✓ Exclusively available on IvyPanda

The authority of the Church is the basis of people's knowledge of Christ since everything they learn about Christ comes from the Church's ministry. The only reason people have knowledge about Christ is that the Church has passed the testimony about him. The first way how the Church informed people about Christ was by passing down the gospel, meaning good news, which contained historical facts and events from Christ's life. Also, the gospel incorporated the facts related to Christ's death and resurrection as observed and recorded by the apostles. Furthermore, the Church taught people the true doctrine about Christ and his supernatural life. Through commemorating his divine rites and sharing his love, the Church made Christ indeed exist in the sacraments. Two millennia have passed since Christ lived on Earth, which makes it impossible for people to know anything about him by themselves; hence, the Church's role cannot be overestimated.

Whereas people are not holy, the Church is, holiness being one of its distinctive marks. The Church's moral principles, sacraments, and doctrine are holy and pure since they come from Christ. However, her people, including clergymen and congregation, are not pure in several dimensions. Firstly, the Church's human members are not pure in their perception of the doctrines. Secondly, they are not holy in their living according to the Church's moral principles. Thirdly, people are not holy in their participation in the Church's rites. In fact, people cannot be holy since the Church was established by Christ not as an exhibition of saints but as a place for treating sinners. Christ is perfectly holy, but his followers are not since they engage in sinful actions and need to atone for their sins. All Church members, both laymen and ministers, should realize that the Church is holy, but they are sinful.

The major difference between the Catholic and Protestant understanding of the forgiveness of sins is their expectations of what people should do to be forgiven. Both religions consider faith an important prerequisite for gaining salvation. However, Protestants believe that people can be saved by faith alone, while Catholics additionally recognize the role of good deeds. The Bible maintains faith's importance for salvation, but in a combination with good works. At the same time, the Church emphasizes that

mother keeps watch over the seedlings of grace implanted at baptism in the garden of the infant heart and nourishes those seedlings while the school trains will and heart and mind to follow the precepts of truth and hearken to the voice and admonitions of God Now the nearest representative of God in regard to the child is the Church but the Church during the first five years of the child cannot exert her care directly over it so that the life of grace implanted through baptism must remain without nourishment unless the parents unless father and mother watching over the seedlings of grace implanted by holy baptism in the heart of the child foster by piety precept and prayer the tender buds of faith and love that later will bear beauteous blossoms in the full summertide of the garden of life      **Essays, Catholic and Critical** Edward Gordon

The Forgotten Radical Peter Maurin Peter Maurin, 2020-08-04 The definitive edition of Catholic Worker cofounder Peter Maurin s Easy Essays including 74 previously unpublished works Although Peter Maurin is well known among people connected to the Catholic Worker movement his Catholic Worker co founder and mentee Dorothy Day largely overshadowed him Maurin was never the charismatic leader that Day was and some Workers found his idiosyncrasies challenging Reticent to write or even

speak much about his personal life Maurin preferred to present his beliefs and ideas in the form of Easy Essays published in the New York Catholic Worker Featuring 482 of his essays as well as 87 previously unpublished ones this text offers a great contribution to the corpus of twentieth century Catholic life At first glance Maurin s Easy Essays appear overly simplistic and preposterous But upon further investigation his essays are much more complex and nuanced Packed with demanding ideas meant to convey dense information and encourage the listener to ponder different ways to understand and interact with reality his short poetic phrases became his modus operandi for communicating his vision and became a hallmark of his public theology Each essay contained anywhere from one to ten or more stanzas and were part of a larger arrangement often titled Within the larger arrangements were individual essays which were also titled and arranged in such a manner as to support the overall thesis Many individual essays were later repeated in slightly altered forms in new arrangements Previous arrangements were also repeated that omitted or added an essay Providing scholarly and contextual information for the modern reader this annotated collection includes more than 350 footnotes which offer a layer of intelligibility that explains Maurin s use of obscure references to historical people and events that would have been common knowledge for readers during the 1930s When appropriate the footnotes explain why Maurin chose to cite a person or event A scholarly Introduction offers a robust synthesis of contemporary scholarship on Maurin and the Catholic Worker that considers radical Catholicism and questions regarding race ethnicity religious difference and gender because many of Maurin s essays take up these themes This book shapes the ways Maurin is read in the present day and the ways leftist Catholicism is understood as part of twentieth century history

**The Culture of the Incarnation: Essays in Catholic Theology** Tracey Rowland, 2017-08-01 In this collection of essays distinguished Australian theologian Tracey Rowland takes up the relationship of Christ and culture broadly understood She contrasts the principles undergirding what St John Paul II called a culture of death with those required for the flourishing of a humanism that flows from the grace of the Incarnation Rowland returns frequently to the theological insights of Joseph Ratzinger Pope Benedict XVI to whose thought she is deeply indebted Drawing upon the Augustinian and Thomist traditions of political theology she offers a trenchant theological critique of liberalism in all its forms with attention to our modern attraction to false utopias and accommodationist impulses The nine essays in this volume engage such perennial topics as the place of natural law the theological status of the world and the nature of true humanism along with timely topics such as the retrieval of the sources of Catholic resistance to Communism and what is now commonly called cultural Marxism Rowland s inimitable voice keen wit and penetrating insight into the distinctiveness of Catholic truth make this book a landmark volume as the Church today revisits anew its relationship to the world
