

ELEMENTS OF SOCIALISM: SOCIAL EQUALITY

- Equality is the central, pivotal value of socialism.
- Socialism is portrayed very often like a form of egalitarianism, which believe in the value of equality.
- Socialism emphasize the importance of social equality.
- Socialists believe that a measure of social equality is the essential guarantee of social stability and cohesion, encouraging individuals to identify with their fellow human beings.
- Socialism provides the basis for the exercise of legal and political rights.

Elements Of Socialism

HardPress, John Spargo

Elements Of Socialism:

Elements of Socialism John Spargo, George Byron Louis Arner, 1912 *Elements of Socialism* John Spargo, George Byron Louis Arner, 1925 **Elements of Socialism** John Spargo, 2015-06-28 Excerpt from Elements of Socialism A Text Book

Beginning of the Socialist movement In the early part of the nineteenth century that splendid century of progress in science and invention of capitalistic expansion philosophic individualism and economic laissez faire arose the deep seated and far reaching popular movement which we call Socialism Like every other great movement in history it was at first weak and insignificant It consisted of little more than a vague groping for a way of escape from the evils of the time Its adherents were for the most part poor men without influence victims of poverty and oppression led by a few idealists Thus it was not essentially different from the movements of protest which in all ages have challenged and assailed recognized injustice But the new movement soon passed out of this stage of its development and became a conscious disciplined force with its positive and negative sides well defined The rapidly growing industrial system gave a great impetus to science The principle of universal evolution and the methods of science profoundly influenced every department of human thought and activity in the leading countries of the world Under that influence Socialism took shape as a powerful force aiming at the destruction of an economic system in which a few are enabled to appropriate most of the advantages of industrial effort and progress and at the development of a new economic system based upon cooperation democracy and justice and insuring equality of opportunity to all Importance of the movement In spite of ridicule ostracism and bitter persecution the Socialist movement has made phenomenal progress Its representatives are to be found in the parliaments of all the leading nations About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Elements of Socialism* William James Ghent, 1916 **Critical Citizens** Pippa Norris, 1999-03-25

Critical Citizens Global Support for Democratic Government analyses a series of interrelated questions The first two are diagnostic how far are there legitimate grounds for concern about public support for democracy world wide Are trends towards growing cynicism evident in the United States evident in many established and newer democracies The second concern is analytical what are the main political economic and cultural factors driving the dynamics of support for democratic government The final questions are prescriptive what are the consequences of this analysis and what are the implications for strengthening democratic governance This book has brought together a distinguished group of international scholars who develop a global analysis of these issues that looks at trends in establishes and newer democracies as we

approach the end of the twentieth century It also presents the first results of the 1995 7 World Values Study as well as drawing on an extensive range of comparative empirical evidence Challenging the conventional wisdom this original and stimulating book concludes that accounts of a democratic crisis are greatly exaggerated By the mid 1990s most citizens world wide shared widespread aspirations to the ideals and principles of democratic government At the same time there remains a marked gap between evaluations of the ideal and the practice of democracy The public in many newer democracies in Central and Eastern Europe and in Latin America proved deeply critical of the performance of their governing regimes And in many established democracies the 1980s saw a decline in public confidence in the core institutions of representative democracy including parliaments the legal system and political parties The book considers the causes and consequences of the development of critical citizens It will prove invaluable for those interested in comparative politics public opinion and the dynamics of the democratization process ADVANCE PRAISE The great democratic paradox of the 1990s is that it has simultaneously been the decade of democratization and the decade of growing distrust of democratic institutions This volume admirably dissects the complex and multi dimensional background of these conflicting trends and presents a judicious evaluation of the grounds of optimism and pessimism in which fortunately the former prevails AREND LIJPHART University of California San Diego Critical Citizens is the most comprehensive collection of comparative work on confidence in government and sources of public support for democracy I strongly recommend it SEYMOUR MARTIN LIPSET George Mason University Pippa Norris and her colleagues examine claims and counter claims about the erosion of public confidence in democracy describe the depth and dynamics of trust in government and lay out a broad and differentiated approach to the phenomenon They sort out the rather high degree of support for democracy from widespread uneasiness with the workings of institutions and with the behaviour of politicians Their book is must reading for survey researchers and comparative students of democracy alike SIDNEY TARROW Cornell University This is the most impressive comparative study of how citizens in contemporary democracies relate to their governments In an age of expanding democratic institutions around the globe the authors of Critical Citizens capture the reader's interest and provide a masterful update on one of the critical issues of our time CHRISTOPHER J ANDERSON Binghamton University SUNY It is the Civic Culture study 40 years later Critical Citizens is a landmark comparative study of trends in attitudes toward nation government regime political institutions and leaders in some forty regionally well distributed countries bringing together the research of a cross national team of social scientists led by Pippa Norris of the Harvard Kennedy School It is full of theoretically interesting insights as well as findings that have an important bearing on public policy GABRIEL ALMOND Stanford

The Road to Power, Or, The Constructive Elements of Socialism Karl Dannenberg, Workers' International Industrial Union. Literature Bureau, 1919

Elements of Socialism John Spargo, 2018-05-07 Excerpt from Elements of Socialism A Text Book Provisional definition As we have already intimated Socialism may be conveniently divided into four parts No study of Socialism can be

satisfactory no definition of it can be complete which does not consider it as 1 a criticism of existing society 2 a philosophy of social evolution 3 a social forecast or ideal 4 a movement for the attainment of the ideal As a provisional definition then we may accept the following Socialism is a criticism of existing society which attributes most of the poverty Vice crime and other social evils of today to the fact that through the private or class ownership of the social forces of production and exchange the actual producers of wealth are exploited by a class of non producers a theory of social evolution according to Which the rate and direction of social evolution are mainly determined by the development of the economic factors of production distribution and exchange a social forecast that the next epoch in the evolution of society will be distinguished by the social ownership and control of the principal agencies of production and exchange and by an equalization of opportunity as a result of this socialization a movement primarily consisting of members of the wealth producing class which seeks to control all the powers of the State and to bring about the collective ownership and control of the principal means of production and exchange in order that poverty class antagonisms Vice and other ill results of the existing social system may be abolished and that a new and better social system may be attained About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The Chautauquan ,1900 **Elements of Socialism...** HardPress,John Spargo,2013-12 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **The American Economic Review** ,1911 *The Elements of Socialism* John Lowther Murphy,1840 Alphabetical Finding List Princeton University. Library,1921 Readings in Political Science Raymond Garfield Gettell,1911 **Environment for Business: Strictly as per requirements of the Gujarat Technological University** S. Tamer Cavusgil,Gary Knight,John R. Riesenberger, **The New International Encyclopædia** Frank Moore Colby,Talcott Williams,1922 **The Northern California District of the Communist Party, Structure, Objectives, Leadership** United States. Congress. House. Committee on Un-American Activities,1960 *An Outline of Political Economy* Iosif Abramovich Lapidus,Iosif Lapidus,Konstantin Ostrovitiĭanov,Konstantin Vasil'evich Ostrovitiĭanov,1929 **Can't See the Forest for the Trees** Eldon Adams,2022-11-15 Sometimes the deepest knowledge of God comes from those who had to trust in Him the most What does this book's title Can't See the Forest for the Trees

imply A simple answer is The Forest is symbolic of God s Plan revealed in Bible scripture with all of its mystery to be understood and fulfilled with steadfast belief faith and trust in the power of the Holy Trinity God the Father Jesus Christ the Son and the Holy Spirit one for all all for one God s Plan is a work in progress nearing fulfillment The Trees are symbolic of obstacles like gullibility false teaching false prophecy false doctrine apostasy hate lying deceit evil love of money blind speculation and the like all of which are growing rampant in the United States The message reveals Spiritual Blindness as a curse that God has imposed upon His Church for their lack of true faith in Him not unlike the Israelites as they turn away from the New Covenant Law blindly accepting unsuspected guidance from Satan to employ worldly ways and promote apostasy By misguided faith some may be unprotected by the Armor of God and their failing to cultivate the Fruit of the Spirit makes matters worse The author is hopeful that his book will bring awareness of spiritual blindness to summon a repentant reaction for restoration of religious understanding and direction in line with God s real purpose

ELEMENTS OF
