Pillars in the History of Biblical Interpretation, Volume 2 Stanley E. Porter, Sean A. Adams, 2016-11-03 This two volume set is part of a growing body of literature concerned with the history of biblical interpretation The ample introduction first situates key players in the story of the development of the major strands of biblical interpretation since the Enlightenment identifying how different theoretical and methodological approaches are related to each other and describing the academic environment in which they emerged and developed Volume 1 contains fourteen essays on twenty two interpreters who were principally active before 1980 and volume 2 has nineteen essays on twenty seven of those who were active primarily after this date Each chapter provides a brief biography of one or more scholars as well as a detailed description of their major contributions to the field This is followed by an often new application of the scholar's theory By focusing on the individual scholars and their work the book recognizes that interpretive approaches arise out of certain circumstances and that scholars are influenced by and have influences upon both other interpreters and the times in which they live This set is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the current field of biblical studies developed *The Rebel Den of Nung Tri Cao* James A. Anderson, 2012-09-01 The Rebel Den of Nung Tri Cao examines the rebellion of the eleventh century Tai chieftain Nung Tri Cao ca 1025 1055 whose struggle for independence along Vietnam's mountainous northern frontier was a pivotal event in Sino Vietnamese relations Tri Cao's revolt occurred during Vietnam's earliest years of independence from China and would prove to be a vital test of the Vietnamese court's ability to confront local political challenges and maintain harmony with its powerful northern neighbor Tri Cao established his first kingdom in 1042 at the age of seventeen but was captured by Vietnamese troops After his release in 1048 he announced the founding of a second kingdom but an attack by Vietnamese forces drove him to flee into Chinese territory Tri Cao made his final attempt in 1052 proclaiming a new kingdom and leading thousands of his subjects in a revolt that swept across the South China coast But within a year Chinese imperial troops had forced him to flee to the nearest independent kingdom Official Chinese and Vietnamese accounts of the rebel leader's end vary according to the Chinese the ruler of the

independent kingdom had Tri Cao executed but in popular accounts Tri Cao was granted safe passage into northern Thailand where his descendants are said to flourish today Scholar James Anderson places Tri Cao in context by exploring the Sino Vietnamese tributary relationship and the conflicts that engaged both the Song and Vietnamese courts The Rebel Den of Nung Tri Cao reconstructs the series of negotiations that took place between border communities and representatives of the imperial courts examining the ways in which Tai and other ethnic groups deftly navigated the unstable political situation that followed the demise of China's cosmopolitan Tang dynasty Though his rebellion was ill fated Tri Cao is almost a thousand years later still worshipped in temples along the Sino Vietnamese border and his memory provides a point of unity for people who have become separated by modern political boundaries

Reconstructing Agency in Developmental and Educational Psychology Paul Downes, 2019-09-05 This book reconstructs the foundations of developmental and educational psychology and fills an important gap in the field by arguing for a specific spatial turn so that human growth experience and development focus not only on time but space This regards space not simply as place Highlighting concrete cross cultural relational spaces of concentric and diametric spatial systems the book argues that transition between these systems offers a new paradigm for understanding agency and inclusion in developmental and educational psychology and for relating experiential dimensions to causal explanations The chapters examine key themes for developing concentric spatial systemic responses in education including school climate bullying violence early school leaving prevention and students voices Moreover the book proposes an innovative framework of agency as movement between concentric and diametric spatial relations for a reconstruction of resilience This model addresses the vital neglected issue of resistance to sheer cultural conditioning and goes beyond the foundational ideas of Bronfenbrenner's ecological systems theory as well as Vygotsky

Skinner Freud Massey Bruner Gestalt and postmodern psychology to reinterpret them in dynamic spatial systemic terms
 Written by an internationally renowned expert this book is a valuable resource for academics researchers and postgraduate students in the areas of educational and developmental psychology as well as related areas such as personality theory health psychology social work teacher education and anthropology **The Make-Believe Space** Yael Navaro-Yashin, 2012-03-12
 Looks at the Turkish territory of Northern Cyprus a self defined state which is actually imaginary because it is only recognized by Turkey This title examines the sense of haunted property and objects lost and gained in the partition along with people's relation to the fictive remapping of places and history by this new state **Living with the Gods** Neil MacGregor, 2018-09-17
 Following the award winning BBC Radio 4 series a panoramic exploration of people's objects and beliefs from the celebrated author of A History of the World in 100 Objects and Germany Riveting extraordinary tells the sweeping story of religious belief in all its inventive variety The emphasis is not on our differences but on shared spiritual yearnings Rachel Campbell Johnston The Times Books of the Year One of the central facts of human existence is that every society shares a set of beliefs and assumptions a faith an ideology a religion that goes far beyond the life of the individual These beliefs are an essential part of a shared identity They have a unique power to define and to divide us and are a driving force in the politics of much of the world today Throughout history they have most often been in the widest sense religious Yet this book is not a history of religion nor an argument in favour of faith It is about the stories which give shape to our lives and the different ways in which societies imagine their place in the world Looking across history and around the globe it interrogates objects places and human activities to try to understand what shared beliefs can mean in the public life of a community or a nation how they shape the relationship between the individual and the state and how they help give us our sense of who we are For in deciding how we live with our gods we also decide how to live with each other The new blockbuster by the museums maestro Neil MacGregor The man who chronicles world history through objects is back examining a new set of objects to explore the theme of faith in society Sunday Times Contemporary Society: xvii, 325 p. Includes index Includes lit.refs Deepak Kumar Behera, Georg Pfeffer, 2002 E.M. Forster and The Politics of Imperialism M. Shaheen, 2004-06-29
 In Howards End Forster remarks that the Imperialist hopes to inherit the earth and with the strong temptation he has to acclaim it as a superego man who carries his country's virtue overseas He then adds But the Imperialist is not what he thinks or seems He is a destroyer He prepares the way for cosmopolitanism and though his ambitions may be fulfilled the earth that he inherits will be grey This simple notion is masterly expressed in A Passage to India which provides a rich diversity of historical contexts and implies political imperatives urging us to rethink the complex relationship between East and West not as simple confrontation but rather as deeply rooted in cultural differences far beyond the realm of imperialist sensibility With the support of material by Forster published here for the first time this volume explores the realm of Forster's politics and imperialism Economy and Ritual Stephen Gudeman, Chris Hann, 2017-05 According to accepted

wisdom rational practices and ritual action are opposed Rituals drain wealth from capital investment and draw on a mode of thought different from practical ideas The studies in this volume contest this view Comparative historical and contemporary the six ethnographies extend from Macedonia to Kyrgyzstan Each one illuminates the economic and ritual changes in an area as it emerged from socialism and re entered market society Cutting against the idea that economy only means markets and that market action exhausts the meaning of economy the studies show that much of what is critical for a people s economic life takes place outside markets and hinges on ritual understood as the negation of the everyday world of economising

Flowers That Kill Emiko Ohnuki-Tierney, 2015-08-12 Flowers are beautiful People often communicate their love sorrow and other feelings to each other by offering flowers like roses Flowers can also be symbols of collective identity as cherry blossoms are for the Japanese But are they also deceptive Do people become aware when their meaning changes perhaps as flowers are deployed by the state and dictators Did people recognize that the roses they offered to Stalin and Hitler became a propaganda tool Or were they like the Japanese who including the soldiers did not realize when the state told them to fall like cherry blossoms it meant their deaths *Flowers That Kill* proposes an entirely new theoretical understanding of the role of quotidian symbols and their political significance to understand how they lead people if indirectly to wars violence and even self exclusion and self destruction precisely because symbolic communication is full of ambiguity and opacity Using a broad comparative approach Emiko Ohnuki Tierney illustrates how the aesthetic and multiple meanings of symbols and at times symbols without images become possible sources for creating opacity which prevents people from recognizing the shifting meaning of the symbols *Theorizing Rituals, Volume 1: Issues, Topics, Approaches, Concepts* Jens Kreinath, J.A.M.

Snoek, Michael Stausberg, 2018-08-14 Volume one of *Theorizing Rituals* assembles 34 leading scholars from various countries and disciplines working within this field The authors review main methodological and meta theoretical problems part I followed by some of the classical issues part II Further chapters discuss main approaches to theorizing rituals part III and explore some key analytical concepts for theorizing rituals part IV The volume is provided with extensive indices **How to**
