Espinet & Ubach Josep Maria Montaner,Miguel Espinet,1996 This series is the best reference available for information on today s leading architects and presents their work in an affordable and thoroughly illustrated format Each book begins with an overview of the architect s style and accomplishments written by a leading architecture critic Then approximately twenty noteworthy works and projects are discussed by the architect and presented in detail with site plans drawings and black and white photographs Walking the city. Barcelona as an urban experience Estanislau Roca,Inés Aquilué & Renata Gomes,2015-03-26 This book presents an exciting and colorful route for Barcelona and his neighborhoods Written by recognised specialists in architecture urbanism or art history and based in an awarded and exported teaching and research project which uses the city as a classroom and laboratory its aim is to deepen one s knowledge about the city through tours as a way of approaching architecture urbanism sociology and history **El espacio deportivo a cubierto. Forma y lugar** Cándido López González,2012-08-14 Los recintos deportivos a cubierto se configuran como objeto de reflexión y definen un ámbito de trabajo en su consideración como lugares de encuentro de manifestación cultural y social con una expresión arquitectónica propia singular y codificable La exploración de las características relevantes de los aspectos significativos del espacio

deportivo a cubierto se manifiesta en el texto mediante la definición de una serie de vocablos estableciendo un conjunto de parámetros de análisis. Parámetros que aplicados a las instalaciones del deporte alcanzan a significarse de modo preciso determinando los valores fundamentales esenciales de las mismas y extraen a la luz la estructura profunda las componentes que caracterizan los modelos arquitectónicos seleccionados. Modelos arquitectónicos que alguno ausente y otros transformados se eligen trascendiendo sus aspectos formales sus tipos e intencionados estilos. Piezas arquitectónicas diversas en la España del siglo XX reflejo de la actitud e interés arquitectónico del autor del texto. Series tipológicas como la configurada por las instalaciones deportivas al aire libre o la determinada por los recintos deportivos a cubierto vinculados al mundo del agua se desentrañan del presente campo de estudio sin que ello suponga que los parámetros de análisis establecidos en el discurso les sean ajenos o no puedan aplicarse. Una mirada retrospectiva pone de relieve la deuda que los proyectos de equipamientos deportivos a cubierto contemporáneos tienen establecida con aquellos precedentes en el tiempo. La manifestación de un conjunto de vínculos desde el mundo clásico hasta la época contemporánea determina las características comunes a todos ellos y permite una codificación clara y precisa del mundo de las instalaciones deportivas a cubierto. Instalaciones deportivas a cubierto de carácter polivalente y que aun cuando se erigen para acoger un tipo de deporte son capaces de alojar puntualmente otras especialidades deportivas. Polivalencia que además de su consideración en un estricto ámbito deportivo se refiere a la capacidad de la instalación para desenvolver actividades del mundo social y cultural. El espacio deportivo a cubierto. Forma y lugar propone una intensa inmersión en los espacios del deporte por cuanto considera como expresaba Ortega y Gasset en *El origen deportivo del Estado* la actividad deportiva como la primaria y creadora como la más elevada seria e importante en la vida.

Documenting Spain: Artists, Exhibition Culture, and the Modern Nation,

1929-1939, The news media have given us potent demonstrations of the ambiguity of ostensibly truthful representations of public events. Jordana Mendelson uses this ambiguity as a framework for the study of Spanish visual culture from 1929 to 1939, a decade marked on the one hand by dictatorship, civil war, and Franco's rise to power and on the other by a surge in the production of documentaries of various types from films and photographs to international exhibitions. Mendelson begins with an examination of *El Pueblo Español*, a model Spanish village featured at the 1929 International Exposition in Barcelona. She then discusses Buñuel's and Dalí's documentary films relating them not only to French Surrealism but also to issues of rural tradition in the formation of regional and national identities. Her highly original book concludes with a discussion of the 1937 Spanish Pavilion where Picasso's famed painting of the Fascist bombing of a Basque town, *Guernica*, was exhibited along with monumental photomurals by Josep Renau. Based upon years of archival research, Mendelson's book opens a new perspective on the cultural politics of a turbulent era in modern Spain. It explores the little-known yet rich intersection between avant-garde artists and government institutions. It shows as well the surprising extent to which Spanish modernity was fashioned through dialogue between the seemingly opposed fields of urban and rural fine art and mass culture.
