

scène de la mort au combat, bien connus aujourd'hui.

La dernière partie du livre de G. Laderman, qui s'intitule « Naissance de l'industrie de la mort », décrit en détail le traitement du cadavre du président Lincoln qui fut présenté au peuple lors d'un long périple funèbre à travers tout le pays. Il y voit le triomphe des embaumeurs professionnels et la légitimation du « business de la mort » auquel il consacre son dernier chapitre.

Le progrès scientifique et la technique de l'embaumement, perfectionnée à l'occasion de la guerre, vont permettre, grâce à l'avènement de la société de consommation, l'essor de « l'industrie de la mort » à la fin du XIX^e siècle. L'embaumement, qui était tabou au début du siècle, puis se pratiqua presque clandestinement en milieu médical dans les années qui suivirent, devint légitime et respectable après la guerre. Et c'est là que l'analyse de G. Laderman est un peu courte. Suffit-il que le corps ait perdu de sa valeur symbolique potentielle, en raison du déclin des croyances religieuses ou de la tuerie de la guerre, suffit-il de l'avènement de la société de consommation pour expliquer l'engouement des Américains pour l'embaumement ? Ne retrouverait-on pas ces éléments dans d'autres pays qui n'ont pas pour autant adopté « the American way of death » pour reprendre le titre du livre de Jessica Mitford (1963) traduit en français sous le titre *Le cher disparu* ? Il aurait fallu explorer davantage certaines des implications de la société de consommation : dans une telle société, tout devient marchandise, même le corps du mort. C'est aussi que, comme le dit Jean Baudrillard, « le bonheur c'est la référence absolue de la société de consommation ». La société américaine a non seulement le culte du bonheur, mais elle a aussi celui de la jeunesse et de la santé : même les morts doivent rester jeunes. L'auteur ne s'interroge pas sur ce refus de voir la mort telle qu'elle est, sur le fait que maquillée, elle devient presque un pseudo-événement. Et c'est ce

maquillage qu'il aurait fallu analyser en le replaçant dans le contexte de la culture américaine de la fin du XIX^e siècle, dont certains aspects durent encore. On aurait aimé que l'auteur se demande ce que cette pratique doit à cette culture. Il aurait pu suivre les pistes intéressantes ouvertes par Umberto Eco dans ses analyses de goût des Américains pour l'« hyperréalité », une « réalité » entièrement fabriquée, un chef-d'œuvre du faux (*La guerre du faux*, 1985) et par Miles Orvell dans *The Real Thing. Imitation and Authenticity in American Culture, 1880-1940*, 1989). Orvell voit le XIX^e siècle comme le siècle de l'imitation, la technique, c'est-à-dire la machine, permettant de tout reproduire. « L'industrie de la mort » montrerait jusqu'où cet art de l'imitation peut aller puisqu'elle peut donner au mort l'apparence du vivant. En ce sens, la commercialisation de l'embaumement n'offre-t-elle pas un condensé de la culture de masse qui prend son essor à la fin du XIX^e siècle et qui allie le culte de la technique, la fétichisation du corps et l'obsession de la « real thing » qui se nourrit de simulacres ou d'illusions ?

Robert Hertz soulignait le fait que la mort d'une personne ne marquait pas seulement la disparition d'un individu mais signifiait aussi l'amputation d'une société de l'un de ses membres. C'est avec ce présumé ethnographique qu'Avner Ben-Amos interroge dans ce livre remarquable les pratiques funéraires mises en œuvre par l'État en France depuis la Révolution française. Son enquête dépasse d'ailleurs ce seul terrain. Elle insère en effet les funérailles d'État dans tout un

Funerals, Politics, and Memory in Modern France, 1789-1996 Avner Ben-Amos, 2000 This is an interdisciplinary study of the state funerals that were celebrated in France between the French Revolution and the death of Francois Mitterand Its aim is to explain how the funerals of such prominent figures as Voltaire Napoleon Gambetta Hugo and de Gaulle became major public events that helped to mould the national memory Combining the insights of anthropologists and sociologists with a historical analysis it argues that the dual character of the ceremony a political festival and final rite of passage turned the state funeral into a gripping event to which few French people could remain indifferent The book focuses on the republican tradition of state funerals which emerged in the French Revolution and has continued through the Fifth Republic Whether in power or in opposition the republicans used the funerals of their leaders and militants to educate the masses and mobilize public support This book the first comprehensive analysis of French state funerals is also a major contribution to the study of republican culture

Making Space for the Dead Erin-Marie Legacey, 2019-04-15 The dead of Paris before the French Revolution were most often consigned to mass graveyards that contemporaries described as terrible and terrifying emitting putrid miasmas that were a threat to both health and dignity In a book that is at once wonderfully macabre and exceptionally informative Erin Marie Legacey explores how a new burial culture emerged in Paris as a result of both revolutionary fervor and public health concerns resulting in the construction of park like cemeteries on the outskirts of the city and a vast underground ossuary Making Space for the Dead describes how revolutionaries placed the dead at the center of their republican project of radical reinvention of French society and envisioned a future where graveyards would do more than safely contain human remains they would serve to educate and inspire the living Legacey unearths the unexpectedly lively process by which burial sites were reimaged built and used focusing on three of the most important of these new spaces the Paris Catacombs P re Lachaise cemetery and the short lived Museum of French Monuments By situating discussions of death and memory in the nation's broader cultural and political context as well as highlighting how ordinary Parisians understood and experienced these sites she shows how the treatment of the dead became central to the reconstruction of Parisian society after the Revolution

Women and the Material Culture of Death BethFowkes Tobin, 2017-07-05 Examining the compelling and often poignant connection between women and the material culture of death this collection focuses on the objects women make the images they keep the practices they use or are responsible for and the places they inhabit and construct through ritual and custom Women's material practices ranging from wearing mourning jewelry to dressing the dead stitching memorial samplers to constructing skull boxes collecting funeral programs to collecting and studying diseased hearts making and collecting taxidermies and making sculptures honoring the death are explored in this collection as well as women's affective responses and sentimental labor that mark their expected and unexpected participation in the social practices surrounding death and the dead The largely invisible work involved in commemorating and constructing narratives and memorials about the dead from family members and friends to national figures calls attention to the role women as memory keepers for families local communities and the nation Women have tended to work collaboratively making collecting and sharing objects that conveyed sentiments about the deceased whether human or animal as well as the identity of mourners Death is about loss and many of the mourning practices that women have traditionally and are currently engaged in are about dealing with private grief and public loss as well as working to mitigate the more general anxiety that death engenders about the impermanence of life

The Legacy of the French Revolutionary Wars Alan Forrest, 2009-05-28 A major contribution to the study of collective identity and memory in France this book examines a French republican myth the belief that the nation can be adequately defended only by its own citizens

in the manner of the French revolutionaries of 1793 Alan Forrest examines the image of the citizen army reflected in political speeches school textbooks art and literature across the nineteenth century He reveals that the image appealed to notions of equality and social justice and with time it expanded to incorporate Napoleon s victorious legions the partisans who repelled the German invader in 1814 and the people of Paris who rose in arms to defend the Republic in 1870 More recently it has risked being marginalized by military technology and by the realities of colonial warfare but its influence can still be seen in the propaganda of the Great War and of the French Resistance under Vichy **Mao's New World** Chang-tai

human rights law such as the Universal Declaration of Human Rights The LDH occupies a central place in French justice debates and is therefore an ideal template to analyse the rising influence of humanitarianism and crimes against humanity in French causes c l bres from the 1970s onwards However the author goes further to look beyond the LDH and even France itself offering wide ranging surveys of dominant rights issues across Europe at any given period Drawing on extensive research and interviews with key members of the LDH this book provides an accessible overview of human rights struggles in twentieth century France The French Republic Edward G. Neill who seems to have vanished into obscurity a few years after these stories were first published in 1895 Royster has also unearthed and included two essays O'Neill published in magazines of the time one a description of a Buddhist temple in Hanoi and the other an appreciation of the Hungarian novelist Maurus J. Culture Wars Christopher Clark, Wolfram Kaiser, 2003-08-14 Across nineteenth century Europe the emergence of constitutional and democratic nation states was accompanied by intense conflict between Catholics and anticlerical forces At its peak this conflict touched virtually every sphere of social life schools universities the press marriage and gender relations burial rites associational culture the control of public space folk memory and the symbols of nationhood In short these conflicts were culture wars in which the values and collective practices of modern life were at stake These culture wars have generally been seen as a chapter in the history of specific nation states Yet it has recently become increasingly clear that the Europe of the mid and later nineteenth century should also be seen as a common politico cultural space This book breaks with the conventional approach by setting developments in specific states within an all European and comparative context offering a fresh and revealing perspective on one of modernity's formative conflicts

Re-Writing the French Revolutionary Tradition Robert Alexander, 2003-12-11 This book examines the politics of the French Revolutionary tradition during the Bourbon Restoration and early July Monarchy Robert Alexander argues that political change was achieved by legal grassroots organization and persuasion rather than by the revolutionary tradition of conspiracy and armed insurrection Moreover political struggle was not confined to the elite as common material values linked the electorate to those deprived of the power to vote Battle between advocates of national and royal sovereignty constituted the principal dynamic of the period and fostered significant developments in party formation previously unrecognized by historians To substantiate his claims the author analyses relations among the Liberal Opposition ultraroyalists and the state concluding that although Liberals triumphed in the 1830 Revolution thereafter they contributed to the destabilization that produced an immobile Orleanist regime Nevertheless they had pioneered a model for change which could successfully adapt pursuit of reform to longing for civil order
