Description :

This is a reprint of John Holt's controversial book about the rights of children and how adults and children can live and learn together more enjoyably and transparently by rethinking their relationships. Under the guise of care and protection, children are kept in the walled garden of childhood, outside the world of human experience, for longer periods than ever before in human history. But for many children and parents, the walled garden of childhood is more like a prison, where authorities compel and limit personal actions. What if children the right to do, in general, what any adult may legally do? The reader who dares to confront such a question will discover new family relationships, not based on parental control, but on the joy of shared experience and responsibilities.
