Interpretations of Modern Legal Philosophies Roscoe Pound, 1947 *An Index to Common Law Festschriften* Michael Taggart, 2006-09-01 This is the first ever index of contributions to common law Festschriften and fills a serious bibliographic gap in the literature of the common law The German word Festschrift is now the universally accepted term in the academy for a published collection of legal essays written by several authors to honour a distinguished jurist or to mark a significant legal event The number of Festschriften honouring common lawyers has increased enormously in the last thirty years Until now the numerous scholarly contributions to these volumes have not been adequately indexed This Index fills that bibliographic gap The entries included in this work refer to some 296 common law Festschriften indexed by author subject keyword editor title honorand and date It therefore includes over 5 000 chapter entries In addition there are more than a thousand entries of English language contributions to predominantly foreign language non common law legal Festschriften from Germany Austria Switzerland Denmark Finland Iceland Norway and Sweden **Legal Reasoning, Legal Theory and Rights** Martin P. Golding, 2017-07-05 This book is a selection of articles and chapters published over Martin Golding s academic career Golding s approach to the philosophy of law is that it contains conceptual and normative issues and in this volume logical issues in legal reasoning are examined and various theories of law are critically discussed Normative questions are dealt with regarding the rule of law and criminal law defenses and the concept of rights and the terminology of rights are analyzed Much of Golding s work is critical historical as well as constructive This volume will prove an informative and useful collection for scholars and students of the philosophy of law *International Bibliography on Crime and Delinquency* , 1963 *Jesus and the Laws of Purity* Roger P. Booth, 1987-03-01 The principal concern of this book is to show how uncovering the history of legal development can serve as a control for the conclusions of tradition history In this groundbreaking study the author brings his own professional experience as a lawyer to bear upon questions of Jewish law

and of Gospel criticism Dr Booth first establishes redaction critically and form critically which elements of Mark 7 1 23 are to be assigned to Mark which to the early church and which to the probable legal disputes of Jesus with the Pharisees Then he charts the history of the purity laws determining which legal statements in the text are credible in the situation of AD 30 This methodologically original approach enables him to formulate telling criticisms of some current procedures and conclusions of traditio historical and form critical scholars

Uncertainty in International Law Jörg Kammerhofer, 2010-07-12 Re engaging with the Pure Theory of Law developed by Hans Kelsen and the other members of the Viennese School of Jurisprudence this book looks at the causes and manifestations of uncertainty in international law It considers both epistemological uncertainty as to whether we can accurately perceive norms in international law and ontological problems which occur inter alia where two or more norms conflict The book looks at these issues of uncertainty in relation to the foundational doctrines of public international law including the law of self defence under the United Nations Charter customary international law and the interpretation of treaties In viewing international law through the lens of Kelsen's theory Jörg Kammerhofer demonstrates the importance of the theoretical dimension for the study of international law and offers a critique of the recent trend towards pragmatism and eclecticism in international legal scholarship The unique aspect of the monograph is that it is the only book to apply the Pure Theory of Law as theoretical approach to international law rather than simply being a piece of intellectual history describing it This book will be of great interest to students and scholars of public international law legal theory and jurisprudence

The Language of Canon Law Judith Hahn, 2023 In this book Judith Hahn explores the legal order of the Roman Catholic Church to better understand how the Roman Catholic Church communicates as a legal institution She argues that the language of canon law reveals the political ideology of the church hierarchy and she takes up the tools of language and law scholarship to examine and challenge that language Hahn examines the grammar and terminology of canon law and how canon law language makes use of linguistic tricks and techniques to create its typical sound and discusses the comprehension difficulties that arise out of ambiguities in the law out of transfer problems between legal and common language and out of canon law's confusing mix of legal doctrinal and moral norms

Common Law Marriage Goran Lind, 2008-09-02 The extraordinary recent increase in rates of cohabitation and non marital birth presents a major challenge to traditional family law principles and the legal rules governing cohabitation are thus among the most hotly contested areas of family law and policy today In many nations courts legislatures and law reform bodies are reinventing common law marriage seemingly without any sense of its history doctrinal development or limitations The current law surrounding common law marriage is extremely complex Professor Goran Lind has undertaken the demanding task of writing the most well researched text on this topic to date Separated into three Parts Common Law Marriage covers the origins of the doctrine its legal aspects in modern America and the future of cohabitation law across the globe and in the 11 American jurisdictions that currently recognize common law marriage It provides a cultural and historical

history of the subject from Ancient Roman Law to Medieval Canon Law and analyzes over 2 000 American cases which have utilized the doctrine This timely book is an excellent resource for scholars legislators and policymakers who are interested in the complex legalities of common law marriage *International Law as a Belief System* Jean d'Aspremont,2017-11-09

International Law as a Belief System considers how we construct international legal discourses and the self referentiality at the centre of all legal arguments about international law It explores how the fundamental doctrines such as sources responsibility statehood personality interpretation and jus cogens constrain legal reasoning by inventing their own origin and dictating the nature of their functioning In this innovative work d Aspremont argues that these processes constitute the mark of a belief system This book invites international lawyers to temporarily suspend some of their understandings about the fundamental doctrines they adhere to in their professional activities It aims to provide readers with new tools to reinvent the thinking about international law and combines theory and practice to offer insights that are valuable for both theorists and practitioners *The Sacraments of the Law and the Law of the Sacraments* Judith Hahn,2023-11-23

Sacramentality can serve as a category that helps to understand the performative power of religious and legal rituals Through the analysis of sacraments we can observe how law uses sacramentality to change reality through performative action and how religion uses law to organise religious rituals including sacraments The study of sacramental action thus shows how law and religion intertwine to produce legal spiritual and other social effects In this volume Judith Hahn explores this interplay by interpreting the Catholic sacraments as examples of sacro legal symbols that draw on the sacramental functioning of the law to provide both spiritual and legal goods to church members By focusing on sacro legal symbols from the perspective of sacramental theology legal studies ritual theory symbol theory and speech act theory Hahn s study reveals how law and religion work hand in hand to shape our social reality **Equity and Law** María José Falcón y Tella,2008

Equity is a multi faceted subject an authentic crossroads of problems The perspective of this study is as a result a mix of focuses which includes the philosophy of law general legal theory justice theory the history of law comparative law legal dogma etc In this book as in various earlier studies of the author she uses the three dimensional method which facilitates a stratified focus in agreement with three levels facts norms and values The subject of equity has never been analysed as completely as in this work It includes a dynamic study of the different types of equity throughout history and in the different legal systems the concept content limits functions and types of equity the relationship between equity and related ideas and equity in all the branches of the legal order **The Oxford Handbook of International Arbitration** Thomas Schultz,Federico Ortino,Jason Mitchenson,2020
