Eskimo School On The Andreafsky:

Eskimo School on the Andreafsky Judith Kleinfeld, 1979 Examines the success of St Mary's a Catholic School in southwestern Alaska in educating Eskimo adolescents Eskimos and Explorers Wendell H. Oswalt, 1999-01-01 Corrects misconceptions about Eskimo life analyzes early accounts by European explorers and evaluates the impact these explorers had on Eskimo culture *The Dakota Sioux Experience at Flandreau and Pipestone Indian Schools* Cynthia Leanne Landrum, 2019-03-01 The Dakota Sioux Experience at Flandreau and Pipestone Indian Schools illuminates the relationship between the Dakota Sioux community and the schools and surrounding region as well as the community's long term effort to maintain its role as caretaker of the sacred citadel of its people Cynthia Leanne Landrum explores how Dakota Sioux students at Flandreau Indian School in South Dakota and at Pipestone Indian School in Minnesota generally accepted the idea that they should attend these particular boarding institutions because they saw them as a means to an end and ultimately as community schools This construct operated within the same philosophical framework in which some Eastern Woodland nations approached a non Indian education that was simultaneously tied to long term international alliances between Europeans and First Peoples beginning in the seventeenth and eighteenth centuries Landrum provides a new perspective from which to consider the Dakota people's overt acceptance of this non Native education system and a window into their ongoing evolutionary relationships with all of the historic overtures and tensions that began the moment alliances were first brokered between the Algonquian Confederations and the European powers **Resources in Education**, 1982

The Dismissal of Tenured Teachers for Incompetence Edwin M. Bridges, 1984 *Characteristics of Public and Private Schools in the San Francisco Bay Area* Edward M. Gilliland, Janice Radle, 1984 **The World We Created at Hamilton High** Gerald Grant, 1988 In this wonderfully evocative picture of an urban American high school and its successes and setbacks over the past thirty five years Gerald Grant works out a unique perspective on what makes a good school one that asserts moral and intellectual authority without becoming rigidly doctrinaire or losing the precious gains in equality of opportunity that have been won at great cost Grant describes what happened inside Hamilton High a real school although its identity is disguised and how different worlds evolved as the school's authority system was transformed After the opening of Hamilton High in the buoyant and self confident 1950s the school plunged into a period of violence and radical deconstruction in the late sixties Grant charts the rise of student power in the seventies followed by new transformations of the school in the last decade occasioned in part by the mainstreaming of disabled students and the arrival of Asian immigrants Things got very bad before they got better but they did get better The school went from white power to black power to genuine racial equality Its average test scores declined and then improved Although test score means did not return to their former levels the gap in achievement between the social classes decreased Violence was replaced by a sense of relative safety and security Yet this book is not just a case study In the second half the author presents a general analysis of

American education He contrasts the world of Hamilton High with other possible worlds including those at three schools one public and two private that exhibit a strong positive ethos He looks at the way the moral and intellectual worlds have been sundered in many contemporary public schools and asks whether they can be put back together again The book is grounded in a creative methodology that includes research by students at Hamilton High whom Grant trained to analyze life in their school Later he shared this research with teachers as a means of opening a dialogue about what changes they wanted to make Grant s analysis leads to recommendations for two essential reforms and in an epilogue the teachers who read this book also tell us what they make of it and offer their own conclusions Their challenging final words will spur the thinking of educators policymakers scholars parents and all those who are concerned about our schools today

Native American Education Lorraine Hale, 2002-07-19 This authoritative volume puts the schooling of Native American children in the broader context of the country s educational agenda and demonstrates how Native American learning continues to be a challenge to minority education in the United States This fascinating overview provides a comprehensive introduction to the education of Native Americans in the United States Historically schools were seen as essential to formal education but also as the custodians of community values a way to socialize Native Americans into the European way of life Native American Education A Reference Handbook describes the role played by various churches and missionaries and their different approaches to education against a backdrop of mostly unfamiliar social and legal history For example most Americans probably do not know that Indians helped write the Constitution and that an Indian served as vice president of the United States Author Lorraine Hale provides strategies for preserving Indian culture within the framework of modern American education

American Schools John H. Bunzel,1987-12 In this provocative volume such noted authorities as Nathan Glazer Diane Ravitch Joseph Adelson Chester E Finn Jr and Martin Trow probe the troubling issues that have stirred a firestorm of controversy around our public school system These eleven original essays share the premise that past ideas particularly the notion that everyone should go to school to become good and productive citizens have not been proven wrong but are insufficient to the demands of the 1980s The contributors bring their diverse perspectives expertise to bear on such questions as How should we implement strategies for educational reform What should curriculums include and to whom should they be taught Are teachers unionism and high educational standards incompatible What does the growth of private schooling mean for education as a whole How has federal court intervention damaged or enhanced education What produces

schools with good climates for learning What is the family s role in public education How have colleges and universities responded to the problem of underprepared students How should the issue of educational standards and ethnic racial factors be addressed Lucid and penetrating these reassessments contribute valuable new insights to a vitally important national debate
