Catalogue of the Books in the Dover Public Library, Dover, N.H. Dover Public Library (Dover, N.H.),1892 *The Annual American Catalogue* ,1887 **Each Mind a Kingdom** Beryl Satter,2001-05-14 Beryl Satter examines New Thought in all its complexity presenting along the way a captivating cast of characters In lively and accessible prose she introduces the people the institutions the texts and the ideas that comprised the New Thought movement **The Delight Makers** Catherine L. Albanese,2023-01-17 Can you draw a clear line through American history from the Puritans to the Nones of today On the surface there is not much connective tissue between the former who often serve as shorthand for a persistent religious fanaticism in the United States and the almost one quarter of the population who now regularly check the None or None of the above box when responding to surveys of religious preference But instead of seeing a disconnect between these two groups separated by time historian Catherine Albanese insists there is a deep connection that spans the centuries With a targeted romp through American history from the seventeenth century to the present Albanese ties together these seemingly disparate groups through a shared and distinctively American preoccupation with delight and desire Albanese begins our journey with the role of delight and desire in the brand of Calvinism championed by renowned Puritan minister Cotton Mather and later Jonathan Edwards She then traces the development of these themes up through the present treating the reader to revelatory readings of Ralph Waldo Emerson Horace Bushnell Andrew Jackson Davis William James Emma Curtis Hopkins Elizabeth Towne and others revealing the contours of an evolving theology of desire The result is an original and entertaining take on an underexamined through line in American history Mind Cure Wakoh Shannon Hickey,2019-02-01 Mindfulness and yoga are widely said to improve mental and physical health and booming industries have emerged to teach them as secular techniques This movement is typically traced to the 1970s but it actually began a century earlier Wakoh Shannon Hickey shows that most of those who first advocated meditation for healing were women leaders of the Mind Cure movement which emerged during the late nineteenth and early twentieth centuries Instructed by Buddhist and Hindu missionaries many of these women believed that by transforming consciousness they could also transform oppressive conditions in which they lived For women and many African American men Mind Cure meant not just happiness but liberation in concrete political economic and legal terms In response to the perceived threat posed by this movement white male doctors and clergy with elite academic credentials began to channel key Mind Cure methods into scientific psychology

and medicine As mental therapeutics became medicalized and commodified the religious roots of meditation like the social justice agendas of early Mind Curers fell by the wayside Although characterized as universal mindfulness has very specific historical and cultural roots and is now largely marketed by and accessible to affluent white people Hickey examines religious dimensions of the Mindfulness movement and clinical research about its effectiveness By treating stress related illness individually she argues the contemporary movement obscures the roles religious communities can play in fostering civil society and personal wellbeing and diverts attention from systemic factors fueling stress related illness including racism sexism and poverty

The Secular Religion of Franklin Merrell-Wolff Dave Vliegenthart, 2018-01-16
In *The Secular Religion of Franklin Merrell Wolff* An Intellectual History of Anti intellectualism in Modern America Dave Vliegenthart offers an account of the life and teachings of the modern American mystic Franklin Merrell Wolff 1887 1985 who combined secular and religious sources from eastern and western traditions in order to elaborate and legitimate his metaphysical claim to the realization of a transcendental reality beyond reason Using Merrell Wolff as a typical example of a modern western guru Vliegenthart investigates the larger sociological and historical context of the ongoing grand narrative that asserts a widespread anti intellectualism in modern American culture exploring developments in religious philosophical and psychological discourses in North America from 1800 until the present

Dictionary of Early American Philosophers John R. Shook, 2012-04-05 The *Dictionary of Early American Philosophers* which contains over 400 entries by nearly 300 authors provides an account of philosophical thought in the United States and Canada between 1600 and 1860 The label of philosopher has been broadly applied in this Dictionary to intellectuals who have made philosophical contributions regardless of academic career or professional title Most figures were not academic philosophers as few such positions existed then but they did work on philosophical issues and explored philosophical questions involved in such fields as pedagogy rhetoric the arts history politics economics sociology psychology medicine anthropology religion metaphysics and the natural sciences Each entry begins with biographical and career information and continues with a discussion of the subject's writings teaching and thought A cross referencing system refers the reader to other entries The concluding bibliography lists significant publications by the subject posthumous editions and collected works and further reading about the subject

The Publishers' Trade List Annual, 1886 *The Western Esoteric Traditions* Nicholas Goodrick-Clarke, 2008-10-14
Western esotericism has now emerged as an academic study in its own right combining spirituality with an empirical observation of the natural world while also relating the humanity to the universe through a harmonious celestial order This introduction to the Western esoteric traditions offers a concise overview of their historical development Nicholas Goodrick-Clarke explores these traditions from their roots in Hermeticism Neo Platonism and Gnosticism in the early Christian era up to their reverberations in today's scientific paradigms While the study of Western esotericism is usually confined to the history of ideas Goodrick-Clarke examines the phenomenon much more broadly He demonstrates that far from being a

strictly intellectual movement the spread of esotericism owes a great deal to geopolitics and globalization In Hellenistic culture for example the empire of Alexander the Great which stretched across Egypt and Western Asia to provinces in India facilitated a mixing of Eastern and Western cultures As the Greeks absorbed ideas from Egypt Babylon Assyria and Persia they gave rise to the first esoteric movements From the late sixteenth to the eighteenth centuries post Reformation spirituality found expression in theosophy Rosicrucianism and Freemasonry Similarly in the modern era dissatisfaction with the hegemony of science in Western culture and a lack of faith in traditional Christianity led thinkers like Madame Blavatsky to look East for spiritual inspiration Goodrick Clarke further examines Modern esoteric thought in the light of new scientific and medical paradigms along with the analytical psychology of Carl Gustav Jung This book traces the complete history of these movements and is the definitive account of Western esotericism **New Age Religion and Western Culture** Wouter J. Hanegraaff, 2018-09-24 Recent years have seen a spectacular rise of the New Age movement and an ever increasing interest in its beliefs and manifestations This fascinating work presents the first ever comprehensive analysis of New Age Religion and its historical backgrounds thus providing the reader with a means of orientation in the bewildering variety of the movement Making extensive use of primary sources the author thematically analyses New Age beliefs from the perspective of the study of religions While looking at the historical backgrounds of the movement he convincingly argues that its foundations were laid by so called western esoteric traditions during the Renaissance Hanegraaff finally shows how the modern New Age movement emerged from the increasing secularization of those esoteric traditions during the 19th century This ground breaking publication is compulsive reading for all those involved or interested in the New Age movement

Albanese, 2007-01-01 In the nineteenth and early twentieth centuries Mexicans and Americans joined together to transform the U S Mexico borderlands into a crossroads of modern economic development This book reveals the forgotten story of their ambitious dreams and their ultimate failure to control this fugitive terrain Focusing on a mining region that spilled across the Arizona Sonora border this book shows how entrepreneurs corporations and statesmen tried to domesticate nature and society within a transnational context Efforts to tame a wild frontier were stymied by labour struggles social conflict and revolution Fugitive Landscapes explores the making and unmaking of the U S Mexico border telling how ordinary people resisted the domination of empires nations and corporations to shape transnational history on their own terms By moving beyond traditional national narratives it offers new lessons for our own border crossing age **Catalogue of the Newton Free Library of Newton, Massachusetts, 1892** Newton Free Library, 1892
