Essays On The American Civil Rights Movement The Walter Prescott Webb Memorial Lectures No 26:

Essays on the American Civil Rights Movement John Dittmer, George C. Wright, W. Marvin Dulaney, 1993 As its name suggests the civil rights movement is an ongoing process and the scholars contributing to this volume offer new geographical and temporal perspectives on this crucial American experience As Clayborne Carson notes in the introduction the movement involved much more than civil rights reform it transformed African American political and social consciousness In this timely volume John Dittmer provides a new assessment of the effects of grass roots activists of the movement in Mississippi from 1965 to 1968 to show what happened after the famous Freedom Summer of 1964 George C Wright shows how African Americans in Kentucky from 1900 to 1970 faced the same racial restrictions and violence as blacks in Mississippi Georgia and Alabama W Marvin Dulaney traces the rise and fall of the movement in Dallas from the 1930s through the 1970s while the nation's attention was focused elsewhere

Guide to Books on Black Americans G. P. Manat, 1995 This book presents 2322 full citations of books from 1990 1993 including subject headings of books dealing with Black Americans Full author and subject indexes are provided for easy access to this compilation Entries cover topics as diverse as civil war history sports figures literature civil rights movies and television religion culture politics and government social life and customs arts and artists philosophy

America, History and Life, 1997 Article abstracts and citations of reviews and dissertations covering the United States and Canada

The Unsolid South Devin Caughey, 2018-09-25 During the Jim Crow era the Democratic Party dominated the American South presiding over a racially segregated society while also playing an outsized role in national politics In this compelling book Devin Caughey provides an entirely new understanding of electoral competition and national representation in this exclusionary one party enclave Challenging the notion that the Democratic Party's political monopoly inhibited competition and served only the Southern elite he demonstrates how Democratic primaries even as they excluded African Americans provided forums for ordinary whites to press their interests Focusing on politics during and after the New Deal Caughey shows that congressional primary elections effectively substituted for partisan competition in part because the spillover from national party conflict helped compensate for the informational deficits of elections without party labels Caughey draws on a broad range of historical and quantitative evidence including archival materials primary election returns congressional voting records and hundreds of early public opinion polls that illuminate ideological patterns in the Southern public Defying the received wisdom this evidence reveals that members of Congress from the one party South were no less responsive to their electorates than members from states with true partisan competition Reinterpreting a critical period in American history *The Unsolid South* reshapes our understanding of the role of parties in democratic theory and sheds critical new light on electoral politics in authoritarian regimes
