Gravity Goldberg, 2015-08-24. What if you could have an owner's manual on reading ownership? What if there really were a framework for building students' agency and independence? There's no what if about it. When it comes to teaching reading, Gravity Goldberg declares there is a structure, one that works with your current curriculum to help readers take charge. The way forward, Gravity says, lies in admiring, studying, and really getting to know your students. Consider *Mindsets and Moves*, your guide. Here Gravity describes how to let go of our default roles of assigner, monitor, and manager and instead shift to a growth mindset. Easily replicable in any setting, any time, her 4 Ms framework ultimately lightens your load because they allow students to monitor and direct their reading lives. Miner, Uncovering Students' Reading Processes, Focus Assessment Mirror, Giving Feedback That Reinforces a Growth Mindset, Focus Feedback Model, Showing Readers What We Do, Focus Demonstration, Mentor Guiding Students to Try New Ways of Reading, Focus Guided Practice and Coaching. Get started on the 4Ms tomorrow. Gravity has loaded the book with practical examples, lessons, reading process and strategy lists, and a 35 page photo tour of exemplary reading classrooms with captions that distill best practices. All figures, student work, and photographs are provided in vibrant full color. We are in the midst of an ownership crisis, and readers of every ability and in every grade are more often compliant than fully engaged. Use *Mindsets and Moves* as that rare resource that makes something highly complex suddenly clear and inspiring for you. GRAVITY GOLDBERG is coauthor of *Conferring with Readers: Supporting Each Student's Growth and Independence* (Heinemann, 2007) and author of many articles about reading, writing, and professional development. She holds a doctorate in education from Teachers College, Columbia University. She is a former staff developer at Teachers College Reading and Writing Project and an assistant professor at Iona College's graduate education program. She leads a team of literacy consultants in the New York/New Jersey region. *Mindsets and Moves* addresses in a very engaging way the most important aspects of classroom literacy instruction. It shows how to think about and interact with children around literacy. Thoroughly grounded in current theories, which are clearly explained and illustrated with stories and examples, the book is absolutely practical, with excellent examples of lessons, anchor charts, and all

of the necessary details Peter Johnston Author of Choice Words and Opening Minds **Quicklet on Scott O'Dell's Island of the Blue Dolphins (CliffNotes-like Summary and Analysis)** Paula Whiteside, 2012-07-30 ABOUT THE BOOK Island of the Blue Dolphins is the 1961 Newbery award winning book by Scott O Dell that tells the true story with some literary license of a young Indian girl named Karana who was left behind on San Nicolas Island off the California coast along with her younger brother after the remnants of their tribe are relocated on the mainland The book is recommended reading for fourth graders in the California public school system due to its historical and cultural significance as well as the fact that California fourth graders under state standards are required to learn about the 21 Spanish Missions along the El Camino Real The Royal Road and their influence on the indigenous native Americans during the 1800s Karana also known as The lone woman of San Nicolas Island is buried in an unmarked grave on the grounds of the Santa Barbara Mission where there is a plaque commemorating her Students are encouraged to map out San Nicolas Island and research the various bird and marine life that Karana utilized to survive from 1835 to 1853 Kids are invariably drawn to stories of self sufficiency without meddling parents and bedtimes One need only look as far as the Baudelaire orphans in Lemony Snicket's A Series of Unfortunate Events or the survivalist skills in action of solitary Sam Gribble in My Side of the Mountain to see kids' fascination with life without parental involvement However O Dell's story draws a stark contrast to the plucky young heroes of absurdist literature or can do fictional accounts with its fact based narrative of a life and death situation that played out for almost two decades However despite the female protagonist's strength, determination and knowledge of Indian survival lore passed down over generations the tragedy of the real life character's story goes unnoted by O Dell and is indeed ironic Within seven weeks of her rescue from the island and her arrival onto the mainland the lone woman of San Nicolas Island, baptized Juana Maria by the Spanish missionaries, most likely succumbed to dysentery, a disease contracted through exposure to her numerous visitors and well wishers This is similar to the fate of Pocahontas who likely contracted smallpox or tuberculosis after arriving in England from her native land of Virginia within a year O Dell chose not to include the material concerning the girl's tragic end in his original editor's note, only commenting that The facts about her are few and comparing her to Robinson Crusoe Indeed the author's purpose for writing the book was his boyhood interest in exploring Deadman's Island off the Southern California coast around San Pedro However unlike Deadman's Island which was removed by dredging to improve the harbor at San Pedro, San Nicolas Island still remains and became a base of operations for missile testing systems from the 1970s up to the current day EXCERPT FROM THE BOOK Scott O Dell was born Odell Gabriel Scott to May Elizabeth Gabriel and Bennett Mason Scott on May 23 1898 in Los Angeles California Due to a clerical error in one of his earlier written articles the author was mistakenly referred to as Scott O Dell which he liked so much that he changed his name O Dell's earliest recollections of Los Angeles was of a frontier town where there were more jackrabbits than people most notable for its orange orchards and the port area His father's job with the railroad prompted the family including

younger sister Lucile born in 1907 to move frequently around Southern California including Claremont populated by the descendants of Spanish settlers and Julian buy the book to read more **New Standards-Based Lessons for the Busy Elementary School Librarian** Joyce Keeling, 2024-01-25 This book provides targeted and invaluable help for the busy elementary school librarian and the science teacher as they work together to design and co teach library based lessons guided by the Next Generation Science Standards English Literacy Common Core Standards and the new AASL Standards All standards are cited in easy to use reproducible lessons Energy packed and interactive lessons are coordinated to common elementary science curricula at the grade level indicated and are also adaptable and usable as template lessons as needed Necessary handouts and other tools with current lists of recommended resources are provided Elementary school librarians and classroom teachers as well as curriculum coordinators elementary reading social studies and science instructors will find value in this collection of lessons The highly rated materials recommended in the resource lists are valuable for aiding librarians in collection development to support new and current standards
