Ents, Elves, and Eriador Matthew Dickerson, Jonathan Evans, 2006-11-17 A fascinating ecocritical evaluation of *The Hobbit* *The Lord of the Rings* *The Silmarillion* and other works of the master fantasist Northeastern Naturalist *The Hobbit* *The Lord of the Rings* and *The Silmarillion* are rarely considered to be works of environmental literature or mentioned together with such authors as John Muir Rachel Carson or Aldo Leopold Nonetheless Tolkien s vision of nature is as

passionate and has had as profound an influence on his readers as that of many contemporary environmental writers. The burgeoning field of agrarianism provides new insights into Tolkien's view of the natural world and environmental responsibility. In *Ents, Elves and Eriador*, Matthew Dickerson and Jonathan Evans show how Tolkien anticipated some of the tenets of modern environmentalism in the imagined world of Middle-earth and the races with which it is peopled. Dickerson and Evans examine Tolkien's major works as well as his lesser-known stories and essays, comparing his writing to that of the most important naturalists of the past century. A vital contribution to environmental literature and an essential addition to Tolkien scholarship, *Ents, Elves and Eriador* offers both Tolkien fans and environmentalists an understanding of Middle-earth that has profound implications for environmental stewardship in the present and the future of our own world. This book is for everyone who loves the work of J.R.R. Tolkien and who loves the world around them.

Armchair Interviews: Anyone who ever thrilled to Tolkien's fighting trees or to the earthy Tom Bombadil or to the novel charm of the Shire will want to read this important and lovely book. Bill McKibben, Scholar in Residence in Environmental Studies, Middlebury College. [Introducing Evangelical Ecotheology](#) Daniel L. Brunner, Jennifer L. Butler, A. J. Swoboda, 2014-10-14. Today's church finds itself in a new world, one in which climate change and ecological degradation are front-page news. In the eyes of many, the evangelical community has been slow to take up a call to creation care. How do Christians address this issue in a faithful way? This evangelically centered but ecumenically informed introduction to ecological theology, ecotheology, explores the global dimensions of creation care, calling Christians to meet contemporary ecological challenges with courage and hope. The book provides a biblical, theological, ecological, and historical rationale for earthcare, as well as specific practices to engage both individuals and churches. Drawing from a variety of Christian traditions, the book promotes a spirit of hospitality, civility, honesty, and partnership. It includes a foreword by Bill McKibben and an afterword by Matthew Sleeth. [Modern American Environmentalists](#) George A. Cevalco, Richard P. Harmond, 2009-04-27. *Modern American Environmentalists* profiles the lives and contributions of nearly 140 major figures during the twentieth-century environmental movement. Included are iconic environmentalists such as Rachel Carson, E. O. Wilson, Gifford Pinchot, and Al Gore, and important but less-expected names including John Steinbeck and Allen Ginsberg. The entries recount how each individual became active in environmental conservation, detail his or her significant contributions, trace the influence of each on future efforts, and discuss the person's legacy. The individuals selected for the book displayed either an unparalleled commitment to the conservation, preservation, restoration, and enhancement of the natural environment or made a major contribution to the growth of environmentalism during its first century. With a foreword by environmental historian Everett R. Mendelsohn, a time line of key environmental events, a bibliography of groundbreaking works, and an index organized by specialization, this biographical encyclopedia is a handy and complete guide to the major people involved in the modern American environmental movement. Mark Harvey. [The Oxford Handbook of Modern and Contemporary American Poetry](#) Cary Nelson, 2012-01-06. *The Oxford Handbook of*

Telling the Stories Right

Jack Baker,Jeffrey Bilbro,2018-03-26 Wendell Berry thinks of himself as a storyteller It s somewhat ironic then that he is better known as an essayist a poet and an advocate for small farmers The essays in this collection consider the many facets of Berry s life and work but they focus on his efforts as a novelist and story writer Indeed Berry had already published three novels before his seminal work of cultural criticism *The Unsettling of America* established him as an ardent defender of local communities and sustainable agriculture And over the past fifty years he has published eight novels and more than forty eight short stories set in the imagined community of Port William His exquisite rendering of this small Kentucky town challenges us to see the beauty of our own places and communities and to tend their health threatened though it inevitably is The twelve contributors to this collection approach Berry s fiction from a variety of perspectives literary studies journalism theology history songwriting to shed light on its remarkable ability to make a good life imaginable and compelling The first collection devoted to Berry s fiction this volume insists that any consideration of Berry s work must begin with his stories

Unsettling Food Politics

Christopher Mayes,2018-10-16 Over the past 25 years activists farmers and scholars have been arguing that the industrialized global food system erodes democracy perpetuates injustices undermines population health and is environmentally unsustainable In an attempt to resist these effects activists have proposed alternative food networks that draw on ideas and practices from pre industrial agrarian smallholder farming as well as contemporary peasant movements This book uses current debates over Michel Foucault s method of genealogy as a practice of critique and historical problematization of the present to reveal the historical constitution of contemporary alternative food discourses While alternative food activists appeal to food sovereignty and agrarian discourses to counter the influence of neoliberal agricultural policies these discourses remain entangled with colonial logics In particular the influence of Enlightenment ideas of improvement colonial practices of agriculture as a means to establish ownership and anthropocentric relations to the land In combination with the genealogical analysis this book

brings continental political philosophy into conversation with Indigenous theories of sovereignty and alternative food discourse in order to open new spaces for thinking about food and politics in contemporary Australia

Seeds of the Kingdom Anna L. Peterson, 2005-11-17 In these skeptical and disillusioned times there are still groups of people scattered throughout the world who are trying to live out utopian dreams These communities challenge the inevitability and morality of dominant political and economic models By putting utopian religious ethics into practice they attest to the real possibility of social alternatives In *Seeds of the Kingdom* Anna L Peterson reflects on the experiences of two very different communities one inhabited by impoverished former refugees in the mountains of El Salvador and the other by

Amish farmers in the Midwestern U S What makes these groups stand out among advocates of environmental protection political justice and sustainable development is their religious orientation They aim without apology to embody the reign of God on earth The Salvadoran community is grounded in Roman Catholic social thought while the Amish adhere to Anabaptist tradition Peterson offers a detailed portrait of these communities history social organization religious life environmental values and agricultural practices She discovers both practical and ideological commonalities in these two comparatively successful and sustainable communities including a strong collective identity deep attachment to local landscapes a desire to preserve non human as well as human lives and perhaps unexpectedly a utopian horizon that provides both goals and the hope of reaching them By examining the process by which people struggle to live according to a transcendent value system she sheds light on both the actual and the potential place of religion in public life Peterson argues that the Amish and Salvadoran communities geographically and culturally removed from the industrialized West have relevance for the political and environmental problems of the developed world These communities have succeeded in the face of significant internal and external challenges offering important practical and theoretical lessons on how to achieve ecological sustainability and social justice in the wider world

The Mother of All Arts Gene Logsdon,2007-07-20 When Gene Logsdon realized that he experienced the same creative joy from farming as he did from writing he suspected that agriculture itself was a form of art Thus began his search for the origins of the artistic impulse in the agrarian lifestyle The Mother of All Arts is the culmination of Logsdon s journey his account of friendships with farmers and artists driven by the urge to create He chronicles his long relationship with Wendell Berry and discovers the playful humor of several new agrarian writers He reveals insights gleaned from conversations with Andrew Wyeth and his family of artists Through his association with musicians such as Willie Nelson and his involvement with Farm Aid Logsdon learns how music blues jazz country and even rock n roll is also rooted in agriculture Logsdon sheds new light on the work of rural painters writers and musicians and suggests that their art could be created only by those who work intimately with the land Unlike the gritty realism or abstract expressionism often favored by contemporary critics agrarian art evokes familiar feelings of community and comfort Most important Logsdon convincingly demonstrates that diminishing the connection between art and nature lessens the social and aesthetic value of both The Mother of All Arts explores these cultural connections and traces the development of a new agrarian culture that Logsdon believes will eventually replace the model brought about by the industrial revolution Humorous and introspective the book is neither conventional cultural criticism nor traditional art criticism It is a unique lively meditation on the nature and purpose of art and on the life well lived by one of the truly original voices of rural America **Bread of Life in Broken Britain**

Charles Roding Pemberton,2020-04-30 Charles Pemberton draws on interviews with foodbank users and volunteers to defend and advance a Christian vision of welfare beyond emergency food provision He suggests that behind the day to day struggles of those using foodbanks there are wider much concerns about loneliness marginalisation and the wholesale fragmentation of

society Writing the Land Daniel G. Payne, 2009-05-05 At the time of his death in 1921 John Burroughs 1837 1921 was America's most beloved nature writer a best selling author whose friends and admirers included Walt Whitman Theodore Roosevelt John Muir Henry Ford and Thomas Edison Burroughs was second only to Emerson in fostering the nature study movement of the nineteenth century and the popularity of his work inspired Houghton Mifflin to publish or reissue the work of numerous other nature writers including that of Thoreau and Muir His first collection of essays *Wake Robin* was published in 1871 and over the next fifty years Burroughs wrote almost two dozen books and hundreds of essays not only on nature but on literature travel philosophy religion and science By the turn of the century Burroughs was America's most beloved nature writer whose friends and admirers included Walt Whitman Theodore Roosevelt John Muir Henry Ford and Thomas Edison Burroughs died in 1921 while on a train ride back to his New York from California His final words *Are we home yet* were a remarkably fitting coda to the career of a writer so closely identified with his native Catskill region of New York State In many of his essays Burroughs explores the woods and fields of home and in doing so like Henry Thoreau and his explorations of Concord Massachusetts he transcends the local and examines the universal theme of our relation with nature and our native landscape Burroughs's emphasis on place and the local now seems modern once again as the current interest in bioregionalism and climate change demonstrates it has become increasingly evident that thinking locally is thinking globally Since 1992 the SUNY College at Oneonta has hosted the biannual John Burroughs Nature Conference and Seminar *Sharp Eyes* which honors the influence of Burroughs on American nature writing Distinguished keynote speakers who have addressed the conference include John Elder John Tallmadge Joy Harjo Robin Wall Kimmerer Edward Kanze James Perrin Warren and Edward J. Renahan Jr The scope of the conference is not limited solely to Burroughs however as each year the writers and scholars in attendance direct their attention toward a particular issue of significance to contemporary nature writers and scholars of environmental literature The theme of this collection *Writing the Land: John Burroughs and his Legacy* was featured in the 2006 conference and includes essays on John Burroughs as well as essays on the work of other writers who like Burroughs are linked closely through their work to a particular landscape or region The third and final section of this book features invited essays by three distinguished scholars John Tallmadge Robert Beuka and Charlotte Zo Walker who consider the topic of what writing about the land and nature means from three different perspectives urban suburban and rural
