Yeshaya, 2010-11-11 Moses ben Abraham Dar born in Alexandria into a family of Moroccan Jewish immigrants lived in Egypt in the middle of the twelfth century Though he visited Damascus and Jerusalem he spent most of his professional life as a physician and poet in the Karaite community of Fus Cairo This study offers an annotated edition of secular poems taken from the earliest manuscript NLR Evr I 802 dated to the fifteenth century The Hebrew text and Judaeo Arabic heading of each poem are provided in the original order attested in the manuscript The introduction to this edition seeks to evaluate Dar s poetry in the light of the Andalusian Hebrew poetical tradition and within the context of Hebrew literary activity in the Muslim East This learned book displays sound rigorous scholarship in the best tradition of the philological historical method It also provides solid ground for further work by scholars with different agendas different scholarly interests and different methodologies in the study of medieval Hebrew poetry On all accounts it is a welcome and most valuable addition to the field

Poverty and Charity in the Jewish Community of Medieval Egypt Mark R. Cohen, 2009-01-10 What was it like to be poor in the Middle Ages In the past the answer to this question came only from institutions and individuals who gave relief to the less fortunate This book by one of the top scholars in the field is the first comprehensive book to study poverty in a premodern Jewish community from the viewpoint of both the poor and those who provided for them Mark Cohen mines the richest body of documents available on the matter the papers of the Cairo Geniza These documents located in the Geniza a hidden chamber for discarded papers situated in a medieval synagogue in Old Cairo were preserved largely unharmed for more than nine centuries due to an ancient custom in Judaism that prohibited the destruction of pages of sacred writing Based on these papers the book provides abundant testimony about how one large and important medieval Jewish community dealt with the constant presence of poverty in its midst Building on S D Goitein s Mediterranean Society and inspired also by research on poverty and charity in medieval and early modern Europe it provides a clear window onto the daily lives of the poor It also illuminates private charity a subject that has long been elusive to the medieval historian In addition Cohen s work functions as a detailed case study of an important phenomenon in human history Cohen concludes that the relatively narrow gap between the poor and rich and the precariousness of wealth in general combined to make charity one of the major agglutinates of Jewish associational life during the medieval period

Medieval Multilingual Manuscripts Michael Clarke, Máire Ní

Mhaonaigh,2022-04-04 Manuscripts provide rich documentary evidence for understanding the history of cultural life across the breadth of Europe and Asia down through the Middle Ages Many illustrate engagement between and across languages in both similar and contrasting ways from east to west The demarcation of manuscript studies into single language academic disciplines has often obscured this reality privileging one constituent part or contributing language from each manuscript rather than exploring the combination as a nuanced and complex whole This volume seeks to examine manuscripts as integrally united artefacts respecting the diversity of their constituent elements Case studies are presented of twelve manuscripts with evidence for various levels of inter language exchange and collision from horizons as diverse as the Atlantic West Carolingian Europe the Byzantine world the Silk Road cultures and east Asia The essays function individually as discrete contributions but together they highlight a range of overlapping themes illustrating language interaction in global religions pedagogical exchange and secular society building The analogies as well as the concrete points of connection between them underline the value of a cross disciplinary approach

Throughout history, the study of sacred texts has focused almost exclusively on the content and meaning of these writings. Such a focus obscures the fact that sacred texts are always embodied in particular material forms, from ancient scrolls to contemporary electronic devices. Using the digital turn as a starting point, this volume highlights material dimensions of the sacred texts of Judaism, Christianity, and Islam. The essays in this collection investigate how material aspects have shaped the production and use of these texts within and between the traditions of Judaism, Christianity, and Islam from antiquity to the present day. Contributors also reflect on the implications of transitions between varied material forms and media cultures. Taken together, the essays suggest that materiality is significant for the academic study of sacred texts as well as for reflection on developments within and between these religious traditions. This volume offers insightful analysis on key issues related to the materiality of sacred texts in the traditions of Judaism, Christianity, and Islam while also highlighting the significance of transitions between various material forms, including the current shift to digital culture. Early Medieval Rome and the Christian West, 2021-10-01

This illustrated book is a coherently conceived collection of interdisciplinary essays by distinguished authors on the city of Rome and its contacts with western Christendom in the early Middle Ages c. 500-1000 AD. The first part integrates historical, archaeological, numismatic, and art historical approaches to studying the transition of the city of Rome from Antiquity to the Middle Ages and offers groundbreaking new analyses of selected sites and problems. Attention is given to the economic, social, religious, and cultural history of the city. In the second part of the volume, historical, archaeological, liturgical, and palaeographical approaches address Rome's contacts and influence in Latin Christendom in this period, with particular regard to Rome's place within Italian politics and its cultural influence in Carolingian Francia and Anglo-Saxon England. The Medieval Islamic Hospital Ahmed Ragab, 2015-10-14

The first monograph on Islamic hospitals, this volume examines their origins, development, architecture, social roles, and connections to non-Islamic institutions. **The Oxford Handbook of the Abrahamic Religions** Adam Silverstein, Guy G. Stroumsa, Moshe Blidstein, 2015-10-01

The Oxford Handbook of the Abrahamic Religions includes authoritative yet accessible studies on a wide variety of topics dealing comparatively with Judaism, Christianity, and Islam as well as with the interactions between the adherents of these religions throughout history. The comparative study of the Abrahamic Religions has been undertaken for many centuries. More often than not, these studies reflected a polemical rather than an ecumenical approach to the topic. Since the nineteenth century

the comparative study of the Abrahamic Religions has not been pursued either intensively or systematically and it is only recently that the comparative study of Judaism Christianity and Islam has received more serious attention This volume contributes to the emergence and development of the comparative study of the Abrahamic religions a discipline which is now in its formative stages This Handbook includes both critical and supportive perspectives on the very concept of the Abrahamic religions and discussions on the role of the figure of Abraham in these religions It features 32 essays by the foremost scholars in the field on the historical interactions between Abrahamic communities on Holy Scriptures and their interpretation on conceptions of religious history on various topics and strands of religious thought such as monotheism and mysticism on rituals of prayer purity and sainthood on love in the three religions and on fundamentalism The volume concludes with three epilogues written by three influential figures in the Christian Jewish and Muslim communities to provide a broader perspective on the comparative study of the Abrahamic religions This ground breaking work introduces readers to the challenges and rewards of studying these three religions together
