NPNF2-04. Athanasius: Select Works and Letters, Our Knowledge of God K.J. Clark, 2012-12-06 Natural theology is the project of articulating defending and CntlClzmg arguments for the existence and nature of God without the aid of special revelation Philosophical theology which employs the rational methods of natural theology is not restricted to premises that are discernible through observation and reason it may rightly employ premises that are knowable through special revelation While the project of natural theology may be construed as an attempt to demonstrate God's existence one cannot ignore the importance of using reason or experience to understand determine or assess attributes One will want to know at the conclusion of a proof in natural God's theology if one has proved the existence of God and not merely the *prim urn mobilum* source of moral obligation or a committee of finite designers while God may be the prime mover and designer of the cosmos none of these attributes alone is sufficient for making a claim to divinity It is therefore difficult to distinguish sharply the project of natural theology from philosophi cal theology The project of classical natural theology has been the attempt to prove God's existence and nature with arguments that employ premises that all rational creatures are obliged to accept *Inquiring about God: Volume 1, Selected Essays* Nicholas

Wolterstorff, 2010-02-04 *Inquiring about God* is the first of two volumes of Nicholas Wolterstorff's collected papers This volume collects Wolterstorff's essays on the philosophy of religion written over the last thirty five years The essays which span a range of topics including Kant's philosophy of religion the medieval or classical conception of God and the problem of evil are unified by the conviction that some of the central claims made by the classical theistic tradition such as the claims that God is timeless simple and impassible should be rejected Still Wolterstorff contends rejecting the classical conception of God does not imply that theists should accept the Kantian view according to which God cannot be known Of interest to both

philosophers and theologians Inquiring about God should give the reader a lively sense of the creative and powerful work done in contemporary philosophical theology by one of its foremost practitioners *EVERYTHING HAPPENS FOR US* Feza Karakaş, 2020-03-30 Life is simple Everything happens for you not to you Everything happens at exactly the right moment neither too soon nor too late You don't have to like it it's just easier if you do Byron Katie This book has been created with what the participants of the FMK Wisdom School shared from the bottom of their hearts The participants of FMK Wisdom School shared their experiences of the times when they believed negative and stressful thoughts arguing with reality and of the times when they didn't believe them They wrote about their processes and transformations during their journey of love in action by giving examples They created this book in their journey to themselves with the consciousness of considering everyone complete and whole as they are and by realizing the person they have been waiting for was themselves These people who have changed their lives with Byron Katie's The Work method 4 questions and Turnarounds have things to say to you We invite you to hear us Real happiness is the unconditional happiness that exists in the present moment beyond ego consciousness Feza Karakaş **Psypanics For Conversations With God: The Technology to Return to the ONE** Thomas Michael Powell, God's Autopsy and the Living Truth of Soul Hal Childs, 2022-08-22 The Grand Narrative of Christianity that the Bible created is dead and the Bible is silent Does the Bible have anything relevant to say to our modern circumstances We ask where did God come from What happened to God God's Autopsy reinterprets soul and God as historical psychological phenomena related to the cultural structure of consciousness the invisible shared context of thought which has changed dramatically over the past three millennia This book offers a new way to understand the trajectory of Western civilization by making the implicit foundation of Western consciousness soul visible and conscious Our modern Western consciousness is radically different from that of antiquity when the Bible emerged Jung's psychological philosophical insight that whenever we speak about the psyche it is the psyche speaking about itself leads to the realization that today consciousness has come home to itself Beginning with preliterate polytheism the emergence of the transcendent god Yahweh and Christ which led directly to the Enlightenment objective soul continues to unfold itself How did late modernity become a topsy turvy quantum virtual digital impersonal and abstract world that appears to be running away from us The answer is unexpectedly and shockingly in the Bible itself
