

Moral Dilemma and Ethics: Moral Philosophy

✓ Exclusively available on IvyPanda

Individuals frequently face moral dilemmas in life, forcing them to make choices beyond their moral convictions and other commitments. The divine command and natural law ethics are the two main perspectives on how people can use their freedom to make decisions (Ben-Menahem & Ben-Menahem, 2020). The first holds that since God created the world knowing what would be best for people, humans must slavishly obey the divine laws and commandments. It is entirely objective to determine if anything is right or bad: It is right if God mandates it, and it is wrong if God prohibits it (Rachels & Rachels, 2015). According to natural law ethics, God created everything in the world with a purpose, which has the ultimate goal - to achieve good for man. Therefore, people can make decisions on their own, based on the principle that the main thing is to achieve the best result.

If I were in the described situation as a nurse, I would mainly follow the laws. In case there is a need to get parental consent for a blood transfusion, then I would not do it without such a document. Natural law ethics would say that morally right and good is what contribute to the prosperity of humankind, therefore, it is necessary to save human life. If everything is in order with the legal side and the only question is a moral choice, I would do everything to save the child. The parents' beliefs are their business, the child is not the parent's property, and the main thing is their life. I agree with what a natural law ethicist would say because the doctor knows the ultimate objective - saving a life and can take measures to achieve the goal.

The divine command ethicist in this situation would say not to do a blood transfusion because God forbids it. I disagree with this point of view, even if it contradicts the parents' beliefs, because even from the religious side, a person has a value, and one must fight for life. An emotivist would say that my decision is based on the fact that I do not like members of religious groups. I do not like it when people die because, according to this theory, there is no morality - only an individual assessment of the situation. In ethics, subjectivity unquestionably plays a significant role because, when faced with a moral choice, people make their own decisions.

Essays On Moral Philosophy:

Virtues and Vices Philippa Foot, 2002-10-17 Foot stands out among contemporary ethical theorists because of her conviction that virtues and vices are more central ethical notions than rights duties justice or consequences the primary focus of most other contemporary theorists This volume brings together a dozen essays published between 1957 and 1977 and includes two new ones as well In the first Foot argues explicitly for an ethic of virtue and in the next five discusses abortion euthanasia free will determination and the ethics of Hume and Nietzsche The final eight essays chart her growing disenchantment with emotivism and prescriptivism and their account of moral arguments All the essays embody to some extent her commitment to an ethics of virtue Foot's style is straightforward and readable her arguments subtle ingenious and some of them important Choice All in all this collection of essays provides much to whet the moral philosopher's appetite International Philosophical Quarterly

Explaining Value Gilbert Harman, 2000-08-17 Explaining Value is a selection of the best of Gilbert Harman's shorter writings in moral philosophy The thirteen essays originally published between 1967 and 1999 are divided into four sections which focus in turn on moral relativism values and valuing character traits and virtue ethics and ways of explaining aspects of morality An indication of the breadth of interest of the book can be given by mentioning a few of the compelling questions which Harman discusses What accounts for the existence of basic moral disagreements Why do most people think it is worse to injure someone than to fail to save them from injury Why do many people think it is morally permissible to treat animals in ways we would not treat people What is it to value something and what is it to value something intrinsically How much of morality can or should be explained in terms of human flourishing or the possession of virtuous character traits How do people come to be moral Harman's distinctive approach to moral philosophy has provoked much interest this volume offers a fascinating conspectus of his most important work in the area

Essays in Moral Philosophy Abraham Irving Melden, 1958 *The Ethics of Reason* Frank Alfred Lea, 1975 *Broad's Critical Essays in Moral Philosophy (Routledge Revivals)* David Cheney, 2013-10-18 The ideas of C D Broad have affected the work of moral philosophers throughout the twentieth century to the present day First published in 1971 this edited volume contains Broad's best essays on the philosophical problems of Ethics mostly written and published between 1914 and 1964 Among the essays are Broad's important critiques of G E Moore's ethical theory his lecture entitled Determinism Indeterminism and Libertarianism and other pieces discussing topics as broad as Conscience Egoism and Free Will This reissue serves as an important companion to Broad's other works a number of which have also been reissued within the Routledge Library Editions series and will be invaluable to students interested in Broad's theories and twentieth century philosophical thought *In the Interests of Others* Phillip Montague, 2012-12-06 Are we morally required to act in the interests of others Does our worth as persons depend in any way on our valuing the good of others These questions illustrative of those addressed in this book concern the relevance of other interested considerations of facts about what is

good or bad for others to the moral status of persons and their actions Pursuing answers to such questions is not only interesting and important in its own right but also yields valuable insights in to the nature of morality A distinguishing feature of the book is its unusually comprehensive treatment of the moral significance of other interested considerations per se of how these considerations are interrelated and of where they should be located in more general moral theory It will be of greatest interest to individuals with fairly well developed philosophical interests and abilities to teachers and advanced students of moral philosophy in particular

New Essays in Moral Philosophy Ellen F. Paul, David Schmidtz, Jeffrey Paul, Fred D. Miller, Jr, 2014-08

Essays on the History of Moral Philosophy J. B. Schneewind, 2009-12-03 J B Schneewind presents a selection of his published essays on ethics the history of ethics and moral psychology together with a new piece offering an intellectual autobiography The volume ranges across the seventeenth

eighteenth and nineteenth centuries it includes Schneewind's early anti foundationalist *Moral Knowledge and Moral Principles* the classic *The Misfortunes of Virtue* and other early essays on Kant's relation to pre Kantian moral philosophy also a long piece on *The Active Powers* and Schneewind's own interpretation of Kant's moral philosophy These writings provide excellent introductions to Schneewind's two long books and supplement them in important ways *The Justification of the Good* Solovyov Vladimir Sergeyevich, 2022-10-26 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *The Variety of Values* Susan Wolf, 2014-11-26 For over thirty years Susan Wolf has been writing about moral and nonmoral values and the relation between them This volume collects Wolf's most important essays on the topics of morality love and meaning ranging from her classic essay *Moral Saints* to her most recent *The Importance of Love* Wolf's essays warn us against the common tendency to classify values in terms of a dichotomy that contrasts the personal self interested or egoistic with the impersonal altruistic or moral On Wolf's view this tendency ignores or distorts the significance of such values as love beauty and truth and neglects the importance of meaningfulness as a dimension of the good life These essays show us how a self conscious recognition of the variety of values leads to new understandings of the point the content and the limits of morality and to new ways of thinking about happiness and well being *Drawing Morals* Thomas Hurka, 2011-07-18 This volume contains selected essays in moral and political philosophy by Thomas Hurka The essays address a wide variety of topics from the well rounded life and the value of playing games to proportionality in war and the ethics of nationalism They also share a common aim to illuminate the surprising richness and subtlety of our everyday moral thought by revealing its underlying structure which they often do by representing that structure on graphs More specifically the essays all give what the first in the volume calls structural as against foundational analyses of moral views Eschewing the grander ambition of grounding our ideas about say virtue or desert in claims that use different concepts and concern some other allegedly more fundamental topic they examine these ideas in their own right and with close attention to their details As well as illuminating their individual topics the essays illustrate the insights this structural method can yield *Essays in Legal and Moral Philosophy* H. Kelsen, 2012-12-06 In his choice of texts the Editor has been faced with the difficult task of selecting from among the author's more than 600 publications those of the greatest philosophical interest It is chiefly the topics of value relativism and the logic of norms that have been kept in view The selection has also been guided by the endeavour to reprint so far as possible texts which have not hitherto appeared in English At times however this aim has had to be discarded in order to include

works of key importance and also the latest expressions of Kelsen's view. In addition to the two topics already mentioned the Editor has considered Kelsen's discussions of the causal principle to be so far worthy of philosophical attention that some writings on causality and accountability have been included in this collection of philosophical studies. Revival: Ethical Principles in Theory and Practice (1930) W. H. Johnston B. a, 2018-01-03

Almost all the existing modern systems of Ethics deal with formal definitions and at bottom repeat more or less the same thing about them in slightly different words. In this work these are a side issue and therefore are treated briefly. Their treatment in Section I is based upon the author's theoretical works, the Theory of Order and the Theory of Reality, but will be intelligible to those who are not acquainted with those works. The chief concern is moral teaching that is the practical element.

Morality in a Realistic Spirit Andrew Gleeson, Craig Taylor, 2019

This unique collection of essays has two main purposes. The first is to honour the pioneering work of Cora Diamond, one of the most important living moral philosophers and certainly the most important working in the tradition inspired by Ludwig Wittgenstein. The second is to develop and deepen a picture of moral philosophy by carrying out new work in what Diamond has called the realistic spirit. The contributors in this book advance a first order moral attitude that pays close attention to actual moral life and experience. Their essays, inspired by Diamond's work, take up pressing challenges in Anglo-American moral philosophy, including Diamond's defence of the concept human being in ethics, her defence of literature as a source of moral thought that does not require external sanction from philosophy, her challenge to the standard fact-value dichotomy and her exploration of non-argumentative forms of legitimate moral persuasion. There are also essays that apply this framework to new issues such as the nature of love, the connections of ethics to theology and the implications of Wittgenstein's thought for political philosophy. Finally, the book features a new paper by Diamond in which she contests deep-rooted philosophical assumptions about language that severely limit what philosophers see as the possibilities in ethics. *Morality in a Realistic Spirit* offers a tribute to a great moral philosopher in the best way possible by taking up the living ideas in her work.

and taking them in original and interesting directions *Moral Powers, Fragile Beliefs* Joseph Carlisle, James Carter, Daniel Whistler, 2011-02-17 Ethical Principles In Theory And Practice An Essay In Moral Philosophy Hans Driech, 2018-03-02 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it.
