture frescoes and lifestyles of the people Granted royal approval for his second project  
 Thierry Mauger has been able to gain access to previously unseen interiors and to win the trust of the people In the process  
 he reveals how the art of the Asir region the hand painted brightly colored interior decoration the painted facades the  
 symbolism of the architecture and the unique landscape form a complex code which provides valuable insights into  
 understanding this little known culture In the midst of Westernizing trends the author demonstrates the strong traditional  
 forces which imbue the art and architecture of Asir today New architecture is taking up forms and ornamentation from  
 traditional regional styles and as the author shows the painted interiors by Asiri women resonate with the traditions of magic  
 and religion blended with new images drawn from the contemporary culture decoration frescoes house majlis men motifs

Cradle of Islam Mai Yamani, 2009-08-21. Is Saudi Arabia really a homogeneous Wahhabi dominated state? In 1932 the Al Saud family incorporated the kingdom of Hijaz, once the cultural hub of the Arabian world, into the kingdom of Saudi Arabia. The urban cosmopolitan Hijazis were absorbed into a new state whose codes of behavior and rules were determined by the Najdis, an ascetic desert people from whom the Al Saud family came. But the Saudi rulers failed to fully integrate the Hijaz, which retains a distinctive identity to this day. In Cradle of Islam, the product of years spent in Mecca, Medina, Jeddah and Taif, Mai Yamani traces the fortunes of the distinctive and resilient culture of the Hijazis from the golden age of Hashemite Mecca to Saudi domination to its current resurgence. The Hijazis today emphasise their regional heritage in religious ritual, food, dress and language as a response to the Najdification of everyday life. The Hijazi experience shows the vitality of cultural diversity in the face of political repression in the Arab world.

**UNDISCOVERED ASIR** Thierry Mauger, 2020. Thierry Mauger is the latest in a long and distinguished line of Western travellers in remote corners of the Arabian Peninsula. Throwing off the shackles of a career in science-related business, M. Mauger set off on adventurous expeditions, often alone, into the wild mountainous regions of Saudi Arabia's Asir, abutting the rugged border with Yemen and to the precipitous slopes dropping to the Tihama plains by the Red Sea. His remarkable photographs and vivid text tell of tribes and communities whose way of life has not changed for centuries. These tribesmen, some settled on intricately terraced farms, some on perilous cliffs and in villages in remote valleys, some depending on their herds of goats and sheep, have developed idiosyncrasies which are unique on the face of the earth. With an astonishing gift for color, they make their mud houses and crenelated roofs shine like jewels on the mountainside. Young men are caparisoned in elaborate flowered headdresses. Daring color characterises every festival and every dance. Thierry Mauger is already an established name in the annals of Arabian travelling. With this new work, he opens our eyes to people and places scarcely known to the outside world and never before revealed in pictures or words, least of all by such photographic skills and close observation as M. Mauger brings to the art of travelling. Undiscovered Asir represents a unique contribution to the literature on Arabia today, the first and one must fear the last glimpse of a way of life doomed to extinction by the encroachment of modern communications.
