book that explains not only where humanity has been but where it might be going *Playing to Win* Hilary Levey Friedman, 2013-08-03 Many parents work more hours outside of the home and their lives are crowded with more obligations than ever before many children spend their evenings and weekends trying out for all star teams traveling to regional and national tournaments and eating dinner in the car while being shuttled between activities In this vivid ethnography based on almost 200 interviews with parents children coaches and teachers Hilary Levey probes the increase in children s participation in activities outside of the home structured and monitored by their parents when family time is so scarce As the parental second shift continues to grow alongside it a second shift for children has emerged especially among the middle and upper middle classes which is suffused with competition rather than mere participation What motivates these particular parents to get their children involved in competitive activities Parents primary concern is their children s access to high quality educational credentials the biggest bottleneck standing in the way of or facilitating entry into membership in the upper middle class Competitive activities like sports and the arts are seen as the essential proving ground that will clear their children s paths to the Ivy League or other similar institutions by helping them to develop a competitive habitus This belief motivated both by reality and by perception and shaped by gender and class affects how parents envision their children s futures it also shapes the structure of children s daily lives what the children themselves think about their lives and the competitive landscapes of the activities themselves **CD-ROMs in Print**, 2003 **Leading the Life You Want** Stewart Friedman, 2014-09-16 A Wall Street Journal Bestseller For nearly thirty years my life s work has been to help people like you find ways to bring the often warring aspects of life into greater harmony Stew Friedman from *Leading the Life You Want* You re busy trying to lead a full life But does it really feel full or are you stretched too thin Enter Stew Friedman Wharton professor adviser to leaders across the globe and passionate advocate of replacing the misguided metaphor of work life balance with something more realistic and sustainable If you re seeking balance you ll never achieve it argues Friedman The idea that work competes with life ignores the more nuanced reality of our humanity the interaction of four domains work home community and the private self The goal is to create harmony among them instead of thinking only in terms of trade offs It can be done Building on his national bestseller *Total Leadership* and on decades of research teaching and practice as both consultant and senior executive Friedman identifies the critical skills for integrating work and the rest of life He illustrates them through compelling original stories of these remarkable people former Bain Company CEO and Bridgespan co founder Tom Tierney Facebook COO and bestselling author Sheryl Sandberg nonprofit leader and US Navy SEAL Eric Greitens US First Lady Michelle Obama soccer champion turned broadcaster Julie Foudy renowned artist Bruce Springsteen Each of these admirable though surely imperfect people exemplifies a set of skills for being real being whole and being innovative that produce a sense of purpose coherence and optimism Based on interviews and research their stories paint a vivid picture of how six very different leaders use these skills to act with authenticity integrity and creativity and they prove

that significant public success is accomplished not at the expense of the rest of life but as the result of meaningful engagement in all its parts With dozens of practical exercises for strengthening these skills curated from the latest research in organizational psychology and related fields this book will inspire you inform you and instruct you on how to take realistic steps now toward leading the life you truly want     **Elite?** Adam D. Metz, 2018-10-23 Beyond an occasional sports inspired sermon illustration sports are generally regarded as having little relevance to the Christian faith More often they are viewed as a welcome and safe reprieve from politics and religion Quietly however as they avoid the discerning eye of the church sports are slowly overtaking families and overwhelming parents Under the labels elite select and travel a new experience of sports has taken root in American culture demanding financial burdens time commitments and heightened pressures never before seen Community leaders from various public sectors have criticized many recent trends in youth sports but alas where has the church been This new elite expression of youth sports is quickly building an intimidating front against the church As church attendance declines elite youth sports participation is on the rise This book ventures into the challenging controversial and powerful world of youth sports Young people participate in sports more than just about any other activity and the church has neglected its role in providing a voice of discernment for what participating in sports should look like Christians are desperately in need of a manifesto for helping them wrestle with the complex exciting and often exhausting world of youth sports
