Funding Of Political Parties In Britain:

The Funding of Political Parties in Britain Keith D. Ewing, 1987-05-21 This study of the way in which political parties are funded examines in detail the corporate funding of the Conservative Party and trade union funding of the Labour Party. In so doing the author considers the legal implications of this activity. The election expenditures of the parties come under scrutiny as does the role of the state in contributing to their financial well being. The concluding chapters consider arguments for more extensive public funding of the political parties as proposed by both the Houghton Committee in 1976 and the Hansard Society in 1981. In considering this issue the author draws heavily on Swedish experience and throughout the book reference is made where appropriate to developments in other jurisdictions including the United States, Canada and West Germany. This important subject is addressed from a legal perspective though the book is written in a clear and forthright style accessible to lawyers and non lawyers alike. The Funding of Political Parties Keith Ewing, Jacob

Rowbottom, Joo-Cheong Tham, 2012-01-25 This book explores the problems associated with regulating the funding of political parties and election campaigns in a timely assessment of a topic of great political controversy. From interest in Obama's capacity to raise vast sums of money to scandals that have rocked UK and Australian governments, party funding is a global issue reflected in this text with case studies from Australia, Canada, New Zealand, United Kingdom and the United States. Taking an interdisciplinary approach with leading scholars from politics, geography and law, this text addresses key themes: contributions, spending, controls, the role of broadcasters and special interests and the role of the state in funding political parties. With regulatory measures apparently unable to change the behaviour of parties, why have existing laws failed to satisfy the demands for reform and what kind of laws are necessary to change the way political parties behave? The Funding of Political Parties Where Now brings fresh comparative material to inform this topical and intractable debate and assesses the wider implications of continuing problems in political funding. This book will be of interest to students and scholars of political science, political theory, policy and law. Political Parties in the UK Alistair Clark, 2018-08-22

The second edition of this popular textbook provides a systematic and comprehensive introduction to UK party politics, combining chapters on each of the main parties: Conservative, Labour, the Liberal Democrats and the Scottish National Party, with an assessment of post-devolution Scotland, Wales and Northern Ireland. Clark analyses the extraordinary recent developments in UK politics including Brexit, the 2015 and 2016 Labour leadership contests and the surprise 2017 general election, exploring how these events have impacted the political parties, the people of the UK and the UK's position in the world. The book also covers the rise of minority parties such as UKIP, the influence of the media and party campaigning organisation and funding. Written in an accessible style, this new edition is an essential companion for students taking modules on British Political Parties, Party Politics or British Politics more generally, as well as functioning as a useful background text for modules in Comparative Political Parties. It is an ideal introduction for all readers new to the topic. New to this Edition: A new chapter on the Scottish

National Party takes account of their rise their role as a governing party in Scotland and becoming the third largest party at Westminster Up to date coverage of all the latest developments affecting UK political parties including the Scottish referendum the 2015 and 2017 general elections the 2016 devolved elections and Brexit Extended coverage of the rise and fall of UKIP

Handbook of Political Party Funding Jonathan Mendilow, Eric Phélippeau, 2018-01-26 Scrutinizing a relatively new field of study the Handbook of Political Party Funding assesses the basic assumptions underlying the research presenting an unequalled variety of case studies from diverse political finance systems

Funding of Political Parties and Election Campaigns, 2014-04-01 All political parties need funding to play their part in the political process yet the role of money in politics is arguably the biggest threat to democracy today This global threat knows no boundaries and is evident across all continents from huge corporate campaign donations in the United States and drug money seeping into politics in Latin America to corruption scandals throughout Asia and Europe Attempts to tackle these challenges through political finance laws and regulations are often undermined by a lack of political will or capacity as well as poorly designed and enforced measures This Handbook addresses the problems of money in politics by analysing political finance regulations around the world and providing guidance for reform The chapters are divided by region each assesses the current state of regulations in relation to its challenges and offers a series of recommendations to tackle the identified shortcomings This contextual approach has the benefit of revealing regional trends and patterns An additional chapter focuses on gender reflecting the reality that women remain grossly under represented in politics and how the increasing influence of money in politics perpetuates this inequality

Party Finance and Expenditure in the United Kingdom Great Britain. Ministry of Justice, 2008 This paper presents the Government's proposals on party funding which follow the broad approach outlined by Sir Hayden Phillips in his report Strengthening democracy fair and sustainable funding of political parties 2007 ISBN 9780108507113 It also takes account of the Constitutional Affairs Committee report Party funding first report of session 2006-07 HC 163 I ISBN 9780215031853 and the Committee on Standards in Public Life's CSPL Review of the Electoral Commission Cm 7006 ISBN 9780101700627 The Government proposes to clarify the Electoral Commission's role as an effective regulator of party funding and campaign expenditure to provide it with a widened range of sanctions and investigatory powers and to change the various bars and rules on the appointment of Commissioners and recruitment of staff if they have recently been involved in political activity to increase the number of Commissioners to ten The Government also agrees with the CSPL recommendation that responsibility for setting electoral boundaries should be removed from the Commission and the Boundary Committee for England should become an independent body It is widely agreed that perceived excessive spending by political parties is a cause of public concern and the Government will update and broaden the

definition of campaign spending and aim for the agreement of all parties based on Sir Hayden's package of proposals for comprehensive spending limits. The paper also reviews the case for a donation cap and public funding of political parties. A cap of 50,000 had been suggested by Sir Hayden but the Government believes a lower limit would be appropriate. Greater transparency on donations is essential. On public funding, the Government acknowledges the wide differences of opinion on how best to achieve reform and does not intend to legislate until some consensus is reached with all parties.

Political Power and Democratic Control in Britain David Beetham, Stuart Weir, 2002-09-11. Democratic Institutions and Practices is the second study carried out under the Democratic Audit of the UK. This volume explores the formal institutions and processes of the liberal democratic state including the executive, elections, parliament and the civil service.

Funding Democratization Milton Konvitz, 2017-07-12. Democracy is a fine political system but an expensive economic venture. Political parties and election campaigns cost money. Where does the money come from and at what sacrifice? Issues connected with political finance are significant but often neglected aspects of the process of democratization. *Funding Democratization* examines how money and politics interact in emerging democracies. The contributors investigate the funding of political parties in early North America, financial uncertainties of party formation in European countries, funding of democratization in new democracies and the influence of funding on contenders for power. They also address the nature of political competition in countries that are seeking to embrace, often for the first time, the rules of democracy. They question in what ways politicians can help make democracy affordable. The volume compares important democratizing countries such as Russia, Brazil, South Africa, Spain and the regions of East Asia and East Central Europe. It also investigates the lessons that emerging democracies can learn from the history of political finance in today's more established democracies. *Funding Democratization* will be of interest to political scientists and specialists in international social and political development.

Money and Electoral Politics Ron Johnston, Charles Pattie, 2014-05-27. Political parties are crucial to British democracy, providing the foundations for mobilising voters. Their constituency branches are key links between voters and Parliamentary candidates and their activities require two vital resources: people and money. Much has been written on the decline of party membership but far less on money. In this much-needed new book, Ron Johnston and Charles Pattie use the latest research and hitherto unpublished material to explore financial differences across the UK's three main parties in the four years leading up to the 2010 General Election. They look at how much local parties raise for election campaigns and find that the more money candidates spend, the better their performance. Analyses of their annual accounts, however, show that many local parties are unable to raise all of the money that they are entitled to spend on such campaigns. This reveals an unhealthy picture of grassroots party organisation in which the capacity to engage effectively with many voters is concentrated in a relatively small number of constituencies and is likely to remain so. This timely and essential book will make a major contribution to the literature on British elections and parties, especially to continuing debates regarding party funding. It will make important
