Epistemology

The word epistemology consists of two Greek words "episteme" which means knowledge and second one is "logos" which meaning, roughly, "study, or science, of Epistemology is primarily 'concerned with standards of acceptability in terms of which to judge beliefs' (Stewart, et. al., Fundamentals, 167). Epistemology is the investigation of information. Epistemologists fret about various errands, which we may sort into two classifications.

Initially, we should decide the idea of information; that is, I don\'t get its meaning to state that somebody knows, or neglects to know, something? This involves understanding what information is, and how to recognize cases in which somebody knows something and cases in which somebody doesn\'t know something. While there is some broad understanding about certain parts of this issue, we will see that this inquiry is considerably more difficult than one may be able to expect.

Second, we should decide the degree of human information; that is, what amount does we, or can we, know? How might we utilize our explanation, our faculties, the declaration of others, and different assets to obtain information? Are there cutoff points to what we can know? For example, ar

Essays Moral Philosophy:

Virtues and Vices Philippa Foot, 2002-10-17 Foot stands out among contemporary ethical theorists because of her conviction that virtues and vices are more central ethical notions than rights duties justice or consequences the primary focus of most other contemporary theorists This volume brings together a dozen essays published between 1957 and 1977 and includes two new ones as well In the first Foot argues explicitly for an ethic of virtue and in the next five discusses abortion euthanasia free will determination and the ethics of Hume and Nietzsche The final eight essays chart her growing disenchantment with emotivism and prescriptivism and their account of moral arguments All the essays embody to some extent her commitment to an ethics of virtue Foot s style is straightforward and readable her arguments subtle ingenious and some of them important Choice All in all this collection of essays provides much to whet the moral philosopher s appetite International Philosophical Quarterly Explaining Value Gilbert Harman, 2000-08-17 Explaining Value is a selection of the best of Gilbert Harman s shorter writings in moral philosophy The thirteen essays originally published between 1967 and 1999 are divided into four sections which focus in turn on moral relativism values and valuing character traits and virtue ethics and ways of explaining aspects of morality An indication of the breadth of interest of the book can be given by mentioning a few of the compelling questions which Harman discusses What accounts for the existence of basic moral disagreements Why do most people think it is worse to injure someone than to fail to save them from injury Why do many people think it is morally permissible to treat animals in ways we would not treat people What is it to value something and what is it to value something intrinsically How much of morality can or should be explained in terms of human flourishing or the possession of virtuous character traits How do people come to be moral Harman s distinctive approach to moral philosophy has provoked much interest this volume offers a fascinating conspectus of his most important work in the area

Essays in Moral Philosophy Abraham Irving Melden, 1958 **The Ethics of Reason** Frank Alfred Lea, 1975 **The Justification of the Good** Vladimir Solovyov, 2005-08-31 After passing through deism pantheism and sundry atheistic visions of life Vladimir Solovyov emerged as a Christian thinker of irrepressible conviction and uncommon genius The Justification of the Good one of Solovyov s last and most mature works presents a profound argument for human morality based on the world s longing for and participation in God s goodness In the first part of the book Solovyov explores humanity s inner virtues and their full reality in Christ weaving his moral philosophy with threads drawn from Orthodox theology In the second part Solovyov discusses the practical implications of Christian goodness for such areas as nationalism war economics legal justice and family This edition of The Justification of the Good reproduces the English edition of 1918 and is the only new publication of this work since that date The book includes explanatory footnotes by esteemed scholar Boris Jakim and a bibliography compiled by Jakim of Solovyov s major philosophical and religious works **Essays in Legal and Moral Philosophy** H. Kelsen, 2012-12-06 In his choice of texts the Editor has been faced with the difficult task of selecting from

among the author's more than 600 publications those of the greatest philosophical interest. It is chiefly the topics of value relativism and the logic of norms that have been kept in view. The selection has also been guided by the endeavour to reprint so far as possible texts which have not hitherto appeared in English. At times however this aim has had to be discarded in order to include works of key importance and also the latest expressions of Kelsen's view. In addition to the two topics already mentioned the Editor has considered Kelsen's discussions of the causal principle to be so far worthy of philosophical attention that some writings on causality and accountability have been included in this collection of philosophical studies.

Morality in a Realistic Spirit Andrew Gleeson, Craig Taylor, 2019-09-18 This unique collection of essays has two main purposes. The first is to honour the pioneering work of Cora Diamond, one of the most important living moral philosophers and certainly the most important working in the tradition inspired by Ludwig Wittgenstein. The second is to develop and deepen a picture of moral philosophy by carrying out new work in what Diamond has called the realistic spirit. The contributors in this book advance a first-order moral attitude that pays close attention to actual moral life and experience. Their essays, inspired by Diamond's work, take up pressing challenges in Anglo-American moral philosophy including Diamond's defence of the concept human being in ethics, her defence of literature as a source of moral thought that does not require external sanction from philosophy, her challenge to the standard fact-value dichotomy, and her exploration of non-argumentative forms of legitimate moral persuasion. There are also essays that apply this framework to new issues such as the nature of love, the connections of ethics to theology, and the implications of Wittgenstein's thought for political philosophy. Finally, the book features a new paper by Diamond in which she contests deep-rooted philosophical assumptions about language that severely limit what philosophers see as the possibilities in ethics. Morality in a

Verbeek,2013-03-09 Many academic authors incur debts in the production of their work many of which are intellectual I am no exception One of my intellectual debts is to three remarkable books which formed the starting point for my thinking about norms The first of these books is well known among philosophers David Lewis *Convention* In vintage Lewisian prose the book gives a lucid and convincing conventionalist analysis of semantic norms The second 1985 dissertation Wederkerige book is Govert den Hartogh s *Verwachtingen Mutual Expectations* Partly because it was written in Dutch my native tongue partly because of the occasionally impenetrable style it never got the attention it deserves In that book Den Hartogh extends Lewis analysis of semantic norms to moral norms Den Hartogh introduced the notion of cooperative virtues that is the focus of much of this book The third book is a book on economics largely ignored by economists which only lately has started to receive some recognition among philosophers Robert Sugden s *The Economics of Rights Co operation and Welfare* Sugden s book explains the emergence and stability of norms in terms of social evolution Though all three books develop a of norms their arguments and constructions are conventionalist account very different Lewis and Den Hartogh take the picture of rational man deliberating about his course of action very serious Sugden rejects this picture as unrealistic and unnecessary
