Psychological Types and the Seven Rays Kurt Abraham, 1983 A Treatise on the Seven Rays Alice a. Bailey, 2013-07
2013 Reprint of 1950 Third Edition Full facsimile of the original edition not reproduced with Optical Recognition Software
Volume One Only The books of Alice A Bailey written in cooperation with a Tibetan teacher between 1919 and 1949
constitute a continuation of the Ageless Wisdom a body of esoteric teaching handed down from ancient times in a form which
is always suitable to each period Intended to precede and condition the coming era the Alice A Bailey writings offer an
unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution the spiritual
Hierarchy the new discipleship and training in meditation as a form of service the teaching on the seven rays and the new
psychology of the soul the teaching on esoteric astrology and the new world religion which emphasizes the common thread of
truth linking all the major world faiths Five volumes have been written under the overall title of A Treatise on the Seven Rays
This sequence of books is based on the fact the nature and the quality of the seven basic streams of energy pervading our
solar system our planet and all that lives and moves within its orbit Of the specialized subjects presented in these books two
volumes are concerned with esoteric psychology the first in relation to basic energy patterns and structures the second
particularly applied to the soul and the personality of man and to the working out of the Plan for humanity Psychology is
defined in Webster s Dictionary as the science of mind at one time considered a branch of metaphysics Today we are more
inclined to include all the conditioning subjective factors as psychological in nature mental and emotional impulses and soul
contact to whatever degree it exists These subjective influences constitute the whole psychological background to a man s
attitudes and behaviour and create the faculty of spiritual response The psyche is after all the human soul the centre of
consciousness Esoteric psychology begins with a consideration of the human being as a soul manifesting in the form of a
personality consisting of mental emotional and etheric physical substance and more or less in contact and control depending
on the stage of evolution in the personality consciousness From the point of view of esoteric psychology evolution is the
evolution of consciousness by which the imbedded fragment of the soul within the personality progressively identifies its
spiritual source and becomes at one with it The seven differentiated streams of ray energy play a significant role in this
evolutionary process A blend of five energies in a human being determine his goals his problems his available qualities and
energy resources and the correct method by which according to his dominant ray influence he may unfold his consciousness
and make spiritual progress In this volume of Esoteric Psychology many of these distinctive ray qualities and methods are
given as quotations or interpretations of The Old Commentary put into poetic and symbolic words The seven rays are shown
as the Seven Creative Builders each one imbued with purpose and power functioning together as a synthesis in occult
obedience to the purposes of our Solar Logos Such a detailed and comprehensive study of the ray energies influencing our
planetary life and all kingdoms in nature is of inestimable value to the aspirant consciously preparing himself to become of

planetary service as he learns to serve and to unite with his fellowmen **A Treatise on the Seven Rays** Alice Anne LaTrobe-Bateman Bailey,1942 **Esoteric Psychology Vol II** Alice A. Bailey, 2023-11-01 This compilation from the books of Alice Bailey seeks to increase understanding of the immortal soul addressing many aspects under sixty two headings The creative nature of the Soul On its own plane the soul knows no separation and the factor of synthesis governs all soul relations The soul is occupied not only with the form that the vision of its objective may take but with the quality or the meaning which that vision veils or hides The soul knows the Plan its form outline methods and objective are known Through the use of the creative imagination the soul creates it builds thought forms on the mental plane and objectifies desire on the astral plane It proceeds then to externalise its thought and its desire upon the physical plane through applied force creatively actuated by the imagination of the etheric or vital vehicle Yet because the soul intelligence motivated by love it can within the realised synthesis which governs its activities analyse discriminate and divide The soul likewise aspires to that which is greater than itself and reaches out to the world of divine ideas and thus itself occupies a midway position between the world of ideation and the world of forms This is its difficulty and its opportunity
