Funeral Furniture Of Egypt Stone Metal:

The Funeral Furniture of Egypt William Matthew Flinders Petrie, 1977 **The Funeral Furniture of Egypt Eith Stone and Metal Vases** William Matthew Flinders Petrie, 1977 **The Funeral Furniture of Egypt** William Matthew Flinders Petrie, 1937 **The Petrie Egyptian Collection and Excavations: The funeral furniture of Egypt : stone and metal vases** William Matthew Flinders Petrie, 1974 Ancient Egyptian Materials and Technology Paul T. Nicholson, Ian Shaw, 2000-03-23 The book describes current research into all aspects of craftwork in ancient Egypt *Ancient Egyptian Furniture* Geoffrey Killen, 2017-03-31 This revised second edition examines the common forms of furniture used in ancient Egypt so much of which has been preserved by the dry Egyptian climate and has long been admired for the quality of its design and construction The story begins with the earliest known pieces and ends with the spectacular discoveries from the 18th dynasty represented mainly by the magnificent furniture from the tomb of Tutankhamun The insight which Dr Killen brings in the detailed explanations of the materials techniques and designs of the master craftsmen of ancient Egypt gives this book a special significance There is a catalogue of known pieces from museums around the world classified by type beds stools chairs and tables with detailed analyses of the materials tools and joinery The splendid photographs and drawings illustrate each piece and technique **Stone Vessels in the Levant** RachaelThyrza Sparks, 2017-07-05 Examining stone vessels in the Levant during the 2nd millennium BC the author explores the links between material culture and society through a comprehensive study of production and distribution Extensively illustrated with 100 drawings maps and charts this volume includes a full object catalogue This study represents the first comprehensive overview of the stone vessel assemblages of the Levant in this period a time which fed by an increase of wealth and interregional trade saw a growth in the popularity and variety of such vessels Previously our understanding of the varied functions and forms of these diverse vessels has been relatively underdeveloped In this volume the author attempts to address this problem by creating a typological framework through which we can analyse variability and define essential characteristics of local stone vessel workshops Only once this has been achieved is it possible to look at stone vessel production in its wider cultural context Subsequent chapters explore broader themes beginning within the workshops themselves examining the links between craftsmen their sources of raw materials and the authorities that controlled and distributed their output Considerations of the geographical and chronological distribution of such goods are then used to provide a regional perspective for the operation of these workshops connections between them and further insights into the nature of local and international trade Finally the objects themselves can be used to assess the impact of trends such as the growing Egyptianization of the ruling classes of the Levant at this time **The Egyptian Collection at Norwich Castle Museum** Faye Kalloniatis, 2019-08-30 The Egyptian Collection at Norwich Castle Museum represents the first full publication of this important collection which contains several outstanding objects Part 1 begins with an outline of the acquisition history of the Egyptian collection and its

display within Norwich Castle in 1894 when it was converted from a prison to a museum The collection was largely acquired between the nineteenth and first part of the twentieth centuries Its most prominent donor was Flaxman Spurrell whose varied collection of flints faience beads and necklaces as well as Late Antique cloths was obtained from Sir Flinders Petrie Also prominent was the Norwich based Colman family most notable for its manufacture of mustard whose collection was purchased in Egypt during the late C19 Also included in this part are essays on several of the museum s outstanding items Ipu s shroud a rare early 18th Dynasty example with fragments also held in Cairo the 22nd Dynasty finely decorated and well preserved cartonnage and wooden lid of the priest Ankh hor and the exceptional model granary of Nile clay painted with lively scenes one showing the owner Intef playing senet Part 2 is a detailed catalogue of the complete collection It is organised into sections with objects grouped together mainly according to type stelae shabtis scarabs jewellery amulets vessels flints lamps inscribed Book of the Dead fragments metal figurines and Late Antique cloths and also according to function such as cosmetics grooming and architectural furniture elements The inscribed materials have all been translated and individual entries give examples or parallels Seventy colour plates illustrate each object "Ra is My Lord" Jochem Kahl,2007 Due to extremely poor and difficult sources we are as much in the dark about the history of the Egyptian 2nd Dynasty c 2850 2700 BCE as we are about the Gods worshipped at that time Nor are we sure about the reigns and order of kings from this period having assumed that veneration of the Sun God Re began during the 2nd Dynasty opinion has changed over the last thirty years evidence for the worship of Re has been found only for the beginning of the 3rd Dynasty **The Hypocephalus: An Ancient Egyptian Funerary Amulet** Tamás Mekis,2020-02-29 The hypocephalus is an element of Late Period and Ptolemaic funerary equipment an amuletic disc placed under the head of mummies Its shape emulates the sun s disc and its form is planar although it is occasionally concave This volume analyses the written records and iconography of these objects *Experiments in Egyptian Archaeology* Denys A. Stocks,2013-02 In this fresh and engaging volume Denys A Stocks examines the archaeological and pictorial evidence for masonry in ancient Egypt Through a series of experiments in which he tests and evaluates over two hundred reconstructed and replica tools he brings alive the methods and practices of ancient Egyptian craftworking highlighting the innovations and advances made by this remarkable civilisation This practical approach to understanding the fundamentals of ancient Egyptian stoneworking shows the evolution of tools and techniques and how these come together to produce the wonders of Egyptian art and architecture Comprehensively illustrated with over two hundred photographs and drawings *Experiments in Egyptian Archaeology* will bring a fresh perspective to the puzzles of Egyptian craft and technology By combining the knowledge of a modern engineer with the approach of an archaeologist and historian Denys Stocks has created a work that will capture the imagination of all Egyptology scholars and enthusiasts
