Esoteric Music 1948:

The Cambridge Companion to Bartók Amanda Bayley, 2001-03-26 This is a wide ranging and accessible guide to Bartók and his music *Bulletin of the National Association of Schools of Music*, 1934 *The Occult Arts of Music* David Huckvale, 2013-09-21 Occult traditions have inspired musical ingenuity for centuries From the Pythagorean concept of a music of the spheres to the occult subculture of 20th century pop and rock music has often attempted to express mystical states of mind cosmic harmony the demonic and the divine nowhere more so perhaps than in the music for films such as *The Mephisto Waltz* *The Devil Rides Out* *Star Trek Close Encounters of the Third Kind* *The Omen* and *The Exorcist* This survey explores how such film music works and uncovers its origins in Pythagorean and Platonic ideas about the divine order of the universe and its essentially numerical musical nature Chapters trace the influence of esoteric Freemasonry on Mozart and Beethoven the birth of demonic music in the 19th century with composers such as Weber Berlioz and Liszt Wagner's racial mysticism Schoenberg's numerical superstition the impact of synesthesia on art music and film the effect of theosophical ideas on composers such as Scriabin and Holst supernatural opera and ballet fairy music and finally popular music in the 1960s and 70s *List of Books on Music* National Association of Schools of Music, 1936 **A History of Film Music** Mervyn Cooke, 2008-09-25 This book provides a comprehensive and lively introduction to the major trends in film scoring from the silent era to the present day focussing not only on dominant Hollywood practices but also offering an international perspective by including case studies of the national cinemas of the UK France India Italy Japan and the early Soviet Union The book balances wide ranging overviews of film genres modes of production and critical reception with detailed non technical descriptions of the interaction between image track and soundtrack in representative individual films In addition to the central focus on narrative cinema separate sections are also devoted to music in documentary and animated films film musicals and the uses of popular and classical music in the cinema The author analyses the varying technological and aesthetic issues that have shaped the history of film music and concludes with an account of the modern film composer's working practices *Advances in Computer Entertainment Technology* Adrian David Cheok, Masahiko Inami, Teresa Romão, 2018-03-02 This book constitutes the refereed conference proceedings of the 14th International Conference on Advances in Computer Entertainment Technology ACE 2017 held in London UK in December 2017 The 59 full papers presented were selected from a total of 229 submissions ACE is by nature a multi disciplinary conference therefore attracting people across a wide spectrum of interests and disciplines including computer science design arts sociology anthropology psychology and marketing The main goal is to stimulate discussion in the development of new and compelling entertainment computing and interactive art concepts and applications The chapter eSport vs iSport is open access under a CC BY 4.0 license via link [springer.com](https://www.springer.com) *Twentieth Century Music and the Question of Modernity* Eduardo de la Fuente, 2010-09-13 This book analyzes the history of contemporary or new music in the twentieth century through the lens of the sociology of

modern culture linking the paradoxical aspects of twentieth century music to the central processes in modern culture that are analyzed by sociology and social theory

Spiritual Dimensions in the Music of Edmund Rubbra Lucinda Craddock, 2022-12-20 Edmund Rubbra's music has given him a reputation as a spiritual composer who had an interest in Eastern thought and a mid life conversion to Roman Catholicism This book takes a wide and detailed view of spiritual dimensions or strands that were important in his life positioning them both biographically and within the context of contemporaneous English culture It proceeds to interpret through detailed analysis the ways these spiritual aspects are reflected in specific compositions Thematic treatment of these spiritual issues touching on Theosophy dance Eastern religions and thought nature the evolutionary theory of Teilhard de Chardin and the Christ figure presents a multi faceted view of Rubbra's life and music Its contribution to a scholarly re evaluation of his place within twentieth century British music and culture engages and meshes with several areas of current scholarly research in the arts and humanities including academic interest in Theosophy modernism and the arts experimental dance and the Indian cultural renaissance and East West musical interactions of the late nineteenth and early twentieth centuries It also adds to a burgeoning body of writings on music and spirituality fuelled by the popularity of later twentieth century and contemporary composers who make more overt spiritual references in their music

Bella Coola Indian music Anton F. Kolstee, 1982-01-01 This paper describes the ethnographic context and analyses the structural characteristics of Bella Coola songs Seventy three original transcriptions which encompass a broad spectrum of Bella Coola ceremonial and non ceremonial repertoires are included Published in English

List of Books on Music, 1936

Paul Gauguin Dario Gamboni, 2014-09-15 French artist Eugène Henri Paul Gauguin 1848 1903 once reproached the Impressionists for searching around the eye and not at the mysterious centre of thought But what did he mean by this enigmatic phrase In this innovative investigation into Gauguin's art and thought Dario Gamboni illuminates Gauguin's quest for this mysterious centre and offers a fresh look at the artist's output in all media from ceramics and sculptures to prints paintings and his large corpus of writings Foregrounding Gauguin's conscious use of ambiguity Gamboni unpacks what the artist called the language of the listening eye Gamboni shows that the interaction between perception cognition and imagination was at the core of Gauguin's work and he traces a line of continuity in them that has been previously overlooked Emulating Gauguin's wide ranging curiosity with literature psychology theology and the natural sciences not to mention the whole of art history this

richly illustrated book provides new insight into the life and works of this well known yet little understood artist **Music, Witchcraft and the Paranormal** Melvyn J. Willin, 2005 A series of essays on parapsychology and psychical research with special reference to the importance of music in paganism and witchcraft The author investigates the use of music in telepathic contact using controlled experiments He looks at mediums who claim contact with dead composers and people who have heard ghostly music are also examined *Music, Culture, and Experience* John Blacking, 1995-03-15 One of the most important ethnomusicologists of the century John Blacking achieved international recognition for his book *How Musical Is Man* Known for his interest in the relationship of music to biology psychology dance and politics Blacking was deeply committed to the idea that music making is a fundamental and universal attribute of the human species He attempted to document the ways in which music making expresses the human condition how it transcends social divisions and how it can be used to improve the quality of human life This volume brings together in one convenient source eight of Blacking's most important theoretical papers along with an extensive introduction by the editor Drawing heavily on his fieldwork among the Venda people of South Africa these essays reveal his most important theoretical themes such as the innateness of musical ability the properties of music as a symbolic or quasi linguistic system the complex relation between music and social institutions and the relation between scientific musical analysis and cultural understanding **Musical Meaning** Lawrence Kramer, 2002 Lawrence Kramer has been a pivotal figure in the development of the controversial new musicology integrating the study of music with social and cultural issues This accessible and eloquently written book continues and deepens the trajectory of Kramer's thinking as it boldly argues that humanistic not just technical meaning is a basic force in music history and an indispensable factor in how where and when music is heard Kramer draws on a broad range of music and theory to show that the problem of musical meaning is not just an intellectual puzzle but a musical phenomenon in its own right How have romantic narratives involving Beethoven's *Moonlight Sonata* affected how we hear this famous piece and what do they reveal about its music How does John Coltrane's African American identity affect the way we hear him perform a relatively white pop standard like *My Favorite Things* Why does music requiring great virtuosity have different cultural meanings than music that is not particularly virtuosic Focusing on the classical repertoire from Beethoven to Shostakovich and also discussing jazz popular music and film and television music *Musical Meaning* uncovers the historical importance of asking about meaning in the lived experience of musical works styles and performances Kramer's writing clear and full of memorable formulations demonstrates that thinking about music can become a vital means of thinking about general questions of meaning subjectivity and value In addition to providing theoretical advances and insights on particular pieces and repertoires *Musical Meaning* will be provocative reading for those interested in issues of identity gender and cultural theory This book includes a CD of Kramer's own composition *Revenants* 32 Variations in C Minor which he discusses in his final chapter *Music in the Late Twentieth Century* Richard Taruskin, 2006-08-14 The universally acclaimed and award

winning Oxford History of Western Music is the eminent musicologist Richard Taruskin's provocative erudite telling of the story of Western music from its earliest days to the present. Each book in this superlative five volume set illuminates through a representative sampling of masterworks the themes, styles and currents that give shape and direction to a significant period in the history of Western music. *Music in the Late Twentieth Century* is the final installment of the set covering the years from the end of World War II to the present. In these pages Taruskin illuminates the great compositions of recent times offering insightful analyses of works by Aaron Copland, John Cage, Milton Babbitt, Benjamin Britten, Steve Reich and Philip Glass among many others. He also looks at the impact of electronic music and computers, the rise of pop music and rock n roll, the advent of postmodernism and the contemporary music of Laurie Anderson, John Zorn and John Adams. Laced with brilliant observations, memorable musical analysis and a panoramic sense of the interactions between history, culture, politics, art, literature, religion and music, this book will be essential reading for anyone who wishes to understand this rich and diverse period. *Books and Notes* Los Angeles County Public Library, 1949 *Music and the Paranormal* Melvyn J.

Willin, 2022-01-18 Exploring the paranormal through musical phenomena, this encyclopedia covers a range of anomalies from musical mediumship to locations throughout the world where music has been heard with no obvious source. Other manifestations such as the abilities of musical savants and the anesthetic use of music during surgical procedures are included with a focus on parapsychical aspects. Entries describe examples from earliest history up to the present; interpretation is left to the reader. Broader themes and concepts are discussed in appendices with additional references provided for further study. **Britten's Unquiet Past** Heather Wiebe, 2012-10-04 Examining the intersections between musical culture and a British project of reconstruction from the 1940s to the early 1960s, this study asks how gestures toward the past negotiated issues of recovery and renewal. In the wake of the Second World War, music became a privileged site for re-enchanting notions of history and community, but musical recourse to the past also raised issues of mourning and loss. How was sound figured as a historical object and as a locus of memory and magic? Wiebe addresses this question using a wide range of sources from planning documents to journalism, public ceremonial and literature. Its central focus, however, is a set of works by Benjamin Britten that engaged both with the distant musical past and with key episodes of postwar reconstruction, including the Festival of Britain, the Coronation of Elizabeth II and the rebuilding of Coventry Cathedral.
