Filosofía DGB Serie integral por competencias Gustavo Escobar Valenzuela **Fundamentos de teoría sociológica** Antonio Lucas Marín, 1995. El inicio de la reflexión sobre el concepto de la Sociología no puede ser con otra perspectiva que la historia. Si bien una ciencia es establecida si se la estudia a sus padres fundadores, si no se la estudia es una ciencia perdida. Por eso parece que para delimitar el concepto de nuestra disciplina no hay mejor cauce que ir repasando las aportaciones de aquellos que la comunidad de sociólogos considera sus antecesores hasta nuestros días. Despues de Kuhn y de las precisiones de la Sociología de la ciencia iniciada por Merton es difícil discrepar de la consideración de que la Sociología es lo que hacen los sociólogos. Es en la continuidad de esta tarea acumulativa donde debemos encontrar significado a la propia aportación personal. Debemos ver las condiciones que han hecho posible el nacimiento de la Sociología como disciplina intelectual y como toma de conciencia de la sociedad industrial y considerar la existencia histórica de diversas posibilidades de soporte personal e ideológico que han dado lugar a diferentes teorías y escuelas en pugna. Las conclusiones van por el lado de ver en la Sociología una dedicación al estudio de los sistemas de acción social entendidos en un proceso de dialéctica social y en una tradición científica y progresista que intentan precisar tanto la influencia de la estructura social como una valoración persistente de la libertad.
