Guatemaltecas Susan A. Berger,2021 After thirty years of military rule and state sponsored violence Guatemala reinstated civilian control and began rebuilding democratic institutions in 1986 Responding to these changes Guatemalan women began organizing to gain an active role in the national body politic and restructure traditional relations of power and gender This pioneering study examines the formation and evolution of the Guatemalan women s movement and assesses how it has been affected by and has in turn affected the forces of democratization and globalization that have transformed much of the developing world Susan Berger pursues three hypotheses in her study of the women s movement She argues that neoliberal democratization has led to the institutionalization of the women s movement and has encouraged it to turn from protest politics to policy work and to helping the state impose its neoliberal agenda She also asserts that while the influences of dominant global discourses are apparent local definitions of femininity sexuality and gender equity and rights have been critical to shaping the form content and objectives of the women s movement in Guatemala And she identifies a counter discourse to globalization that is slowly emerging within the movement Berger s findings vigorously reveal the manifold complexities that have attended the development of the Guatemalan women s movement **Revolutionary Violence and**

the New Left Alberto Martin Alvarez,Eduardo Rey Tristán,2016-08-05 Leading figures and rising stars in the field present the first contribution explaining the transnational nature of the revolutionary violence of the New Left Focusing on the processes of dissemination of ideologies and mobilization of ideas and repertoires of action among the revolutionary organizations of the New Left in Latin America Europe and the United States this book contributes to our understanding of the dynamics of the New Left wave and at the same time helps explain the why of the emergence of very similar armed leftist groups in vastly different geographical and political contexts **From Coldwar Communism to the Global**

Emancipatory Movement Peter Waterman,2014-12-12 Boaventura de Sousa Santos says This is an admirable memoir of an intellectual activist who has lived most intensely the progressive struggles of the last sixty years of world history because despite being born in Europe Peter in the best tradition of communist internationalism participated in struggles and movements not only in Central and Eastern Europe but also in Africa and most recently in Latin America But this is much more than a memoir It is so well documented that in this personal experience there are reflected some of the most decisive events of contemporary history It is a living history book But even more than this this book is so clearly and vividly written that at times it reads like the script for an imaginary documentary of our times This book should be read by all concerned with our recent history in order to get a much more complex inside view of what happened while it was happening In particular it should be read by the youth in order to get a close up of the difficulties and possibilities in building another possible world at a time where there existed a vibrant international communist movement It is up to such youth to evaluate

whether difficulties are now or more daunting the possibilities less or more luminous
