Heirs of an Ambivalent Empire Scott Berthelette, 2022-07-19 The fur trade was the heart of the French empire in early North America The French Canadian Canadien men who traversed the vast hinterlands of the Hudson Bay watershed trading for furs from Indigenous trappers and hunters were its cornerstone Though the Canadiens worked for French colonial authorities they were not unwavering agents of imperial power Increasingly they found themselves between two worlds as they built relationships with Indigenous communities sometimes joining them through adoption or marriage raising families of their own The result was an ambivalent empire that grew in fits and starts It was guided by imperfect information built upon a contested Indigenous borderland fragmented by local interests and periodically neglected by government administrators Heirs of an Ambivalent Empire explores the lives of the Canadiens who used family and kinship ties to navigate between sovereign Indigenous nations and the French colonial government from the early 1660s to the 1780s Acting as cultural intermediaries the Canadiens made it possible for France to extend its presence into northwest North America Over time however their uncertain relationships with the French colonial state splintered imperial authority leading to an outcome that few could have foreseen the emergence of a new Indigenous culture language people and nation the Métis

Gateways to Empire Daniel J. Weeks, 2019-07-15 In *Gateways to Empire* Quebec and New Amsterdam to 1664 historian Daniel Weeks has provided the first comprehensive comparative study of the North American fur trading colonies New France and New Netherland While neither colony profited very much if at all from the fur trade though many individuals

fortunes were undoubtedly made Weeks finds that New France which far outpaced New Netherland in this trade grew more slowly and had greater difficulty sustaining itself As he demonstrates in Gateways to Empire other factors including New Netherland's openness to religious and ethnic diversity and wider connections to the Atlantic World allowed it to become more economically secure than its rival north of the St Lawrence And yet in both cases the principal towns of these European colonies Quebec and New Amsterdam moved beyond their initial purposes as hubs for trade with the indigenous peoples to become gateways to European settlement In this New Amsterdam by the late 1640s was singularly successful so that it rapidly fostered the production of new European towns in its hinterlands organizing the landscape for settlement and also for trade within the European dominated Atlantic World system **Proceedings of the Royal Society of Canada** Royal

Society of Canada,1908 **The Killing Age** Clifton Crais,2025-11-14 A bracing account of how our current planetary crisis emerged from the worst cataclysmic destruction in human history which Clifton Crais terms the Mortecene the killing age We are used to speaking of the Anthropocene and the outsized impact humans have had on the planet But we sometimes lose sight of a fundamental truth at the heart of modern world history the legacy of human predation slavery and imperialism that has devastated the natural world and led us to our present moment As historian Clifton Crais shows in this magisterial work the period that we most associate with human progress which gave us the Enlightenment the rise of democracies the Industrial Revolution and more was at the same time catastrophically destructive In this bracing landmark book Crais urges us to view the growth of global capitalism between 1750 and the early 1900s not as the Anthropocene but as the Mortecene the Killing Age Killing brought the world together and tore it apart as profiteering warlords committed mass scale slaughter of humans and animals across Africa Asia and the Americas The newfound ease and profitability of killing created a disturbing network of global connections and economies eliminating tens of millions of people and sparking an environmental crisis that remains the most urgent catastrophe facing the world today Drawing on years of scholarship and marshaling myriad sources across world history The Killing Age turns our vision of past and present on its head illuminating the Mortecene in all its horror how it shaped who we are what we value and fear and the precarious present we inhabit today
