San Antonio 1718 Marion Oettinger Jr.,2018-02-01 Three hundred years ago San Antonio was founded as a strategic outpost of presidios and missions on the edge of northern New Spain imposing Spanish political and religious principles on this contested often hostile region The city s many Catholic missions bear architectural witness to the time of their founding but few have walked these sites without wondering who once lived there and what they saw valued and thought San Antonio 1718 presents a wealth of art that depicts a rich blending of sometimes conflicted cultures explorers colonialists and indigenous Native Americans and places the city s founding in context The book is organized into three sections accompanied by five discussions by internationally recognized scholars with expertise in key aspects of eighteenth century northern New Spain The first section People and Places features art depicting the lives of ordinary people Such art is rare since most painting and sculpture from this period was made in service to the church the crown or wealthy families They provide compelling insight into how those living in the Spanish Colonies viewed gender social organization ethnicity occupation dress home and workplace furnishings and architecture Since portraiture was the most popular genre of eighteenth century and early nineteenth century Mexican painting the second section Cycle of Life includes a selection of individual and family portraits representing people during different stages of life The third and largest section is devoted to the church Throughout the colonial period Catholic evangelization of New Spain went hand in hand with military economic and political expansion All the major religious orders the Franciscans the Dominicans the Jesuits and the Augustinians played significant roles in proselytizing indigenous populations of northern New Spain establishing monasteries and convents to support these efforts In San Antonio 1718 more than 100 portraits landscapes religious paintings and devotional and secular objects reveal the visual culture that reflected and supported this region s evolving world view signaling how New Spain saw itself its vast colonial and religious ambitions

guadalupana en la Nueva España Margarita María Fernández Larralde, 2023-02-21 Margarita Fernández aborda el multifacético espectáculo cultural de la Nueva España del siglo XVIII a partir de un festejo dedicado a la Virgen de Guadalupe en Zacatecas. El motivo de esta deslumbrante fiesta es el nombramiento de la Virgen de Guadalupe como Patrona de la Nueva España desde Roma por el Papa Benedicto XIV. La investigación se divide en cuatro capítulos que muestran el panorama en forma progresiva a través del documento del festejo zacatecano. En el primer capítulo se esboza una visión de lo que significó el siglo XVIII en la Nueva España a partir de las políticas de transición del poder monárquico y de la influencia del Barroco. Se analiza el panorama de intercambio cultural, comercial y social entre Europa y América y la estructura social y religiosa de una sociedad estratificada. Este primer capítulo expone a su vez el desarrollo del culto guadalupano, la expansión de la devoción a la Guadalupana durante el siglo XVIII y las principales manifestaciones artísticas que se generaron en la época. Se delimita también el marco histórico geográfico y social de la ciudad de Zacatecas, sus recursos argentíferos, sus grupos sociales y la frágil situación económica en el momento del festejo. El segundo capítulo inicia con un planteamiento de las fiestas religiosas y sus modalidades en la Nueva España en relación a las teorías de la fiesta como fenómeno cultural y social de carácter universal. Se inicia también el análisis del festejo en Zacatecas en cuanto a su estructura, forma y contenidos. El tercer capítulo aborda el tema de la oratoria sacra y dedica un espacio al análisis de cada sermón con énfasis en su estructura formal, las ideas y contenidos en torno a la imagen de Guadalupe y las similitudes temáticas y variantes de los seis sermones del festejo. La belleza literaria y los conocimientos eruditos van a la par con la genuina vocación apostólica del clérigo y cada uno de los cinco religiosos que participan en el festejo. Finalmente, el cuarto capítulo aborda las frecuentes referencias al arte de la pintura en el documento, la situación en la que se encontraban los pintores novohispanos y la oportunidad que la imagen de Guadalupe representa para que los artistas afirmen la nobleza del arte pictórico. Se analiza el discurso estético presente en todos los textos del documento del festejo unido a la temática de la iconografía e iconología de la Virgen de Guadalupe al relacionar los textos del festejo con los elementos constitutivos de la imagen original y las diversas pinturas realizadas en fechas cercanas a la fiesta. La investigación contextualiza el festejo de Zacatecas en honor a la Virgen de Guadalupe en su fascinante complejidad artística, mostrando el esplendor de las artes del Barroco Novohispano y el poder religioso simbólico e identitario que la imagen de la Virgen del Tepeyac habría alcanzado en la sociedad criolla y en gran parte de la población novohispana.
