Richards, Peter Thomson, 2020-01-08 The eighteenth century produced more inventive actors than fine dramatists and it displayed its actors to increasing advantage as theatre management became more expert and stage design more ambitious First published in 1972 the eleven papers collected in *The Eighteenth Century English Stage* originally read at a Manchester University Symposium in July 1971 follow this historical emphasis Two papers are centred on dramatists four on actors three on managers and two on designers Malcolm Kelsall analyses Steele's debt to Terence using his classical scholarship as illuminatingly as Edgar Roberts uses his musical scholarship in writing about the songs in Fielding's plays George Taylor compares and evaluates a number of theories of acting and speculates on the likely relevance of the best known books on rhetoric whilst Kathleen Barker Arnold Hare and David Rostron consider the work of individual actors Powell Cooke and John Kemble Theatre managers are represented by John Rich in Paul Sawyer's sympathetic account Thomas Harris who is given new life in the recent researches of Cecil Price and Stephen Kemble fixed by Kenneth Robinson in canny control of the Newcastle theatre circuit Finally Graham Barlow reaches some controversial conclusions about the dimensions of the Theatre Royal Drury Lane by subjecting Thornhill's sketches to a practising designer's statistical examination and Sybil Rosenfeld carries a stage further her pioneering work on eighteenth century scene painting and design The two last are attractively illustrated by 8 pages of plates This book's particular value lies in its bringing together several simply presented but deeply informed explorations of often neglected aspects of the eighteenth century theatre The papers with their general sense of enthusiasm and concern for their subject will interest all students of the eighteenth century and theatre enthusiasts in particular      **Staging the Peninsular War** Susan Valladares, 2016-03-09 From Napoleon's invasion of Portugal in 1807 to his final defeat at Waterloo the English theatres played a crucial role in the mediation of the Peninsular campaign In the first in depth study of English theatre during the Peninsular War Susan Valladares contextualizes the theatrical treatment of the war within the larger political and ideological axes of Romantic performance Exploring the role of spectacle in the mediation of war and the links between theatrical productions and print culture she argues that the popularity of theatre going and the improvisation and topicality unique to dramatic performance make the theatre an ideal lens for studying the construction of the Peninsular War in the public domain Without simplifying the complex issues involved in the study of citizenship communal identities and ideological investments Valladares recovers a wartime theatre that helped celebrate military engagements reform political sympathies and register the public's complex relationship with Britain's military campaign in the Iberian Peninsula From its nuanced reading of Richard Brinsley Sheridan's *Pizarro* 1799 to its accounts of wartime productions of Shakespeare description of performances at the minor theatres and detailed case study of dramatic
