Esperanto Movement:

The Esperanto Movement Peter Glover Forster, 1982 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students researchers and practitioners in all of the social and language related sciences carefully selected book length publications dealing with sociolinguistic theory methods findings and applications It approaches the study of language in society in its broadest sense as a truly international and interdisciplinary field in which various approaches theoretical and empirical supplement and complement each other The series invites the attention of linguists language teachers of all interests sociologists political scientists anthropologists historians etc to the development of the sociology of language

Esperanto Revolutionaries and Geeks Guilherme Fians, 2022-01-04 This book explores how Esperanto often regarded as a future oriented utopian project that ended up confined to the past persists in the present Constructed in the late nineteenth century to promote global linguistic understanding this language was historically linked to anarchism communism and pacifism Yet what political relevance does Esperanto retain in the present What impacts have emerging communication technologies had on the dynamics of this speech community Unpacking how Esperanto speakers are everywhere but concentrated nowhere the author argues that digital media have provided tools for people to re politicise acts of communication produce horizontal learning spaces and ultimately build an international community As Esperanto speakers question the post political consensus about communication rights this language becomes an ally of activism for open source software and global social justice This book will be of relevance to students and scholars researching political activism language use and community building as well as anyone with an interest in digital media more broadly **Esperanto -**

Lingua Franca and Language Community Sabine Fiedler, Cyril Robert Brosch, 2022-09-09 This book addresses a fascinating topic a constructed language that has turned from a project into a fully fledged language used by some of its speakers on a daily basis Based on extensive fieldwork this book provides rare and profound insights into the use of Esperanto in a large number of communicative areas It studies the speakers use of code switching phraseology and metaphors techniques they employ to enhance understanding such as metacommunication and repair strategies as well as their predilection for humour The study also contributes to a comparison between the communication in Esperanto and in the language that is now predominantly used as a lingua franca English and allows conclusions to be drawn on the question of what a lingua franca is all about **Esperanto in The New York Times (1887 - 1922)** Ulrich Becker, 2010 This book is a

look back at the beginnings of the Esperanto movement in the US and beyond opening a window into contemporaneous accounts on the pages of a world renowned news paper Some of the articles in this collection reflect aspects of the history of the Esperanto movement quite vividly in others we find odd anecdotes about Esperanto and the Esperantists and many passionately written letters from readers illustrate the ups and downs the successes and conflicts of the Esperanto community as well as its disputes with the skeptics outside their ranks These first 35 years of the history of Esperanto seen

from the vantage point of the New York Times show how Esperanto gradually became established in the US and in the world carried on the high hopes of its early idealistic proponents The book is supplemented by an appendix containing an index of the names of persons mentioned in the newspaper articles a short bibliography and a collection of links to reliable information on Esperanto on the Internet The Esperanto Movement. [Mit Tab.] Peter G. Forster,1982 Esperanto, Interlinguistics, and Planned Language Humphrey Tonkin,1997 A collection of 11 papers one in German and an interview in French with Umberto Eco The topics include the term planned language Esperanto as a unique model for general linguistics a dialogue between sociolinguistic sciences and Esperanto culture the experience of Esperanto in developing a language for international law and machine translation No index Annotation copyrighted by Book News Inc Portland OR **American Esperanto Magazine** ,1909 *Bridge of Words* Esther Schor,2016-10-04 A history of Esperanto the utopian universal language invented in 1887 **Dangerous Language — Esperanto under Hitler and Stalin** Ulrich Lins,2017-02-10 This is Volume 1 of Dangerous Language This book examines the rise of the international language Esperanto launched in 1887 as a proposed solution to national conflicts and a path to a more tolerant world The chapters in this volume chart the emergence of Esperanto as an answer to a widespread democratic desire for direct person to person international communication regardless of political boundaries Its early success was limited mostly because of the Czarist regime s suspicion of direct communication with foreigners and later similar suspicion by dictatorial regimes generally As speakers of a dangerous language its adepts were harassed and persecuted especially in Germany and the Soviet Union This book argues that the fate of Esperanto over the 130 years of its existence serves as a barometer to measure the degree to which regimes tolerate spontaneous personal contact with other countries and allow the pursuit of self education outside prescribed national or ideological constraints This book will appeal to a wide readership including linguists historians political scientists and others interested in the history of the twentieth century from the unusual perspective of language This volume is complemented by the sister volume Dangerous Language Esperanto and the Decline of Stalinism which offers a concentration on the Cold War history of Esperanto in Eastern Europe *Esperanto and Languages of Internationalism in Revolutionary Russia* Brigid O'Keeffe,2021-05-20 Winner of the 2022 Ab Imperio Award Hoping to unite all of humankind and revolutionize the world Ludwik Zamenhof launched a new international language called Esperanto from late imperial Russia in 1887 Ordinary men and women in Russia and all over the world soon transformed Esperanto into a global movement Esperanto and Languages of Internationalism in Revolutionary Russia traces the history and legacy of this effort from Esperanto s roots in the social turmoil of the pre revolutionary Pale of Settlement to its links to socialist internationalism and Comintern bids for world revolution and finally to the demise of the Soviet Esperanto movement in the increasingly xenophobic Stalinist 1930s In doing so this book reveals how Esperanto and global language politics more broadly shaped revolutionary and early Soviet Russia Based on extensive archival materials Brigid O Keeffe s book provides the first in depth exploration of Esperanto at

grassroots level and sheds new light on a hitherto overlooked area of Russian history As such Esperanto and Languages of Internationalism in Revolutionary Russia will be of immense value to both historians of modern Russia and scholars of internationalism transnational networks and sociolinguistics

Contested Languages Marco Tamburelli,Mauro Tosco,2021-01-21 This is the first volume entirely dedicated to contested languages While generally listed in international language atlases contested languages usually fall through the cracks of research excluded from the literature on minority languages and

treated as mere ensembles of geographically defined varieties by traditional dialectology This volume investigates the nature of contested languages the role language ideologies play in the perception of these languages the contribution of academic discourse to the formation and perpetuation of language contestedness and the damage contestedness causes to linguistic communities and ultimately to linguistic diversity Various situations and degrees of language contestedness are presented and analysed along with theoretical considerations exploring potential roads to recognition and issues in language planning that arise from language contestedness Addressing the language vs dialect question head on the volume opens up new perspectives that are relevant to all students and researchers interested in the maintenance of linguistic diversity Global Conjectures William C. Kirby, Mechthild Leutner, Klaus Mühlhahn, 2006 This volume deals with the integration of modern China into processes of global exchange and cross border interaction The articles explore the broader theme in different ways and in different subfields ranging from the history of political ideas to the history of institutions from global migration of people to the transmigration of academic discourses Focusing on modern as well as contemporary periods the studies demonstrate that China in the course of the twentieth century became an ever more important nodal point in a complex set of worldwide networks and engagements The integration into global networks together with the global consciousness that corresponded with it made possible significant connections transcending national borders The essays also show that the effects could be homogenizing or globalizing but at the same time the growing interactions also produced opposition and fragmentation *International Language* ,1924 **Literary Cosmopolitanism in the English Fin de Siècle** Stefano Evangelista, 2021 This volume explores the significance of cosmopolitanism for literary studies and argues that the English fin de siècle witnessed an intense debate about cosmopolitanism which in turn influenced literary representations of individual and national identity and shaped attitudes towards the idea of world literature Language Communities in Japan John C. Maher, 2022-01-21 This book offers a comprehensive sociolinguistic overview of the linguistic situation in Japan Contemporary Japan displays rich linguistic diversity particularly in urban areas but the true extent of this diversity has often been overlooked The contributors to this volume provide a new perspective with detailed accounts of the wide range of languages spoken in different contexts and by different communities across the Japanese archipelago Each chapter focuses on a specific language community and systematically explores the history of the variety in Japanese culture and the current sociolinguistic situation The first part explores the indigenous languages of Japan including the multiple dialects of Japanese itself and the lesser known Ryukyuan and Ainu languages Chapters in Part II look at community languages ranging from the historic minority languages such as Korean and Chinese to the languages spoken by more recent migrant communities such as Nepali Filipino and Persian The final part examines languages of culture politics and modernization from the use of English in international business and education contexts to the ongoing use of Latin and Sanskrit for religious purposes The volume sheds new light on Japan's position as an important multilingual and multicultural society and will be of interest to

scholars and students not only of Japanese and sociolinguistics but of Asian studies and migration studies more widely

Prophet Motive Nancy K. Stalker, 2007-10-31 From the 1910s to the mid 1930s the flamboyant and gifted spiritualist Deguchi Onisabur 1871 1948 transformed his mother in law's small rural religious following into a massive movement eclectic in content and international in scope Through a potent blend of traditional folk beliefs and practices like divination exorcism and millenarianism an ambitious political agenda and skillful use of new forms of visual and mass media he attracted millions to Oomoto his Shintoist new religion Despite its condemnation as a heterodox sect by state authorities and the mainstream media Oomoto quickly became the fastest growing religion in Japan of the time In telling the story of Onisabur and Oomoto Nancy Stalker not only gives us the first full account in English of the rise of a heterodox movement in imperial Japan but also provides new perspectives on the importance of charismatic entrepreneurship in the success of new religions around the world She makes the case that these religions often respond to global developments and tensions imperialism urbanization consumerism the diffusion of mass media in similar ways They require entrepreneurial marketing and management skills alongside their spiritual authority if their groups are to survive encroachments by the state and achieve national international stature Their drive to realize and extend their religious

view of the world ideally stems from a prophet rather than profit motive but their activity nevertheless relies on success in the modern capitalist commercial world Unlike many studies of Japanese religion during this period Prophet Motive works to dispel the notion that prewar Shinto was monolithically supportive of state initiatives and ideology
