Frank, 2020-08-26 The first volume of the collected major articles of Richard M. Frank pioneering student of Islamic theology kalam contains fifteen essays It includes his early studies classic but inaccessible for many in their original publication on the text and terminology of Graeco Arabic translations De anima Themistius on the Metaphysics Plotinus in Syriac anniya and the terminology of early kalam Other articles deal with Islamic theology and its early development especially in its relation to philosophy in particular the kalam of Jahm ibn Safwan and al Ghazali and the text and translation of two short dogmatic works by the mystic al Qushayri The collection is prefaced by a fascinating autobiographical memoir which traces the intellectual development of the author and the reasoning that led him from study to study to his discovery of the way of thinking of the theologians and to an understanding of the essential core of Islamic theology      **An Introduction to Classical Islamic Philosophy** Oliver Leaman, 2002 Islamic philosophy is a unique and fascinating form of thought and particular interest lies in its classical Greek influenced period when many of the ideas of Greek philosophy were used to explore the issues and theoretical problems which arise in trying to understand the Qur'an and Islamic practice In this revised and expanded 2001 edition of his classic introductory work Oliver Leaman examines the distinctive features of Classical Islamic philosophy and offers detailed accounts of major individual thinkers In contrast to many previous studies that have treated this subject as only of historical interest he offers analysis of the key arguments within Islamic philosophy so that the reader can engage with them and assess their strengths and weaknesses His book will interest a wide range of readers in philosophy religious studies and Islamic studies      **Islamic Philosophy** Oliver Leaman, 2013-05-03 Although Islamic philosophy represents one of the leading philosophical traditions in the world it has only recently begun to receive the attention it deserves in the non Islamic world This important text provides a concise and accessible introduction to the major movements thinkers and concepts within that tradition from the foundation of Islam to the present day Ever since the growth of Islam as a religious and political movement Muslim thinkers have sought to understand the theoretical aspects of their faith by using philosophical concepts Leaman outlines this history and demonstrates that although the development of Islamic philosophy is closely linked with Islam itself its form is not essentially connected to any particular religion and its leading ideas and arguments are of general philosophical significance The author illustrates the importance of Islamic thought within philosophy through the use of many modern examples He describes and contrasts the three main movements in Islamic philosophy Peripatetic Sufi and Illuminationist and examines the Persian as well as the Arabic traditions Wide coverage is given to key aspects of Islamic philosophy including epistemology ontology politics ethics and philosophy of language providing readers with a balanced view of the discipline The second edition has been thoroughly revised and updated throughout including the addition of two new chapters on recent debates surrounding

**Fakhr-al-Dīn al-Rāzī and Thomas Aquinas on the Question of the Eternity of the World** Muammer Iskenderoglu, 2022-06-13 This volume examines the approaches of Fakhr al-Dīn al-Rāzī d. 1209 and Thomas Aquinas d. 1274 to the question of the eternity of the world which was one of the most heated issues of debate between theologians and philosophers in the Middle Ages. The first chapter of the book gives some background to the discussion from Greek philosophy, early Jewish, Christian, and Muslim traditions. The second and the third chapters discuss the approaches of Rāzī and Aquinas respectively to the question of the eternity of the world. The last chapter compares their approaches, brings out some similarities of their approaches between them as well as in relation to their own traditions, Islam and Christianity respectively. The book tries to show that though they were theologians, both Rāzī and Aquinas were more in line with the philosophers than their fellow theologians.

**Before and After Avicenna** Avicenna Study Group. Conference, 2003-01-01 This collection of papers addresses a variety of aspects of the life and thought of the medieval philosopher Avicenna, including his reception of Classical philosophy, his views on topics such as metaphysics, psychology, and medicine, and the reception of his thought by later authors.

Perspectives on Early Islamic Mysticism Sara Sviri, 2019-10-21 This monograph explores the original literary produce of Muslim mystics during the eighth and tenth centuries, with special attention to ninth-century mystics such as al-Tustarī, al-Muṣibī, al-Kharrāzī, al-Junayd, and in particular al-Akmal al-Tirmidhī. Unlike other studies dealing with the so-called Formative Period, this book focuses on the extant writings of early mystics rather than on the later compilations. These early mystics articulated what would become a hallmark of Islamic mysticism: a system built around the psychological tension between the self (nafs) and the heart (qalb) and how to overcome it. Through their writings, already at this early phase, the versatility, fluidity, and maturity of Islamic mysticism become apparent. This exploration thus reveals that mysticism in Islam emerged earlier than customarily acknowledged, long before Islamic mysticism became generically known as Sūfism. The central figure of this book is al-Akmal al-Tirmidhī, whose teaching and inner world focus on themes such as polarity, the training of the self, the opening of the heart, the Friends of God (al-awliyā), dreams, and visions, divine language, mystical exegesis, and more. This book thus offers a fuller picture than hitherto presented of the versatility of themes, processes, images, practices, terminology, and thought models during this early period. The volume will be a key resource for scholars and students interested in the study of religion, Islamic studies, Late Antiquity, and Medieval Islam.

**A Companion to Philosophy of Religion** Charles Taliaferro, Paul Draper, Philip L. Quinn, 2010-04-12 In 85 new and updated essays, this comprehensive volume provides an authoritative guide to the philosophy of religion. Includes contributions from established philosophers and rising stars. 22 new entries have now been added, and all material from the previous edition has been updated and reorganized. Broad coverage spans the areas of world religions, theism, atheism, the problem of evil, science and religion, and ethics.

**The Phenomenological Quest Between Avicenna and Heidegger** Nader El-Bizri, 2000 The Phenomenological Quest between Avicenna and Heidegger investigates Avicenna's (Ibn Sina's) 980-1037 ontological

epistemological mystic and linguistic accounts of being while at the same time accounting for Martin Heidegger's critique of the history of metaphysics This investigation constitutes one of the first elaborate examinations of Avicenna's phenomenological considerations of the question of being The consideration of Avicenna's philosophical works has been mainly conducted through primary Arabic medieval texts that have not yet been translated into English French or German nor sufficiently addressed by Western scholarship Martin Heidegger claims that the history of metaphysics is the history of the oblivion of being while holding that his fundamental ontology presents a genuine phenomenological account that attempts to overcome metaphysics However Avicenna's philosophical works do testify to the emergence of a phenomenological philosophical tradition that took the question of being to be the most central question of philosophical investigations This Avicennian philosophical heritage grounded subsequent developments that attested to the rise of a new strain in ontology that overcomes substance and subject based ontology while being characterized by salient phenomenological dimensions To sum up Avicenna's philosophical accounts of being present phenomenological dimensions in ontology that offer alternative phenomenological methods of investigation in ontology that would contribute to the renewal of philosophy in general and ontology and metaphysics in particular **Thinking about the Environment** T.
